—The New York *Daily Bulletin* has the following excellent remarks on the course of the recent bank failures:

"The case of the Unadilla Bank failure affords another example of the effects of the system now coming into vogue of paying interest on deposits. This leads almost invariably to competition and speculation. Banks will be led to outbid each other until they finally offer seven per cent., as in the case of the Unadilla Bank. Of course, no legitimate banking business can pay this amount of interest in the ordinary condition of the money market, and it is difficult to extend much sympathy to the Unadilla depositors, who fell victims to their own cupidity.

"The late failures illustrate the chief defect in the system of National Banks, which offers facilities for the establishment of banks in districts where they are not essential to the business interests of the community. Banks established under such circumstances are always weak; in the absence of local business they are insensibly led into speculation; this, however, is by no means a necessary accompaniment of our system of National Banks. In due time the concerns that are not required for local trade will disappear. The superfluous banks are being eliminated, and perhaps the process would be accelerated by an increased stringency on the part of the Banking Department at Washington, combined with a closer scrutiny and watchfulness on the part of the public. The majority of our banks are sound concerns, and are above suspicion in all their relations to their business and management; but the great evil is that there is occasionally a bank that never ought to have had any existence, which finally brings discredit on the whole system. The sooner the superfluous institutions go into liquidation the better for the community at large."

—The New York *Stockholder*, of last week, the following in regard to Express stocks:

"The transactions for the week have been large, on a rising market for all, even Wells-Fargo. Of this last some 7000 to 8000 shares for some time held by the trustees were thrown upon the market and sold at 67 to 70. The market which stood this supply, and rose thereupon, fell somewhat immediately after. We quote as to yesterday: Adams, 73¾@74¼; United States, 75; Wells-Fargo, 67¾@68. Dealings are still active. Of Merchants' Union but trifling amounts are offered, and the whole bulk of it seems firmly held. This indicates in the face of the great efforts of the Express Company, a great degree of confidence on the part of the shareholders. This company seems to be steadily gaining in public favor. The earnings of June and July, much beyond the estimates, are in excess of those of any previous months. The added income, soon to be realized from the People's Dispatch Line, the Company's fast freight arrangement, will add largely to the resources. Arrangements for rapid economy in all the business of the company are now perfected, the extraordinary expenses incident to the starting of so vast an enterprise being over, and the managers, instead of engaging in speculations to affect the market price of their stock, are devoting themselves unremittingly to making their stock valuable by diligence and economy in the management of the business."

—The supply of money is still superabundant. Loans are made on Government securities at 4 per cent., and the leading dealers in the latter are exceptional cases, enabled to borrow considerable sums at less. The general rates on mixed collaterals is 5 per cent., but houses in good credit are offered loans at 4. The amount of commercial paper seeking discount is light, and all the best is discounted at legal rates by the banks. There are as yet no indications of a continued outward drain of currency, although some of the western journals remarked about a week ago that the exchanges were turning in favor of that section of the country. Some remittances were made just then on account of the wool crop; but the westward current to move breadstuffs has not set in, and when it does it will be gradual, and several weeks must elapse before it can exert any material influence upon the condition of the money market at the east, beyond an advance of perhaps 1 per cent. in the rate of interest.—*Phila. Ledger.*

More About Petroleum.

MESSRS. EDITORS: How long will the present stagnation continue? is a question daily asked. We think the only correct answer is, until our refiners stop shipments. We found in June a necessity for stopping our works. How much greater the need now! with a greatly diminished stock of crude and an advance of nearly 100 per cent. in its price, and only about 20 per cent. advance in refined, and with the certainty of a loss, at the present prices, of 4 to 6 cents per gallon and the alarming fact of a great deficiency of spot crude unless favored soon with a good full bulk rise in the Allegheny river.

Is it wisdom for us to push off our oil to the east faster than vessels are put on to take it? The moment it is known we have stopped prices will react, as in July. Ten to fifteen days stoppage of shipments will advance the price of oil in Philadelphia at least one dollar per barrel. The reports in June of Pittsburgh refiners stopping advanced the Antwerp market from 37 to 41 francs in three or four days. Liverpool from 1 to 1½d. Philadelphia from 21¼ to 24, and made spot oil very active at the advance. Whereas, before it had been as now, very dull. Self protection should induce us to hold back shipments. We found on the trial that Pittsburgh has a controlling influence on the eastern markets, and, when we say prices must go up, if we will only follow our words by action, up they will go, and probably to thirty-five cents. REFINER.

Philadelphia Cattle Market.

PHILADELPHIA, August 5.—Beeves.—With a falling off in the receipts of about 1000 head, as compared with those of the previous week, the market has somewhat improved, but still the volume of the business continues on a moderate scale. Notwithstanding the belief that prices must shortly take a downward turn, farmers are not hurrying forward their stocks. The most active movement since our last has been in common grades, on which an advance of ¼c, and in many instances fully ½c per lb has been realized; sales of 1786 head at 17@17¾ per pound for choice; 16¼@16½c for prime, and 12@15c for common. A lot of West Virginia steers were taken at 6½@8¼c per lb gross, and a lot of Delaware at 5@6c per lb, gross. No lots were taken for shipment.

Sheep—Buyers have been coming forward slowly, and the offerings of 6000 head were largely in excess of the demand; sales at 4@6¼c per lb, gross.

Hogs—An improved demand has prevailed, and supplies were taken as fast as they arrived at $10@10,50 per 100 lbs net, according to quality. Receipts, 3,000 head.

New York Dry Goods Market.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, August 7.—Dry Goods trade is beginning to assume more animation, particularly in woolens, although the market is still far from active; holders are very firm and all low priced plain cotton, both in bleached and brown State, are tending upward. Standard, yard wide, Brown sheetings are steady; four yard sheetings are now held at 13c. Bleached goods of better qualities in good supply and steady, but light 4 to 5½ yard goods are ½c firmer. Goods like the Amoskeag now command 13. Colored cottons generally steady. Printed calicoes in limited request. Delaines in moderate demand.

New York Cattle Market.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, August 7.—The receipts of Cattle at Hudson City since Monday were 2,522 head. Prices are ¼@½c lower; best quality 16½c; fair 14¼@15c; ordinary 13c. Sheep and Lambs; receipts 8,100 head; prices firm at a slight advance.

Cambridge Cattle Market.

[By Telegraph to the Pittsburgh Gazette.]

CAMBRIDGE, August 7.—Beef Cattle—Receipts, 678 head; there are large supplies and prices are 50c lower; extra $12,25@13, first quality $11@12c. Sheep and Lambs—receipts 6,045 head; sales at 3@5½c; spring lambs $2,50@4.

Chicago Cattle Market.

[By Telegraph to the Pittsburgh Gazette.]

CHICAGO, August 7.—Beef cattle are very dull and 50c@$1 lower, at $3,50@6 for the best shipping. Hogs are active and steady at $6,00@7 for common to best grades. Sheep are active at $4,50@4,85.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, August 7, 1866.

The general markets present no new characteristics worthy of special notice. The demand for all of the leading articles of trade continues very light, and as a consequence, we have but very few round lot operations to record; prices are still tending downward, as a general thing.

GRAIN—Wheat is quiet and, if anything, a shade lower; sale of 58 sacks prime Ohio Winter at $2,16; and 60 bush prime Allegheny county Red Winter at $2,15. Oats in better demand and in limited supply; we can report sales to the trade of about 900 bush at 69@70c—usual advance for small lots in store. Corn is dull and nominally unchanged; we continue to quote at $1. Small sales of Rye at $1,20—some buyers refuse to go above $1,15. Nothing doing in Barley, as yet.

FLOUR—The demand outside of the city is falling off materially, and before long we expect to see new Flour coming into this market for sale, by the same avenues that for a year or so past have been drawing it out, and that, too, in large quantities. We continue to report small sales of Choice old Spring Wheat and new Winter Wheat brands at $11,00@11,50. Fancy brands may be quoted at $14@15, and Rye Flour is quoted at $8,25@8,50.

PROVISIONS—Bacon is quiet but without quotable change—12½@12¾c for Shoulders; 14½c@15½c for Ribbed and Clear Sides, and 20@21c for Sugar Cured Hams. Lard is dull and nominal at 13c, for prime kettle rendered. Mess Pork, $24,50.

POTATOES—The supply continues largely in excess of the demand, but prices are without quotable change; small sales in store, at $2,00 per barrel.

GREEN APPLES—Continue to meet with a steady demand, and we can report regular sales at $4@5,50 per bbl, as to quality.

EGGS—Continue very dull, and fresh packed were offered freely to-day at 17c, and but few buyers, even at that.

BUTTER—Prime pail and firkin Butter is in better demand, and we now quote the market strong at 18c.

CHEESE—Is steady, with regular sales at 13@15c, according to quality.

OIL—Lard Oil is quiet and unchanged at 85c for No. 2, and $1,05 for No. 1.

HAY—Is selling at scales at prices ranging from $16@20 per ton.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, August 7, 1866.

CRUDE—The market, although quiet, was firm, and compared with yesterday, prices are a shade higher. Sale of one thousand barrels to be delivered on first water, at 11c. Spot oil is not in very active demand, but is held firmly and may be quoted at 11¼@12c. For the last four months, buyer's option, quotations may be fairly given at 12@12½c. For "first water" eleven cents may be regarded as the ruling price, against 10¾ yesterday, and 10@10½ on Monday. The increased firmness may be attributed to the improved character of the advices from the East, but as already stated, the transactions were unusually light.

REFINED—The market for bonded oil was firm and more active to-day, and, indeed, towards evening, there seemed to be a little excitement. Spot oil, although firmer, is unchanged; but the last four months, buyer's option, closes at an advance of fully one cent per gallon; towards evening there were plump offers to buy at 32½c, and possibly, 33c might have been obtained. The sales were:

RIVER NEWS.

The Cora S. swung on a root at the head of Henderson bar on the 4th, and stove a hole in her hull, which caused her to rapidly fill with water. She was worked up on the bar as far as possible, and lies straight and easy with her water half way up the nosing of her lower guards. The freight was being taken out, and she will be readily raised.

The strike on the Northern Line packets is about ended. All the boats have crews and receive and discharge freight without difficulty.

An Italian, named Crovo, was killed on board the Dan Able, between Vicksburg and Memphis recently.

Dye & Thayer, of St. Louis, propose to the people of Mobile to put a line of packets through into the St. Louis and Mobile trade. They proposed to construct one boat as an experiment, as there is no boat afloat which combines the necessary qualities to render her a good river and sea vessel. She will cost about $150,000 complete.

The hull of the old Duke of Argyle, lying at the head of the canal at Louisville, has been on fire for several days. She was cut loose by the ice at Cincinnati last winter, and drifted down there.

A Major Sweeney jumped overboard at Floyd Smith's on the Arkansas, a short time since, and was drowned. He was crazy.

It is expected that the steamer Ben Franklin will be chartered by parties at Louisville to convey citizens up the river to witness the fight between Aaron Jones and Mike McCoole, which is set for the 30th. The *Democrat* says Louisville will send a big delegation. McCoole was a deck hand on the Lebanon three or four years ago.

A skeleton was recently found on the wreck of the Missouri, fastened down to the deck by the engineer's gong.

The Muscatine *Courier*, of Wednesday, says: Miss Maggie Wyrick, who in company with her friends, was on her way from Muscatine to Kansas City, was robbed night before last of all her money and also her tickets on the steamer Dubuque. A dispatch was sent M. Block, the agent of the line in this city, stating the facts. He immediately sent to Quincy the number of the tickets lost, and they will be renewed at that port.

The following circular has been issued by Secretary McCulloch, of the Treasury Department, and addressed to the local inspectors of steamboats at New York:

TREASURY DEPARTMENT, WASHINGTON, August 3, 1867.

GENTLEMEN: You are required, under the inspection laws, once in every year, to inspect the hull, boiler, machinery and equipment of each steamer belonging to your district, and so approve of the same before granting a certificate. The inspections and approval includes the locked safety valve as well as all other equipments. It is your duty to see that each locked valve is made in its dimensions to conform substantially to the rules prescribed by the Board of Supervising Inspectors, and that it is free from obstructions in its operation and in good working order. By the terms of Treasury circular No. 3, of June 1, 1867, the master or owner of any steamer is left free to apply any locked valve to his boilers that he may select, whether it be one of the five named in the circular, or some other of equal merit. Rule 45 prescribed by the Board of Supervising Inspectors requires one locked valve of the proper dimensions for a single boiler, or for a plurality of boilers is so arranged that it can be closed by a shut-off valve.

The locked valves are to be applied to all steamers carrying passengers, freight steamers, and steamers towing passenger vessels.

HUGH McCULLOCH.

A St. Louis telegram, under date of Monday, has the following: River still declining slowly. Upper Mississippi rising at and below Dubuque. Minnesota and far upper Mississippi falling, and almost down to a usual stage at St. Cloud. Total decline ten feet. Business brisk here and improving; heavy cargoes daily coming in from each of the upper rivers and departing. The Mary McDonald enters the Vicksburg trade in place of the Sam Gaty.

A Cairo telegram to the Cincinnati *Commercial*, under date of Monday, says: The Government steamer Gen. Totten ceased operations to-day, and lays up here on account of sickness among the crew, principally chills and fevers. No cases of cholera since the second engineer died. The Totten has entirely removed the wreck of the Gilmore, blowing it up with nine torpedoes. The search made for the wreck of the Courier showed it entirely covered with sand. There is no wreck now in the way of steamers except the Black Hawk, which is under contract for removal by the Salvor Wrecking Company.

STEUBENVILLE, August 4.—The many friends in Cincinnati of Wm. H. Shouse, a well known Pittsburgh and Louisville pilot, will regret to learn that he died on Friday night last, of consumption, after a protracted illness. The funeral takes place to-day, Sunday, from the residence of his brother, Capt. John Shouse, in Steubenville.

The New Albany *Commercial*, of Saturday, says: Last night a difficulty occurred at the Israel House, which came near being a very serious affair. The facts, as we gathered them, were about these: Capt. Ritchie called at the Israel House, and inquired for Captain Burnet, of the steamer Tom Jasper. It was at supper, but soon commenced an altercation ensued. Capt. Ritchie called Captain Burnet some hard names, when the latter attempted to strike the former, but was prevented by his wife. In the meantime Capt. Ritchie drew his revolver, and attempted to shoot. The interposition of bystanders only prevented the shedding of blood. The cause of the difficulty was some trouble about a position on the Jasper.

MEDICAL.

CONSUMPTION!

It would take a man a lifetime to read the treatises that have been written upon this important subject, and if a sick man were to attempt it he would make himself worse by the reading, and die before he got half through. The symptoms of the disease are, hacking cough, expectoration of matter or pus, pain in one or both lungs, chilliness, burning in the palms of the hands and soles of the feet, exhausting day or night sweats, hectic fever, wasting of flesh or marasmus, sometimes expectoration of blood. These are the usual outward symptoms, apparent not only to the observing physician, but to the patient's friends. There are, however, more important symptoms than these, which are only made manifest by auscultation and percussion, terms which mean, in a medical sense, thumping and listening and they are employed outwardly in order to ascertain what is going on inside of the cavity of the chest. The signs of symptoms elicited in this way are almost surely demonstrate the true and exact condition of the respiratory organs. A perfect auscultator can not fail in ascertaining whether the Lungs are acting naturally or not. Hence it is the best method of examining the lungs. Their actual condition once discovered, the appropriate treatment is more rapidly arrived at, and every diseased part more completely under the influence of appropriate remedies. We have long been of the opinion that consumption or decay, or wasting of the bodily strength, was dependent on a depraved state of the blood, which carries, in its course, tuberculous matter, and deposits it in the lungs, or elsewhere in the body, just as calculi or stone is deposited in the bladder, a small particle of which attracts other particles, until it becomes of such offense to the natural functions as to bring on inflammatory action, which action, if it could, would carry it out of the system, and which could have been easily done in the beginning of such disease. Dr. KEYSER'S PECTORAL SYRUP is a complete and perfect cure in the forming stage of lung disease. It acts on the very principle we have stated above, by enabling the securing or carrying off organs to do a double share of work. Waste and repair are easily comprehended. If the worn out material be carried off, and renewing material of a proper character, the must be health and ease, the contrary of sickness and disease. In many cases of consumption which have become settled, Dr. Keyser's Pectoral Syrup fails to cure, although it will do good in nearly all. He prepares a medicine called LUNG CURE or PULMONARY RESTORATIVE, which is a great tonic, and strengthens and restores the parts to be renewed, while it dissolves and carries out from the body those particles of worn out or extraneous matter, which only tend to clog or destroy it, by hindering the renewing material being deposited in proper place.

PULMONARY CONSUMPTION, RESULTING FROM PLEURISY, CURED.

Statement of George Ford, carpenter, of No. 16 Sampson street, Allegheny City:

I took a violent attack of pleurisy, in May, 1866, which left me with a cough lasting all summer, wearing away my strength and gradually undermining my health. During this attack of pleurisy I had several physicians of the highest reputation in the city. After I had partially recovered from the pleurisy, I was advised to go into the country, which I did, and when there a doctor, who told me my left lung was very much affected, and that if something were not done I would die of CONSUMPTION. I lingered on from this time until about the middle of June, my cough and lung disease gradually growing worse, and I weaker every day, and almost despairing of ever getting well. In this state of despondency, and knowing the general belief of the incurability of Consumption, and having heard of cures made by DR. KEYSER, and seeing his advertisement in the newspapers, I was induced in October last to call on the Doctor at his office, 120 Penn street, and had him examine my lungs with his "LUNG SOUND." He told me the upper lobe of my left lung was very much diseased, but he thought with great care and the perseverance in the use of his medicine, I would get well. At the time I called on Dr. Keyser my pulse was over one hundred and thirty beats in a minute, and I was generally prostrated, and had to cough night and day. I commenced the Doctor's treatment in October, with a feeble, broken constitution, and continued it faithfully until the present time. The Doctor's medicines helped me from the very start, and I could gradually feel myself getting stronger, and my cough and expectoration lessening. I have gained greatly in flesh, and consider myself well; all the rattling of my lung has ceased, and my general health is in every way good. All my relatives and friends know of the advanced stage of my disease and my extraordinary recovery. One of the medicines given me by Dr. Keyser was a medicine called LUNG CURE, which I took in connection with the other treatment. GEORGE FORD.

PITTSBURGH, March 20, 1867.

ANOTHER CURE OF CONSUMPTION.

STATEMENT OF JOHN G. WIGHAM, OF TURTLE CREEK, ALLEGHENY COUNTY.

I was discharged from the United States army in January, 1864, on account of a wound in the head, from a shell, and a disease which the army physicians pronounced CONSUMPTION. I had a terrible cough and fell away in strength and flesh and was unable to do anything. Shortly after my return from the army, I made application to a physician of my neighborhood and, after wards, to another in Pittsburgh of high reputation, whose remedies I used faithfully for five months, without any benefit whatever, but rather grew worse, and wasted in flesh and strength every day. In August, 1866, my mother took me to DOCTOR KEYSER, of 120 Penn street, whose skill in such cases like mine had been highly spoken of and put myself under his treatment. The Doctor examined my lungs very carefully with his LUNG SOUND, and told me that my left lung was badly diseased at the upper part, but if I was careful he thought he could cure me by following his directions closely, which I did from that day to this. I gradually improved under Dr. Keyser's medicines from the first week I commenced to take them, and my general health has improved, and my chest, where it was sunken away, and where it pained me, has become full and strong and free from pain. I can now do a full day's work, and take great pleasure in giving my testimony in favor of Dr. Keyser's treatment and medicines.

JOHN G. WIGHAM, Turtle Creek.

PITTSBURGH, April 11th, 1867.

A case of five years' standing cured by DR. KEYSER'S PECTORAL SYRUP:

DR. KEYSER:—My wife has been afflicted with a cough and difficulty of breathing for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by several physicians without any relief. In this state of her case I procured some of your PECTORAL COUGH SYRUP. I bought the first time a fifty cent bottle, which relieved her very much; I then called and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself for a cold and cough. The medicine cured me by taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this if you desire to do so.

WM. WILSON, Alderman, Fifth Ward.

Our son, JAMES PAINTER, some three years of age was afflicted with consumption of the lungs, for which he was discharged from the army. He was examined by four army physicians, who all agreed that he must die with the disease. We brought him to DR. KEYSER, 140 Wood street, (now 120 Penn street,) who, after sounding his lungs, commenced to treat him, and cured him sound and well. He is now well and has been so for the past three years. Others afflicted in like manner can likewise be cured.
