TugasDAY, May 17, 1866. The gold market is steady in New York to-day at 13. The effect of the large shipment on Wednesday was connertanced by a sale of more than an equal amount by the govern-mont at 150%. Poobliess we would have seen conductions at 1358155 had that not been the ment at 120%. Doubtless we would have seen quotations at 1330135 had that not been the case. Sixes of 1881 feil of 1/2 to day, while 5-208 me amount. The amount of the rose the same amount. And Steamer Java Initer reported roturned by the Steamer Java i wars a small recovery. There is no change in 5.000. Now York quotations 1025. They are slow of all cheres at anything above 102. The home stock market is without any change of moment. Bank stocks are in de-mand, ower at present high quotations. We ay report sales of Allegheny National at 5075.

One or two of the long for-gotton list begin to show signs of life again. It is said there are buyers for Eitchie at 20 ets. per share; for Pitt-burgh and New York, and some others at 10. "While there is life there it hope," but really, we thou it these were dead. Copper stocks are getting Itroly again in the Boston market. Lower grades press the narket to some extent, though by no mean excessive amounts. It was feared that t red that the allure of Work, McCouch & Co., and the susion of Messrs, Kramer & Rahm, would unfavorably upon the loan market here, the amount permanently locked up will insignificant to cause any contraction noment to borrowers. The senior partwe are told have, as was universally ex-
