FINANCE AND TRADE.

SATURDAY, November 24, 1866.

The New York stock quotations to-day, as reported by Robinson, McClean & Co., were as follows: Gold, 139½; 1881s, 112¾; 5-20's old, 106½; do '65, 106½; 5-30s, new 107¼; 10-40's, first series, 105¾; second series, 104¾; Michigan Southern R. R., 86¾; Cleveland & Pittsburgh, 86¾; Pittsburgh, Fort Wayne & Chicago, 101½; Erie R. R., 72½; Union Telegraph Company, —; Chicago & North Western, 41¾; Chicago & Rock Island, 106½.

The change in New York, it will be seen by the above quotations, is decided. The panic in Wall street has spent its force, after having entailed trem endous losses upon a number of unsuspecting operators in stocks, losses estimated by one of our exchanges at twenty millions of dollars. There was doubtless good reason for contraction, and more than usual caution in making loans, but like all stock stampedes, men soon appear to act utterly without reason, and are the victims of the most senseless rumors. The blame, if blame there is, of the panic, must in part lie at the doors of the United States Treasury. The calls upon the National Bank deposits were unnecessarily exhausting, and seem less to us to have been made because the Treasury was not in any need, than to show the speculators the power of the Secretary of the market. The advocates of a rapid return to specie payments have now had another example of the certain disaster that will certainly accompany forced efforts of that sort. The only safe method, it seems to us, is that proposed by the last Congress. No further issue of National Bank notes, and a contraction in greenbacks slow but steady, at the rate of four millions per quarter. As breadstuffs decline, the purchasing power of currency increases, and should the harvests have proved all that was promised it may be judicious to slightly increase the Secretary's power to contract. But one thing must be borne in mind, that the momentum for descent must be a thousand times more carefully used than that for ascent. We look for ease in one case, we can more safety in the other.

Our local market was quiet, but much more steady throughout the week, than was the case in the east. There was but little done in Governments. Holders were not disposed to sell at the decline made in New York, while buyers waited for lower rates. No movement in City and County Bonds during the week. No sales reported in the Philadelphia market. But little doing in Railway bonds or stocks—a few sales of Allegheny Valley Railroad at 103¼ and 103⅝ bid for more. Connellsville quiet at 97@98. Bank shares in good request, with but few pressing on the market. Sales to-day of Pittsburgh Grain Elevator at 45 per share. About the usual amount of inquiry for Gas stocks, and Bridge Companies, both of which at present, are almost completely out of the market. The Birmingham Company pay their usual dividend of 3 per cent. to-morrow, will pay their next dividend about the first of next month—no late sales of the stock. Allegheny Gas Company paid four per cent. The stock is in demand at 75, but the present rate is much depressed. Consolidated gas should gold advance again to 110, we may see some slight improvement in them. Commbia (coal) is held at 15. Marine at 22. Trimont at 46. Money market working tighter, closing at 8 per cent. Single paper may be had at 7 per cent. Bank of No. 1 paper now discounting at 6 per cent. Long dates, 8 per cent.

—Apprehension seems to be the general among business men, not the reckless, hopeful others, as to the future. Fears are sometimes expressed of financial revulsions, and a crisis like that of 1857, but the causes for these do not exist, principally by banking and Western unproductive land speculation, credit, and kiting" to a large extent ceased. Trade is not as large as generally supposed. Our latest advices from Oil City quote at $4.25 to $4.30 per bbl., at that point.

REFINED—There was more inquiry for bonded oil to-day, and while some were disposed to regard the market as being a shade stronger and asking a better feeling, yet, so far as we could learn, there was no improvement in prices. We can report a sale of 100 bbls. to be delivered in Philadelphia during the first half of December, at 34½ and 500 for February at same price. We are cognizant of an offer of 34 for 500 bbls of "Standard White" which is an improvement of half a cent, a sale having been made on Saturday at 33½. The buying been made on Saturday at 33½. The buying been made on Saturday at 33½. The buying demand for bbl oil is restricted almost wholly to supplying the wants of the local trade, and consequently, we have no round lot openings to report. We quote standard brands at 31 to 49.

ARRIVALS—The following arrivals were reported to-day:

Chicago Cattle Market.

CHICAGO, November 23.—The market continues dull and depressed. There was nothing of a particularly stimulating nature in Eastern advices, nor was the quality of the offerings calculated to encourage active operations. There was a slim attendance of buyers and under these adverse circumstances trade dragged heavily, and prices were no more than sustained. Only 550 head were taken. These went principally into the hands of butchers, at prices ranging from $3,25@4 for inferior to common grades, and $4,50@5 for good cows and good stock steers to good shipping Beeves.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, Nov. 24, 1866.

The produce markets have been very dull and unsettled during the past week, and, as mentioned during the quotations at present, worse than ever. The anticipations of immediate improvement are not favorable for any immediate improvement. The panicky feeling which has been the most characteristic of the leading eastern and western markets for some days past, has had its influence here, though, this market is slow about making a turn, more particularly, when the turn is downward. Flour is a shade lower, as is also Wheat and Provisions—but the decline here cannot yet be compared with the decline in Chicago and New York.

GRAIN—Wheat is dull, with but little offering, and unchanged—No. 1 Spring is quoted at $2,00. Oats dull but unchanged; may be quoted at 50 to 51, on track and in elevator, and 55 to 55, for small lots. Sale of 99 bush Spring Barley at $1,30; 1 car at $1,35, and 1 do do choice, at $1,35. Corn is dull, with a supply considerably in excess of the demand; old Shelled may be quoted at 95 to 97, and new at 70 to 75—sale of 1 car new White at 90. Rye is in light supply, and may be quoted steady at $1,25 to $1,30.

FLOUR—Continues a little dull and weak, with a drooping tendency. Was continuous to receive good standard brands of spring Wheat at $12 to $12,5, and Winter Wheat at $12, to $12,5. Rye flour is selling at $8,5 per bbl. Sale of 2 tons Buckwheat at $1,5 per cwt. Cornmeal (white) is selling at $3 per bbl.

POTATOES—Sale of 2 cars prime Peach Blows (in bags) at 80 per bush, and 3 cars (in bags) at $2,25 per bbl. Sweet Potatoes remain about as last quoted.

APPLES—Continue to arrive very freely, and with a supply considerably in excess of the demand, prices are barely maintained. We quote in a regular way from store at $2 to $3 per barrel. Sale of 1 car load, on track, at $3,25.

HAY—Baled Hay continues to meet with a good demand, and sells readily on arrival at extreme prices; we quote prime at $20 to $22—it was reported that sales were made on wharf to-day at $23.

BUTTER—Is dull, with liberal receipts, and a big supply, and, if anything, a shade lower. Prime Roll may be quoted at 25 to 30—occasionally a small package of choice brings 32 to 35.

EGGS—Coming in more freely, but the demand is fair and market steady at 35.

LARD—Is dull, with a supply considerably in excess of the demand and prices are a shade lower—sales of prime reported to-day at 9½.

DRIED FRUIT—We can report regular sales of Peaches at 18 for quarters, for "parsely," and 22 to 25 for prime halves. Small sales of Apples at 10.

CHEESE—Is dull; we quote at 16 for Western Reserve; 17 to 18 for Hamburg; 18 to 19 for Factory, and 19 to 20 for Goshen, according to quality.

HOMINY—Is in fair demand, and we can report a regular sale at 3 cents per lb.

SEEDS—Flaxseed is wanted at $2,60 to $2,65, but little offering. Timothy and Clover quiet and unchanged.

MARKETS BY TELEGRAPH.

New York Financial Matters.

NEW YORK, Nov. 24.—Money active and firm, at 10@10½. Gold scarcely so firm, opening at 139½, declining to 139, advancing to 139¾, and closing at 139¼.

Gold stocks 142½ per cent. better. Freights to Liverpool are active and firmer, at 9-16d for corn.

The *Commercial's* money article says: All ars on Wall street are steadily assuming a more unsettled aspect. There is still a certain degree of hesitation in the tone of the market, oscillating, but upon the whole there is a decided gain of confidence. There is no real scarcity of money, though considerable caution as to whom it is loaned. Sound borrowers have money and can get it on call loans if they are sure, but there is an unusually large number of firms to whom lenders are disposed to refuse it except at a high rate. Commercial paper is being offered in considerable amounts for sale at 10, mixed with the ordinary degree of discretion. Money is very plenty in the interior, but in every instance with a successful response, a feature which helps to relieve the pressure to overburdened centres. After the board there was some hammering of stocks and prices fell off slightly. Governments are generally unchanged, the fall in prices having brought out large orders for investment, going to swell the total. Exchange is easier
