FINANCE AND TRADE.

THURSDAY, April 26, 1866.

Gold has still further advanced to-day, being quoted in New York at 128. Governments firm and higher. New York quotations to-day were as follows: 1881's, 108⅜@5-20's, 106; 10-40's, 96¾; and 7-30's, 103⅜@103¾.

The great abundance of money and the facilities for obtaining it upon anything like fair securities, added to the apparent acquiescence in the belief that the currency cannot be materially contracted under the new loan bill, is producing the natural result to again inflate prices, and we may therefore expect that such articles as can be conveniently managed by speculators will again advance in price. The stock bear is both in Philadelphia and New York, for the last week or two, have been much excited, and present, daily, unmistakable evidence of the plethoric condition of the money market.

The following banks of Pennsylvania, from a recent statement of the Comptroller of Currency, would be reduced in circulation by the proposed Senate amendment as follows:

Pittsburgh National Bank of Commerce, $50,000; Iron City Bank of Pittsburgh, $40,000; Farmers' Bank of Reading, $40,000; Allegheny Bank Pittsburgh, $50,000; Exchange Bank, Pittsburgh $100,000; Citizens' Bank, Pittsburgh, $50,000; Third National Bank, Pittsburgh, $50,000; Mechanics' Bank, Pittsburgh, $50,000; Peoples' Bank, Pittsburgh, $100,000; First National Bank, Pittsburgh, $50,000; First National Bank, Pittsburgh, $50,000; First Allegheny Bank, Pittsburgh, $50,000; First National Bank, Philadelphia, $100,000; Farmers and Mechanics National Bank, do, $300,000; Penn National Bank, do, $50,000; Northern Liberties' National Bank, do, $50,000, Corn Exchange National Bank, do, $50,000; City National Bank, do, $50,000; Commercial National Bank, do, $50,000; Girard National Bank, do, $100,000; North American National Bank, do, $100,000; Mechanics' National Bank, do, $50,000; Merchants and Manufacturers' National Bank, do, $50,000; Columbian (1) National Bank, do, $50,000; Western National Bank, do, $50,000; Central National Bank, do, $75,000; Tradesmen's National Bank, do, $50,000; Miners Bank, Pottsville, $50,000; First National Bank, Easton, $50,000; Manch Chunk Bank, $40,000; Farmers Bank, Lancaster County, $45,000; Easton Bank, $50,000.

—The New York Tribune, of Wednesday, says:

Money on call is growing in abundance at 6@7 per cent rates. Large amounts are offered at 6 per cent, and as low as 5 per cent would be accepted for round sums. The hesitation of the Treasury Department in proposing a funding scheme, the fear of the cholera, which checks the desire to make long engagements, and the fact that the West is doubtful as to usual large demand upon the Atlantic cities for currency move the crowd, unite in producing an accumulation of money on call such as has rarely if ever been known in this city. The Government shows no disposition to retire the hundreds of millions of currency produced by it under the stimulus of last Fall, and is steadily finding its way to the commercial centers, where it will not long remain idle. The purchasing power of paper money is greater than at any time since the Rebellion was in full progress, and it is consequently more generous. A paper dollar and a gold dollar now stand at 100 and 196 instead of 100 and 50, and unless the amount of currency is reduced, the year 1866 will witness as great speculations with specie tend ng toward par as when the Government issued its millions of credits per day, and gold promised to touch the premium reached in the "Confederacy." The activity of war, which fully employed every dollar of currency the Treasury could command, has been succeeded by the repose of necessarily priced commodities, and a consequent diminished employment for currency. The money market presents an unusually or an excessive amount of capital seeking use on short engagements, at nominal interest, with few persons indisposed to invest in new commercial enterprises, or to buy long paper representing the business of existing houses. This condition of affairs has been produced by the bold theories of the Secretary of Treasury, and his neglect to reduce them to practice. People will soon tire of waiting for the Treasury or the cholera, and enterprising speculations such as an abundance of idle money never fails to stimulate. The first steps of the movement are apparent, as the stock list shows, in the prices paid for anything in the form of a corporate obligation.

—The revenues of the Government, impost and excise, for the current fiscal year, will average an amount *$1,500,000 per day, or five hundred and twenty-five millions for the year.* It is at present questionable whether this scale will be materially reduced for the succeeding fiscal year. It is practicable to create and render saleable for the reduction of interest, a consolidated five per cent gold-bearing stock which in five, or at most seven years, could be made to absorb the entire two thousand millions of the present funded and 7-30 per cent funishable securities of the United States, except the $300,000,000 of 6 per cents of 1881, and even those by purchase, or on the allowance of a moderate difference in exchange to the holders.

—The Chicago Tribune, of Wednesday, says:

The failure of Mr A. O. Tickinor, grain and gold speculator, was announced on 'Change to-day. His losses are said to amount to only about $40,000, and his creditors generally have every confidence that he is abundantly able to pay them. One of two claims have been settled, and almost to cent; but two claimants are willing to accept less than one hundred cents on the dollar. Mr. Tickner has for a year past been very fortunate in his grain and gold operations, and his failure took almost every one by surprise. The recent advance in Turner—which he had sold "short"—is the immediate cause of his failure. The affair caused no excitement.

Finance and Trade in New York.

GOLD AND STOCKS.

NEW YORK, April 25.—Gold closed at 128. Exchange higher at 109¾. Money easy at 6@7 per cent. The speculative movement in breadstuffs continues. There was another sharp rise to-day. The returns of the leading railways for the third week in April, so far as they have come to hand, show an increased traffic, and this is likely to continue in the future.

The market for Government securities is dull on 5-20s, and the market is very firm in the face of the decline in the other side. PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, April 26, 1866.

The chief item of interest in the produce markets to-day, was the renewed excitement in Flour and Grain, both for which have still further advanced, in consequence of the advices both from the East, West and Europe. The stocks here are very light, and quite a number of dealers find it almost impossible to supply the wants of their customers, even at the advance. Provisions, also, are firmer, though there is no material improvement in the demand.

ASHES—Pearls are scarce and firm, and there is a continued fair demand; Sales at 12c, Soda Ash is quiet and unchanged at 5½@6 for common, and 6½@7 for Refined.

GRAIN—Wheat is firm and held at an advance—no sales reported. Oats scarce and higher; sales of prime Penna. and Ohio at 60, on track, and 65 from store. Corn is firm and looking up; sale of 2 cars shelled to arrive, at 78. Barley is in demand and in light supply. Rye is selling at 75.

FLOUR—Was again somewhat excited today, and another advance has been established. We now quote at 9½@9¾ for Spring Wheat 10¼@10½ for half Spring and half Winter and 11@11½ for Winter Wheat. Sale of 700 bbls Winter Wheat, to arrive, at 11½. Rye Flour is quiet—small sales at 6½@6¾.

PROVISIONS—Bacon is quiet but steady at 13 for Shoulders; 15½ for Ribbed Sides; and 20@21 for Sugar Cured Hams. Lard is held at an advance, and prime kettle may be quoted firm at 20. Dried Beef 24. Mess Pork firmer, but no improvement in the demand.

POTATOES—Market is a little steadier, but prices have undergone no quotable change. Sales of Peach Blows in a regular way from store at $1.10@1.15 per bush, and $3.15@3.25 per barrel.

BUTTER—Is in better demand and firmer, but unchanged. Good to prime Roll sells readily at 40 to 45.

EGGS—Dull with a supply considerably in excess of the demand. Sales repo ted at 18@20.

SORGHUM—Is dull and in pretty good supply; sales at 60@65.

CHEESE—Is dull but unchanged—Goshen, 24@25.

PIG LEAD—Sale of 600 pigs at 9¼.

DRIED FRUIT—Apples firm with sales at 13 @13. Peaches in demand and scarce; quarters may be quoted at 17@18, and halves at 20@22.

HAY—Sale on wharf of 40 bales at $22@23.

SEEDS—Sales of Clover in a small way at $5¼. No Timothy in market. Flaxseed is wanted at $2¼.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, April 26, 1866.

CRUDE—The market was again moderately active to-day, the sales being, in the aggregate, up to the usual average, but prices are a little weak, and the tendency seems to be downward. Sales of 18 bbls., at 13; 600 do., at 13; 600 do., at 13; 150 at 13; 1,000, in bulk to arrive, at 13; 300 (42 gravity) at 12¾; and at 13¼; 630 bbls., (40 gravity) at 12¾; and 400 bbls at 13, bbls included. The reported sales, in the aggregate, reached a little over four thousand barrels and prices ranged from 12½ to 13½, for bbls of heavy gravities—artinary oil, say from 40 to 42 gravity, is offered freely at 11. The demand for shipments continues light, but our refiners are still preserving freely.

REFINED—The demand for bonded oil was a little more active to-day than yesterday, at least the sales were considerably larger, yet there is no improvement to note in the tone of the market, and prices are barely sustained—buyers generally asking for still further concessions. Sale of 1000 bbls. for May delivery in Philadelphia, buyers option, at 28; 500 for July, at 48; 500 for May, at 39; and 500 for June—last evening at 41. August delivery in Philadelphia is still quoted at 44, and September, at 45. There seems to be little or no demand for delivery here, and as we have had no sales reported for some time, we omit quotations. Free Oil continues dull and nominally unchanged.

ARRIVALS—The arrivals of oil by the Allegheny river since our last report, were as follows:

Fisher & Bro	1074	H. McKelvy	500
W. F. Logue	194	H. D. Cochran	2000
Total			3768

CENTRAL LIVE-STOCK MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, April 26, 1866.

CATTLE—The receipts of cattle were again comparatively large this week, and with very unfavorable reports both from Philadelphia and New York, the market ruled dull and depressed, and the advance established last week was lost. The number of buyers in attendance was not as large as last week, and the few that were here bought rather sparingly, and only at low figures, not seeming inclined to operate very largely, in consequence of the adverse reports from the east. Prices for extra fat cattle, suitable for retailing in the eastern markets, and which last week sold at 7½@8 cents, did not bring over 7½@7¾ this week, and the majority of the buyers at the close thought it could not be obtained. Extra cattle were all sold at these figures. Included in the sales, were two droves, sold by Haas & Crouse, for the Allegheny market next week.

SHEEP—The receipts of Sheep were light this week, and with a good demand the market ruled firm, and an advance of from ½ to ¾ a cent per pound was established over the rates current last week. Sheared sheep sold readily at from 5 to 6 cents, gross, the latter figure only for prime fat mutton sheep. Wooled, of which there are but very few offering, may be quoted at 6½ to 7 cts.

HOGS—Market has ruled less active this week, while the arrivals are reported larger than last week. Common to good averages may be quoted at 8¼ to 9¼, while extra hen may would bring 10 cts. As will be seen by reference to the sales, Mr. Jones & Co. received a bunch at 10 cts, but they were picked hogs, and averaged two hundred and sixty pounds.

GREENBACKS
ARE GOOD,
BUT

ROBACK'S BITTERS should be used by convalescents to strengthen the prostration which always follows acute diseases.

In the bilious districts of the West and South there has, for a long time, been much needed, an article of stomach bitters, by which, if taken in proper quantities and at the proper time, are a sure preventive of

Bilious Fever, Fever and Ague, Liver Complaint, Dyspepsia, Indigestion, Jaundice, Kidney Complaints, and all Diseases of a similar nature, and

Are Better

a preventive for bilious derangement, regulating the system, and giving tone to the digestive or stomach, than any other known remedy.

Now that the war is over, there will be thousands seeking homes in the south. No person who values his life should go there without having constantly at hand ROBACK'S, as a safeguard against epidemic and maladies engendered by miasma and polute water.

Travelers to and all residents of the rank bottome of the west and south, and the valley Mississippi and its tributaries, should provide themselves with the
