Hostetter's Celebrated Stomach Bitters

HEAD R. D. E. N. SOUTHWORTH' LETTER.

PROSPECT COLLEGE, GEORGET[illegible]WN, D. C., } [illegible] 1, 1865.

MESSRS HOSTETTER & SMITH—*Gentlemen*: It gives me pleasure to add my testimonial to those of others in favor of your excellent preparation. Several years of suffering on the banks of a Southern river, and of close application to literary work, had so thoroughly exhausted my nervous system, and undermined my health, that I had become a martyr to dyspepsia and nervous headache, recurring at short intervals, and defying all known remedies in the Materia Medica. I had come to the conclusion that nothing but a total change of residence and pursuits would restore my health, when a friend recommended Hostetter's Bitters. I procured a bottle as an experiment; it required but one bottle to convince me that I had found at last the right combination of remedies. The relief it afforded me has been complete. It is now some years since I first tried Hostetter's Bitters, and it is but just to say that I have found the preparation all that it claims to be. It is a Standard Family Cordial with us, and even as a stimulant we like it better than anything else; not we use it in all nervous, bilious, and dyspeptic cases, from fever down to toothache. If what I have now said will lead any dyspeptic or nervous invalid to a sure remedy, I shall have done some good.

I remain, gentlemen, respectfully yours,
E. D. E. N. SOUTHWORTH.

Hostetter's Bitters

Are sold wholesale and retail at very low rates at Fleming's Drug and Patent Medicine Depot, No. 84 Market street, corner of the Diamond and Fourth street.

American Vessel Seized and Confiscated.

NEW YORK, March 21—The *Herald's* Sisal (Yucatan) correspondent, of the 10th inst., gives an account of the seizure and confiscation in that port by the Mexican Imperial authorities, by the American schooner Wilson Crawford, and the fining and imprisonment of her master, because some powder was found on board the vessel. The master's sentence was ten years penal labor, but he was pardoned by the Empress. Immediately after regaining his liberty, however, he was once more arrested and sentenced to pay a fine of five hundred dollars, which he avoided liquidating by secretly leaving the country.

INTERESTING FROM MEXICO.

THE MURDER OF THE BELGIUM ENVOY.

Reported Defeat of the Juarists.

CHANGES IN THE IMPERIAL CABINET.

HAVANA, March 17.—The steamship Panama arrived yesterday, three days from Vera Cruz. She brings dates from the port of departure to the 13th, and from the City of Mexico to the 9th. There is but little news of importance. The papers are filled with accounts of the murder of the Belgium envoys, General Lourry and Count de Hourt. The funeral obsequies were celebrated in the City of Mexico with great pomp, on the 7th. Maximilian and Carlotta assisted.

There is an account of a defeat of the Juarists under Patrico, Diaz, Lenin, Perez, Lopez Canedeo, and Leguzo. Strange to say every gun and everything was captured, except the infantry, who are reported to have escaped on foot, the attacking party being cavalry.

The Emperor of Austria has just sent by the Count Bombelles, the original letters of Iturbide to Generals, and one of the original letters of Herran Uncurtu, of Mexico. They are from the Royal Museum of Vienna.

The resignation of Hidalgo, Minister to France, has been accepted, and Gen. Almonte appointed in his place.

There have been several changes in the so-called Imperial Cabinet, but they are of little interest to the public generally.

Our latest dates from the interiors are to the 2d. Considerable indignation has been occasioned here by the publication in the papers that the United States Government has not been a single case of cholera here. The small pox is decreasing in Regla.

Senators Foote and Dixon—Case of a Chicago Postmaster—The Ten-Forty Loan—Freedmen's Contribution from England—The Civil Rights Bill—Government Coupon Counterfeits—Transportation of Petroleum.

NEW YORK, March 21.—Senators Dixon and Foote are growing worse. There is still hope of the recovery of the latter.

Ike Cook, of Chicago, who was sued by the solicitor of the Treasury for the benefit of the Department from him, as Postmaster at Chicago, in 1862, has paid up the amount of two thousand five hundred dollars, and the case has been dismissed.

Controller Clarke states that twenty-seven millions of dollars, of the ten-forty loan, was not issued; that recently, however, three thousand seven hundred and fifty dollars have been quietly issued of this old loan, and at six per cent. interest.

Another contribution, amounting to nearly one thousand dollars in value, from the Birmingham, England, Freedmen's Association has just been received by General Howard, and will be appropriated to the use of the destitute colored people in the South.

General Spinner publishes a letter in the Washington papers, which he maintains to the correctness of Controller Clarke in relation to payments regarding the [illegible]mount of Government bonds on hand.

Washington spec[illegible]says: It was currently reported last night, that the President has finally made his determination to veto the Civil Rights bill.

The *Herald's* Washington special says: The counterfeiting of Government coupons has been carried to such an extent that the Treasury Department has decided to engrave vignettes of the proper size, to be printed upon all the future issues, and thereby render engraving as necessary to a counterfeit coupon as to the note or bond. Portraits of the President, McCulloch, Grant, Sherman and others are executed for this purpose.

The *Times'* special says: Several Collectors of Customs have sent communications to the Secretary of the Treasury, asking instructions in regard to the transportation of crude and refined petroleum. They ask if the penalties of the law of August 30th, 1862, shall be enforced against steamboats for transporting crude and refined petroleum without special license. In other words does petroleum come under the class of other explosive burning fluids. The Secretary replies that the Department has not decided that crude and refined petroleum are of that character, and until otherwise ordered, these commodities can be carried as freight without special license, proper care being observed in the storage with reference to the safety from the hazard of fire. Mr. McCulloch has referred the question of the explosive quality of petroleum to a special board of chemists and experts, with directions to report at the earliest moment. The action of this board will guide the Secretary in making rules hereafter as to the transportation of petroleum.

Smuggling Brig Detected—O'Mahoney Bonds in Ireland—The Iron Moulders' Difficulty.

NEW YORK, March 21.—The revenue cutter Maine detected the brig Redemption, Captain Freyle, from Cuba, endeavoring to make Newport harbor with a large quantity of cigars, tobacco, sugar and brandy not entered on her manifest.

A Dublin correspondent of the London *Times* says that a number of bonds have arrived in the city of Waterford, from New York, beautifully executed in the form of bank notes, and signed by O'Mahoney and two others. They are for sums varying from twenty to fifty pounds, bearing 8 per cent. interest, to be paid when the Irish Republic is established. With this remarkable peculiarity, they are bonds on the Curraghmore estate.

The iron moulders of Albany and Troy have ceased work. The talk of establishing a co-operative foundry of their own.

Wurtemburg Consul Recognized—The Hinderpest.

WASHINGTON, March 21.—The President has recognized F. A. Sanders as Consul of Wurtemburg at Galveston, Texas.

A. Frazier, of Germany, has addressed a communication to the Department of State, suggesting a means of preventing the spread of Rinderpest. The theory is that the diseased cattle poison the atmosphere. Hence they are to be separated from the healthy animals, and the latter lubricated with petroleum, and a small quantity of the oil mixed with their food. The communication has been sent to the House Committee on Agriculture.

Comptroller Clarke—Decision Against Negroes.

NEW YORK, March 20.—Controller Clarke has sent the following mysterious letter to the New York *Commercial Advertiser*:

WASHINGTON, March 20.—Gentlemen: I am informed you have published a most infamous, slanderous, attack against me. If I am correctly informed you see the necessity of making a proper retraction.

Respectfully yours, F. CLARKE.

Judge Thompson, of Philadelphia, has decided that colored persons must not ride in cars provided for white men in that city. The case will be appealed.

Surplus	$370,[illegible]230 93

To this latter amount add the investment in the Akron Branch road, $172,922.40, which gives a total of $550,[illegible]30.33 above all expenses and liabilities, January 1, 1866.

The expenses of working the road have been 61½ per cent. of the gross income. The earnings of 1865 exceeded those of 1864 $1,[illegible]03,290.80, or [illegible] per cent.

In reference to the future the report says "the Board is unwilling to venture an estimate for the current year, in view of the paralyse of the industrial and commercial interests of the country, growing out of the transition state through which it is passing. It is stated, however, that the position of the road is such as to give it a full share of the business of the country, whatever that business may be, and such as to enable the company to accomplish favorable results in the working of the road out of whatever traffic may offer. The entire road is reported in excellent condition. More than one hundred and fifty miles between Pittsburgh and Chicago have been relaid with steel rails the past two years, and all said for out of the earnings—a result which it is believed no other company ever accomplished in a like period of time.

The total length of siding laid during the year was 18 miles and 1,[illegible] feet, making 30 miles and 227 feet now in use. There were two new locomotives added during the year, making the total number 163. The passenger and freight equipment was very materially increased during the year.

The report then refers to the contract between this Company and the Cleveland and Pittsburgh Company, and states that the amount paid under the contract is very large for the object gained. It was not expected that any considerable amount should be paid out of the income of either party to gain these results, and the Boards of the respective companies have, by mutual agreement to the original contract, which was executed by the Presidents of the last. This supplement was read and received the approval of the stockholders.

The Board then alludes to the purchase and operation of the Akron Branch railroad, sixty-one miles in length, and extending from Hudson, on the Cleveland and Pittsburgh road, to Millersburg, the county seat of Holmes county. The amount paid for the title to this road was $[illegible]79,829.40, and the low price, together with the object gained of preventing the road from falling in the unfriendly hands, induced the purchase, which it is believed will prove profitable.

The lease of the New Castle and Beaver Valley Railroad is next referred to, and the results thereof shown to be satisfactory and profitable one, and that it will always prove remunerative to this company, and also to the shareholders of the N. C. & B. V. R. R. The gross earnings of the latter company, from May 1st to Dec. 31st, 1865, was $[illegible]79,013.87, of which (60 per cent.) or $47,323.07 was the share of P. W. F. & C. R. W. Co.

The report then refers to four railway projects making Fort Wayne a terminus, and discusses the importance of these projects, when completed as it will become to the main line of the company.

The establishment of Transportation Lines is next referred to. For ten years the company declined to admit these lines, but found themselves, by pressure of outside influences, compelled to admit them two cents per lb.; and twelve cents per hundred cents per cent. *ad valorem* on wool (being one-third of the regular rate), which charges at last port of entry—double these rates on washed and triple on unwashed wool.

The Company were ordered to procure and circulate 200 petitions for presenting to this resolution.

The Executive Committee offered the following, which was adopted:

Resolved, That the thanks of the Association are hereby tendered to the Press, viz: *Gazette, Commercial, Chronicle* and *Post*, for their liberality in giving the reports of their columns for the benefit of this Association.

The Association then adjourned, subject to the call of the President.
