The Committee on Wharves and Landings, read and accepted in Common Council, was taken up. The report embodies an ordinance providing that a suitable person be elected to act as Wharf Master of that portion of the wharf extending in front of Manchester, until his successor be duly elected. Concurred in, and ordinance read three times and passed.

A petition from the citizens residing on Washington street, asking for a water pipe on that street. Referred in Common Council to the Committee on Water. Select Council concurred.

The report of the Committee on Gas, read, accepted and resolution adopted in Common Council, was taken up. The following resolution is included in the report:

*Resolved*, That the Committee on gas, be, and they are hereby authorized to place a gas lamp on the corner of Western Avenue and Ferree Lane, another on the corner of Third and Middle streets, and one on Monterey street, in the most suitable location for the same. Concurred.

Non-concurred in by Common Council March 18th, and Committee of Conference requested. Select Council April 15th. Concurred. Messrs. English and Drum were appointed a Committee. The report of the Committee has been heretofore published. The ordinance providing for an increase of the salaries of Weighmasters.

The report of the Committee on Markets, in the Common Council was read, accepted and ordered to be filed. Concurred.

A petition for the paving of Davis alley, was read in the Common Council, and referred to the Committee on Streets and Sewers.

A resolution, passed in Common Council, instructing the Committee on Engines to contract with Gamewell, Kennard & Co., for their system of fire alarm and police telegraph, on the terms and conditions they propose, was introduced. The reading of the proposal was called for. The proposal provides for the erection, for the sum of $13,000, of a system identical with that of Mobile, and identical with that of Pittsburgh, except that the central office is done away and the number of boxes less than in Pittsburgh.

Mr. Myler stated that he had been laboring under a mistake when he opposed the system now proposed. Since he came to understand the system thoroughly, he considered that it embodied all the points required in a perfect system. It comprised all the advantages of the Oakman system, besides having exclusive merits of its own. He was strongly in favor of concurring in the action of Common Council.

Mr. Thomas said that he had examined the proposed system as thoroughly as possible. He had learned that it could be used not alone for a fire alarm, but for a police telegraph. He considered that the system was as nearly perfect as it could be, and illustrated, by examples, that he had himself learned. He hoped earnestly for concurrence on the part of Select Council.

Mr. Myler stated that Mr. Gamewell had authorized him to say that the bonds of the city would be accepted, if money could not readily be raised.

[illegible]

[illegible] the resignation of Mr. J. B. Smith, Mr. Myler had been appointed chairman of the Committee on Streets and Sewers.

The President also announced that Mr. A. Patterson had been added to the Finance Committee, Mr. Motherall to Committee on Wharves and Landings, Mr. Pace to the Committee on Police, and to the Committee on Surveys, Mr. Patterson to the Committee on Printing, Mr. Motherall to the Committee on Fire Engines, Mr. Motherall to the Committee on Markets, and Mr. Patterson to the Committee on Street Railroads.

Mr. Thomas offered the following:

*Resolved*, That the Committee on Streets are hereby instructed to employ a practical mechanic to superintend the construction of the canal sewer. Read and adopted.

Mr. Myler offered the following:

*Resolved*, That the District of Manchester be hereafter known as the Fifth ward, Allegheny.

Resolution adopted.

An animated discussion took place concerning the action of Common Council in regard to the appointment of a new committee to procure desks for the chambers. The discussion terminated in non-concurrence so far as the action referred to the appointment of a special committee.

The report of the Committee on Fire Engines was accepted in Common Council and non-concurred in. Common Council adhered and requested a committee of conference. Committee appointed, consisting of Messrs. Hall and Myler.

Resolution adopted in Common Council increasing the salaries of the Messenger of Councils and Clerk of Committees. Action non-concurred in. Common Council adhered, and requested a committee of conference. Messrs. Hall and A. D. Smith appointed on committee.

At this point the Councils went into joint session for the election of Park Commissioners. After the return of the Select Council to their chamber, a motion to adjourn prevailed.

COMMON COUNCIL.

Members present—Messrs. Cutler, Dunham, Dill, Faulhauber, Hanna, Harper, Ingham, Kirkpatrick, Megraw, McNeil, Reed, Smith, Windsor and President Riddle.

The report of the Committee on Street Railways, adopted in S. C., April 11th, was read and concurred in.

The action of S. C. in ordering the grading and paving of Fayette street, in the Second ward, and Ridge street, from Grant to Irwin avenues, was concurred in.

The report of the Committees on Police, Fire Engines and Hose, and Wharfs and Landings, were read, and the action of Select Council concurred in.

The report of the Committee on Common Grounds, with the act of the Legislature providing for the improvement of said grounds, was presented and adopted.

Mr. Faulhauber offered a resolution for the repairing of the fence around the City Basin, which was read three times and adopted.

Mr. Dunham, a resolution directing the Committee on City Property to procure additional desks for the use of the new members.

Mr. Faulhauber stated that although he was a member of the Committee on City Property, he did not think any action had been taken in the matter. The members of the Committee from the Select Council appeared to overlook the claims of the members from the common branch, and did not ask any advice from them.

Mr. Hanna moved as an amendment that a Special Committee be appointed to procure the desks. The resolution as amended was adopted.

Mr. Kirkpatrick presented a petition from Messrs. Olnhausen & Crawford, requesting that they be supplied at their works, in Duquesne borough, with water from the city works.

The presentation of this petition gave rise to considerable debate. Mr. McNeil stated that he had been informed that the gentleman who presented the petition (Mr. Kirkpatrick), had charge of the Water Works during the indisposition of the Superintendent, and had, for the paltry sum of six dollars, permitted a party to tap the main supply pipe.

Mr. Kirkpatrick responded by stating that he had accorded the privilege referred to at the request of the Chairman of the Water Committee. The money which had been received had been paid into the City Treasury.

A motion to lay the resolution on the table was offered by Mr. Hanna and passed.

Mr. Smith presented a resolution instructing the Committee on Streets to prepare an ordinance regulating the width of public alleys, with a view of having no alley hereafter opened of a less width than twenty feet. Adopted.

Mr. Dunham presented a petition from property holders for the grading and paving of Jefferson street in the Second ward. Read and referred to the Committee on Streets.

Mr. Megraw offered the following, which was adopted:

*Resolved*, That the Committee on Water be instructed to inquire by what authority certain parties in Duquesne borough have tapped one of the main water pipes belonging to the city, and if said parties have not had sufficient authority that the water be shut off.

Mr. Megraw also offered the following resolution:

*Resolved*, That the City Controller be, and he is hereby authorized to advertise for proposals for the erection of a market house, to be paid for in bonds of the city, as provided for by the late act of Assembly. Adopted.

JOINT SESSION.

Councils then went into joint session for the purpose of selecting commissioners to superintend the improvement of the Common Grounds. The Chairman stated that the commission, under the act of Assembly, would consist of three members of Council, and three citizens not members of Councils.

The election for members of the commission from the body of citizens was entered into, when the following nominations were made: Messrs. M. McGonnigle, James Park, Jr., Felix R. Brunot, O. O. Phillips, David McCandless, Samuel Riddle, Alex. Young, Robert Lee, W. P. Marshall, Jonathan Gallagher, Geo. R. Riddle, John F. Jennings, Geo. W. Black, E. W. Painter, and John Heath.

The election resulted in the choice of the following persons: James Park, Jr., Third ward; Jonathan Gallagher, Fifth ward; Robert Lee, Second ward.

The following members of Council were then chosen, by ballot, as members of the commission: Messrs. A. H. English, Third ward; John H. Slagle, Fourth ward; J. C. Patterson, Fourth ward.

The delegation from the First ward objected to the election, owing to the fact that their ward was not represented in the commission. The matter was discussed at some length, when on motion of Mr. Irwin those gentlemen who had received the highest number of votes were declared elected.

The Mayor transmitted a communication from Gen. Robinson, congratulating Councils upon the defeat of the Consolidation bill. The communication was received and filed.

Council then went into caucus for the purpose of selecting a suitable person for Recording Regulator, but finally referred the matter to the Committee on Streets and Sewers.

On motion, adjourned.

## FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, April 15, 1867.

The New York stock quotations to-day, as received by Mr. P. R. Mertz, were as follows: Gold, 135¼; Eighty-one bonds, 109¼; Five Twenties, 1862, 109¾; do, 1864, 107¼; Five Twenties, 1865, 108¾; Ten Forties, 97¾; Seven Thirties, 105; do 2d and 3d issue, 105¼; 5-20 Consols, '65, 107¼. Michigan Southern Railroad, 68¼; Cleveland & Pittsburgh, 71; Pittsburgh, Fort Wayne & Chicago, 93¼; Erie, 57¾; Chicago and Northwestern, 33¼; do preferred, 61¾; New York Central, 90¼; Reading, 105¾.

Gold closed firmer and fluctuated from 135 to 135½. Government bonds better, opening strong in the morning, but prices yielded under heavy sales but closed steady. Railroads were steady at a slight advance on the whole list. Fort Wayne steady, Cleveland advanced 1¾, and Northwestern, common, ¾ per cent. Reading and New York Central have improved 1 per cent. Every advance is closely followed by a corresponding decline, and the entire list may be quoted below the real value of stocks.

—The Baltimore *Sun* says: The Treasury has sold several millions of gold during the last three or four days, which has tended to allay the panic produced by an idle rumor of impending war in Europe. Early in May the Treasury will disburse $24,000,000 in gold for interest, which will, no doubt, well supply the market. It is hardly probable, says the *National Intelligencer*, that war between France and Prussia upon the Luxemburg question will occur at the present time. Indeed there are signs that Europe will soon be convulsed by international strife. Napoleon may not choose such a time as the present, while the grand Exposition occupies his thoughts, for a war with Prussia—a war which, if once begun, would certainly be disastrous to one or the other party, and probably to both. But so far as American stocks are concerned under such a contingency, it is not probable that the depression would last long. At the commencement of the late German war our securities fell and gold rose, but it did not last long. The rise in New York now is chiefly speculative, and the next news from Europe may be followed by a decline in gold and a rise in United States bonds. There is, however, apprehension enough in the public mind with regard to the European war reports to make the stock market exciting and unsettled.

—The Philadelphia *Ledger*, of Saturday, says: The recent decline in 5-20s on the London Stock Exchange is attributed to a pressure to sell from holders in Germany during the war panic which prevailed for a while on the Frankfort Bourse. Some of the reports speak of the war excitement there as nearly or quite allayed, while others favor the opinion that there is still cause for apprehending trouble.

—We observe that some of the national banks report compound interest notes under the head of lawful money, in their April quarterly statement of resources and liabilities. The original issue of these compound notes, were, in the words of the [illegible] act, a legal tender for their face value for all purposes whatever except in payment of [illegible] few of those old notes outstanding. Section 2 of the act of June 30, 1864, an act which provided for the issue of two hundred millions of interest bearing treasury notes, declares that such treasury notes, issued under that act, shall be a legal tender in payment or redemption of any notes issued by any bank, association or banker, calculated and intended to circulate. Mr. Hurlburt not long since, notified the banks that they could not hold these compound interest notes as lawful money reserve for the redemption of circulation.

—Some stockholders in a National Bank at Enfield, Connecticut, paid taxes on their stock under protest, and will contest the right of the State to levy the tax contrary to the United States law. The bank stock shall be taxed where the bank is located; the State law, where the stockholders reside. The State will take the case up to the Supreme Court, claiming that local taxation is a power reserved to the State, not delegated to the United States.

## PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, April 15, 1867.

The produce markets present no new characteristics worthy of special notice. The excitement which prevailed in regard to Flour and Grain last week is slowly subsiding, and it is to be hoped that a reaction in prices is near at hand. There are all kinds of rumors current in regard to the rolling mills, but, from all that we can learn, the situation remains unchanged.

GRAIN—Wheat is in limited supply and firm—cannot be quoted, as there are no established quotations. Oats firm but unchanged—sales in store, at 63 to 70. We can report a sale of 1000 bush Ear and Shelled Corn, to arrive, at 95, and 1 car Shelled at $1. Rye is in demand at $1,50, and but little offering. Barley is in demand and firm.

FLOUR—Is quiet but steady and prices although unchanged, as yet, are well maintained. We continue to quote at $14½ to $14¾ for good to choice Spring Wheat; $15 to $16 for Winter Wheat; and $18 to $19 for fancy St. Louis brands. Rye Flour is now quoted at $9,25 to $9,50 per bbl.

PROVISIONS—Bacon is steady, with regular jobbing sales at 9¾ to 10 for Shoulders; 11¾ to 12 for Ribbed Sides; 12¼ to 13 for Clear Sides; 15½ to 16 for Plain Sugar Cured, and 16¼ to 16½ for Canvassed Hams. Dried Beef, 23. Lard, 13 to 13½, and Mess Pork, $23,50.

SEEDS—Cloverseed is selling in small lots at $13,50 to $14. Timothy Seed is quiet and unchanged at $2,90 to $3. Flaxseed is wanted at $3.

BUTTER—Is coming in quite freely, and while the market is better supplied, prices remain unchanged, as yet—35 for prime and 38c for choice.

EGGS—In fair demand and higher, sales being reported to-day at 24c to 25c—mostly at 24c.

POTATOES—In better supply but unchanged—sales in store at $3 to $3,25 per bbl for Peach Blows, and $2,50 to $3 per bbl for Buckeyes.

MAPLE SUGAR—Sale of 19 bbls at 15 cts. Sales of Maple Molasses at $1,65 to $1,75 for gallon jugs.

GREEN APPLES—Quiet and unchanged; regular sales at $5 to $6 per bbl.

ONIONS—Sales at $4,50 per bbl. Small seed Onions quoted at $6 per bushel.

HAY—Prime Timothy Hay is in demand and firm, while common is dull and hard to sell.

CHEESE—Sales of new Western Reserve reported at 17 to 18c.

DRIED FRUIT—Continues dull but unchanged—small sales at 9c for Apples, and 14 to 18 for Peaches.

OIL—Lard Oil is in fair demand and firm at $1,10 for No. 1, and 90c for No. 2.

**PITTSBURGH PETROLEUM MARKET**

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, April 15, 1867.

CRUDE—The market was quiet but steady, and while the transactions, in the aggregate, were comparatively light, prices have undergone no change. Sales of 100, 200 and 383, all at 7c, and 700 bbls at 11, packages included. There were some negotiations pending at 7¼c for June, and 9¼ for all the year, buyer's option, but at last accounts, they had not been confirmed. As already noted, the general tone of the market was quiet, though, there are a good many buyers at a slight reduction from present quotations.

REFINED—There was not a single operation in bonded oil to-day, at least we had none reported, and the reports from the Philadelphia market were conflicting. One firm reported the Philadelphia market a shade better, while others, and they seemed to be in the majority, reported it weak and no buyers outside of speculators, the most of the orders for export having been withdrawn. Standard white, for summer months, may be quoted at 30½ to 31, sales at these figures having been made last week. Spot oil may be quoted at 26 for prime light straw to white, and 27 to 27½ for standard white. Free oil is quiet but steady at 40c for round lots, and 41 to 43 in a small way.

ARRIVALS—The following arrivals of oil were reported to-day:

|---|---|---|---|
| Miller & Edwards | 800 | Fisher & Bro. | 1,511 |

Hogs with continued liberal supplies for the week; the stock ruled dull and heavy and holders were obliged to submit to a decline of fully ½c; even at the concession the trade it was not very active, and the demand from slaughterers was limited in consequence of the fact that inferior offerings at the present prices of slaughtering would scarcely be remunerative; about 21 car loads on sale this morning, almost all of which sold at 7@7½c for fair to heavy prime corn fed; and 6½@7c for common and rough. ## RIVER NEWS.

The river continues to recede steadily at this point with nine feet three inches by the Allegheny marks here, and five feet reported at Oil City. The weather yesterday was cloudy and sultry, with a sprinkling of rain in the afternoon, and indications for more last night.

There has not been a single transient arrival since our last report. The Argosy, from Cincinnati, is due here to-day, and will return as usual on Wednesday. The Glasgow, from Saint Louis, is also due here to-day.

The Lorena, Capt. Shuman, and the Glendale, Capt. Hare, will positively leave for St. Louis to-day, and passengers and shippers can rely on this, and act accordingly. The Importer, Capt. Noss, is next in turn, and will commence business at once.

The Columbia, Capt. G. W. Reed, is filling up steadily, and will soon be ready to take her departure for St. Louis and the Upper Mississippi.

The America, Capt. Golding, is up for New Orleans, and the Ezra Porter, Captain J. H. Porter, leaves for Cincinnati on Saturday next.

The Allegheny and Monongahela river packets appear to be doing a fair business. The Ida Rees cleared for Oil City last evening, and the Echo is due here from that point to-day. The Elisha Bennett appears to be the most popular boat in the Brownsville trade.

The Louisville *Journal*, of Saturday, says: The Ajax came in from above with a huge tow for New Orleans. She will leave this morning. The A. J. Baker has got off three of her barges safely from the rocks at the head of the falls, and was working away at the fourth as we left the river yesterday evening.

We notice that Mr. B. Crawford, of Pittsburgh, the Special Agent for the Treasury Department, has been in the city for a few days, on business connected with the department he represents. We believe that he leaves to-day on the Nick Longworth for Memphis.

The St. Louis *Dispatch*, of Friday, says: The Mountain trade is growing beautifully less every day, and is about fizzled out for this season. There is considerable government freight to ship, but outside of that, a general dullness prevails. The Nymph was unavoidably detained last evening, but will positively leave to-day, and will be followed by the Abeona to-morrow.

The tonnage in port is largely in excess of the demand, and many boats are lying idle. There is general complaint about dull times, which seems the more singular, when it is considered that spring is only just bursting forth. Usually at this time of the year, matters are brisk and lively. We trust a change will soon take place, which will bring brighter prospects and realization.

The Memphis *Post* of last Wednesday, says: The Great Republic, Captain Donaldson, arrived from New Orleans yesterday about three p. m., being several hours behind her advertised time. The delay was caused by the breaking of her pendulums and doctor near Providence. New ones were ordered by telegraph from Pittsburgh, to be forwarded by express to meet the boat at St. Louis, where she will undergo the necessary repairs.

The Madison *Courier*, of Thursday, says: There is an important trial now in progress in this city between E. T. Bainbridge, owner of the levee and wharfboat lying below West street, and the United States Mail Company. Mr. Bainbridge sues the Mail Company for $10,000, for alleged damages to his wharfboat and property. Yesterday and this forenoon was occupied in examining witnesses. The case will be closed to-day.

The St. Louis *Republican* says: The steamer Albert Pearce has discharged her cargo of machinery taken from the wrecks of steamers sunk in the Yazoo river during the war, and will be ready to receive freight for Vicksburg and the Yazoo river this morning. She will bring back another cargo of boilers &c., from the wrecks of the boats in the Yazoo. She brought some twenty-five boilers, several large cylinders, and a large amount of scrap iron this trip.

The Bee was due at New Orleans last Saturday, with cargoes consisting of the following articles of produce: 23,000 bushels of corn in bulk, 18,032 sacks corn, 1,916 sacks bran, 3,631 barrels flour, 30 do meal, 657 do pork, 150 do potatoes, 270 do and 50¼ do whisky, 50 do oil, 338 bales hay, 646 packages merchandise.
