Gold is active, but without important change in prendums. The sales of the Sub-Treasury lave the effect of checking the upward ten-dency, it being understood that the Assistant commission shipment of specie to-merrow will be quite large, probably not below three millions. The science Manhattan, from Vera Gruz, brings \$225,422 in specie. Gold is loaned at 7 per cent. per annum. Foreign Exchange continues very firm at a fraction over specie shipping rate. Froduce bulk are very score, saleable. The demund for money from brokers is rather more active, but the supply is su-perabundant, and the rate continues at 5 per cent. With exceptions at 4 per cout. upon round sums. Paper is in domand, and prime amoes are taken readily at 560 per cont. The speculation spirit is spreading to the invokement of the dollars, with few soliters at that price, having been offered for some time past at \$2003 75. Downleville is very firm and active.
