FINANCE AND TRADE.

FRIDAY, March 30, 1866.

We have the following quotations from New York by telegraph: Gold, 128; U. S. 1881 Bonds, 104½; Five Twenty Bonds, 104; Ten Forties, 91¼; Seven Thirties, 100¼; Cleveland & Pittsburgh Railroad, 79½; Fort Wayne & Chicago, 92¾. The quotations vary but slightly from those of yesterday. Gold shows no change. The general stock and bond market exhibits a firmer tone, with increased business, especially in Governments. Pittsburgh quotations are about as follows: Gold, 126; Silver, 118; U. S. 81's, 101¾; 5-20s, 103¾; 10-40s, 91; 7-30s, 99⅝ par.

The amount of business done throughout the day, has, we judge, been light. Money has ruled close for borrowers, and the week closes with little, if any tendency towards greater ease. We gather the following quotations from the sales and bids which have fallen under our notice. Daily sessions of the Bankers Board having ceased, we find it somewhat difficult to present every day a perfectly reliable list of rates:

Governments quoted above. Allegheny County Fives, 76@78; Pittsburgh City Fives, 68 @69; Allegheny Valley Railroad, Mortgage 7 per cent, 93@95; Pittsburgh & Connellsville 6's, 76@80; Penna. Railroad shares, 55 bid, 56 asked; Allegheny Valley Railroad shares held at 9½; Connellsville shares, 9¾@10—sales (interest bearing) at this latter figure.

BANK STOCKS—Bank of Pittsburgh, 67@68, sales at 68; Merchants & Manufacturers, 61@ 62, no sales during the week; Mechanics, 70 bid, 72 asked; Iron City, 79@80; Citizens, 60 @61; Exchange, 66@67, sales at 66¼@66¾; Allegheny, 88@89; People's National, 108¾ bid; Tradesmen's, 112@113, sales at the first figure; National Bank of Commerce, 110@111, sales at both figures; Third National, 124@125, no sales reported; German National, 163@164, small lots reported at 163, bid to-day, 163; Fourth National, 110@111, a forced auction sale reported at lower figures, but the test was hardly a fair one.

RAILROAD STOCKS—St. Clair street, 43@44; no sales; Hand street stands at about 52; Monongahela, 29@30, sales at the latter rate; Birmingham, 33@34, with sales at 33, and larger lots at 33¼, stock held at 35.

GAS—Pittsburgh Gas Company, sales at 7½ per share; Allegheny Gas, no late sales; stock held at about 36; Birmingham Gas, sales at 29½ an l at 30, in considerable lots.

OILS—Almost ruled out of market. Columbia about the only stock mentioned, and that is exceedingly heavy at 1¼@1¾ per share. We have 1¼ bid for Dalzell. Tobacco, a new favorite from Smith's Ferry, stands at 9¼@10.

—Of the three hundred millions of dollars of the currency of the national banks, authorized by Congress, all but sixty-five millions has already been issued, and some of the advocates of proper expansion are, with some show of reason, urging the expediency of having the limit increased to four hundred millions, for the accommodation of distant parts of the country—the Southern States, more particularly, if the proposed contraction of the legal tenders should take place—but it is difficult to see how an early return to specie payments can be secured if the authorities should permit expansion to keep even pace with contraction; it is to be hoped, therefore, that they will not authorize any more currency to be issued.

—The New York *Commercial List* comments as follows on the Loan Bill:

The Loan Bill, as passed in the House, appears to be a sort of compromise measure between the Secretary of the Treasury and those in Congress who oppose his general policy. The foreign clause is retained, the Secretary being authorized to "dispose of any description of bonds authorized by said act, either in the United States or elsewhere, to such an amount, in such manner, and at such rate as he may think advisable." Not having been able to appreciate the necessity, nor to see the advantage to be derived from clothing the Secretary with power to negotiate a foreign loan and removing the annual exchequer to the money centres of Europe, we have felt constrained to oppose it from its very inception, hence we now trust that the foreign clause will be stricken out in the Senate, although the telegraphers assert that the Senate Finance Committee are favorable to the bill as it passed the House, and that no important amendments will be proposed. The efforts of Secretary McCulloch to obtain power from Congress to contract the currency with a view to bringing about specie payments, we do appreciate, and trust that he will receive it. Not that we deem any material contraction strictly necessary, but because we know that the knowledge that the power to contract was vested in the Secretary would go a great way toward obviating the necessity of a reduction of the currency. The Secretary himself has declared as much in a letter to the Chairman of the Committee of Ways and Means. As we remarked in our last, the tendencies are all in the right direction, and point directly to a resumption at no very remote period, which will probably be hastened by the clause of the Loan Bill authorizing the Secretary to fund $10,000,000 within six months, and $4,000,000 per month thereafter; but the granting of the power to fund the legal tenders, without any limit, would have proved much more effectual in our judgment, even though not used at all. This power once vested in the Secretary, the country would at once perceive that the policy of resumption was fully determined upon, and the business of the country would soon become adjusted on that basis. But the limited power to contract the currency, conferred by the bill as it passed the House, will not be without beneficial results. The alarm was sounded at the Gold Board, almost on the very instant that the bill passed the House, and it marked decline in the premium on gold was among the very first results. The Secretary thinks that "it is not desirable that specie payment should be restored until that restoration can be made permanent by increased industry and a proper adjustment of the trade with Europe." And he declares that "the battle will be more than half fought when the Government shall adopt a healthy financial policy." As this is the ground we have all along maintained, we have no need to remark that our opinion has not been changed, hence we do not believe in the expediency of declaring to the Secretary of the Treasury, so far shall thou go on the road to resumption, but no further.

—There is still dispute as to the precise shape in which the Loan Bill passed the House. The correction that followed the first report of the bill passed, to the effect that the foreign loan clause was stricken out, the *Journal of Commerce* believes is not true. That paper understands the bill, as it passed the House, to authorize the Secretary to dispose of any description of bonds authorized by said act, either in the United States or elsewhere, to such an amount, in such manner, and at such rate as he may think advisable. The clause stricken out, as stated in the papers, was the one limiting the interest on the bonds to five per cent if sold abroad, and in that case authorizing the use of foreign currency. The amendment, therefore, removes a restriction, and gives the Secretary almost unlimited discretion as to the sales of bonds.

—The New York *Tribune* says:

The provisional contract for the consolidation of various great express companies was accepted yesterday by the National Bankers' Express Company. It is understood that the arrangement is to increase the capital stock of the old companies to the extent of $5,000,000, which stock is to be taken by the National Bankers. The latter will no longer exist as a separate company.

—In the unsettled condition of the gold market, the merchandise markets are very dull, and consumers are still buying very sparingly and only for the supply of immediate wants, the considerable concessions which have already been made by holders of some descriptions of merchandise only encouraging them to await further reduction in prices, instead of stimulating them to more active and enlarged operations. The present unsettled condition of the financial policy of the Government has also a great effect in retarding business transactions of every character.

New York Iron Market.

NEW YORK, March 28.—Buyers of Scotch pig are holding off for lower rates, and though several cargoes have gone in store, prices rather tend downward. There is no speculative inquiry, and not much for consump tion at present. 400 tons Glengarnock sold in lots, at $45@46, ex ship. Makers of American are eager sellers, and are under-bidding each other to such an extent that it is difficult to give fair quotations; No. 1 may be called $43@ 45, but less would doubtless be accepted for considerable parcels; we notice 1000 tons Grey Forge at $38; 100 do No. 1 for forge purposes, on terms not made public; 400 do, $44; and 100 do No. 2, $43, all at Elizabethport. Since the large sales of steel and iron rails noticed in our last, we have heard of no transactions—100 tons English refined bar, ex ship, sold at $74@75 gold. From store, the demand is only moderate, and prices of refined bar are shaded about $2.50 per ton—there is no change in any other description. The sale of American refined bar, reported in our last, was 1000 tons, not 10,000 as mis-printed.—*Com. List.*

Albany Cattle Market.

ALBANY, March 24.—The Cattle market at the opening is unusually active, and owing to the rise in New York the price raised ½@¾c per pound, but the supply was greater than was looked for, and to-day prices receded. The decline is almost equal to the advance, so the rates about the same as last week, being from 6 to 9½c, the outside price for prime. Extra is heavy. Total receipts, 5,000. Railroad freights have been reduced to 60 cents per 100 lbs from Buffalo Suspension Bridge to New York. Sheep are plenty, and prices somewhat lower, but the demand is fair; sales 3,500 at 6@8c according to quality and weight. Receipts, 7,000.

Chicago Market.

CHICAGO, March 30.—Flour steady. Wheat quiet, at 1.34@1.35½ for No. 1, and 86c for No. 2. Corn active, at 61@62c for No. 1, and 57@58c for No. 2. Oats quiet, at 25@28c for No. 1. Highwines nominal, at $2.30@2.32. Provisions dull; Mess Pork $25.50. Lard steady, at 18c. Hogs $9.25@9.50. Dressed Hogs, $10.75.

CENTRAL LIVE-STOCK MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, March 29, 1866.

The transactions in Cattle were again light this week, owing mainly to the fact that the arrivals were meagre, but under the influence of the advices from the East the market ruled firmer and prices a shade higher. There was also a fair business done in Hogs and Sheep, but there is no decided change to note in prices. The following are the reported sales for the week:

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, March 30, 1866.

CRUDE—The Oil market presents the anomaly of being dull and firm, the arrivals being quite limited and the stock for sale on the wharf very small. Buyers are quite firm, and hold what they have at extreme rates. Low gravities in barrels cannot be had, except on very small lots, but with larger receipts of barrel oil, which are confidently expected in a short time, the chances to secure prime qualities will be increased. The sales were as follows: Sale 500 bbls., 14 cents; 200 bbls. 14 cents; 1,000 bbls. 14 cents; 1,000 bbls. in bulk at 14 cents, to arrive.

REFINED—Sales of Refined in bond, for August-delivery, free on board, at 35; 100 bbls on spot, 22 cents; 500 bbls. immediate delivery, 23 cents. Free tanglish, 1 bbl eggs, 2 9 barrels, at 50@51 cents, free on board.

ARRIVALS—The arrivals of crude by the Allegheny River since our last report, were as follows:

Nat. Ref. & S'ng Co.	1222	Fisher & Bro.	130
Wm. Haldeman	225	Clark & Co.	50
D. M. Edgerton	40	W. P. Logan	180

Finance and Trade in New York.

STOCKS AND MONEY.

NEW YORK, March 30.—The market for railway shares was firmer towards the close, and the largest sales were the highest. There were no representatives of the Petroleum and Mining Board around the street to-day, and the only transaction was the sale of Benton Gold, at 2.15, a further rise. The Gold market remained firm to the close, and the last sale was $500,000 at 127⅝. It is said that some orders for gold have gone over to Europe. Sterling Exchange is dull and weak.

NEW YORK, March 30.—The *Post* says the following were the principal transactions in the street to-day: $200,000 of American gold sold at 127⅝. $75,000 of American gold sold at 127⅝ for Tuesday. $30,000 of American gold sold at 128. 200 shares Michigan Southern sold at 86—shares Four Telegraphs sold at 39.

The New York *Commercial* says money is without change, transactions being very light at 5 per cent. on call loans. Prime paper is in prime paper. The dealings in Government securities are merely nominal. The following are the quotations: 5-20's (unpaid bills), 104@ Coupons, 92¾; 7-30s 104¾. Gold quiet, but firm at about the average rates of yesterday. The price opened at 1,27⅝, and advanced to 1,27⅝@1,28. Exchange very dull, the partial suspension of business having checked transaction. Sterling still lower. Prime Bankers 60 day's sterling quoted at 1,08¾@1,09; the bulk of transactions being at 1,09¼@1,09⅝. Francs, long date, 5,31.
