Dr. Sill, Pittaburgh, Pa.—Dear Sir.—I inprove the earliest opportunity to express my
satisfaction with the operation you performed
for me on Thursday lact, extracting teeth
with forceps without breaking and without
injury to the jaw, which an educated and exportenced Dentist decided could only be extracted by splitting, levers and screws, &c.
Having had considerable experience in that
administration of chloroform and ether, and
takkni ether myself, I can appreciate your favvorite anesthetic, Nitro-Ottl Gas, for when
properly prepared and skillfully given, as in
the case in your establishment I consider it
far preferable to any other—sale, potent and
agrocable.

Truly yours, S. A. Bonknor, M. D.

Mr. John M. Read, one of the Justices of the
Supreme Court of Pennsylvania, in a case be,
force him, a few days ago, laid down, most
emphatically, the law upon the Nature and
Abstement of Nutsances. Tho matter came
before him on a complaint against the erection and maintenance of a Plaining Mill. At
the outset, the Judge laid down the general
principles governing the case. In a city like
ours, where mills, foundries and workshops of
every description abound, the decision creates
considerable uneariness and excitement. But
so our prosperity and weath are dependent
upon the same, we trust no trouble will accrus
from the recent interpretation of the law. On
the other hand we have concup, hof Public Roman.
