New York is now inclined to sanction this last innovation. A tail is believe its legislature to allow every person accused of crime to testify in his own or her-own behalf.

Common sense and common experience inclines every year more strongly to eliciting all possible information bearing in guipon matters brought before the Courts for adjudication, as well on the Criminal as on the Civil side, so far as it can be done without requiring a may continue the courted and it can ped one without requiring a may continue the courte of the court e his own accuser. At the call of the Mayor, there will be a meeting of the citizens at the rooms of the Board of Trade, this evening, at 7j o'clock, to take action in reference to the bill now before the Legislature to restore the fraightises to the Connells will Rahroad Company.

The merits of that great controvers, have been so fully discussed in these columns, that it is only necessary for us now, to urgo upon the bindiness men of thisse cities to attend that meeting and give so emphatic an expression of their sentiments on this important question as shall strengthen the hands of our own representatives and other friends in the cities it is propable all the States will go in a specific propagation. The friends of this bill speak hopefully of its passage; and certainly there has neger been a time since the franghises of that company were so unjustly taken away, that there was no much encouragement to make a vigorous and united effort for their restoration.
