THE ISSUE MADE. The so-called Labor Reform party met in convention last night, and nominated a municipal ticket. with Mr. Blackmore for Mayor, and Mr. Allinder for Treasurer. Mr. B.—a very worthy gentleman—has made several unsuccessful efforts for the honorable position to which nominated, and it is hardly reasonable to presume that he will develope as much strength ning election as he did in the the sortium of the control of th

of the Republican party than in its ranks chanic who has ever been proud to be called by that name and who has spent the best part of his life at hard and honest toll. Mr. McCarthy is a representative of the workingmen, but th leaders of the Labor Reform Party ig nore him as though their saith in the executive abilities of a hard fisted me. chanic were not very largely developed. The Republicans will now hid adieu to

the opposition.

The Democracy, who had the controlling influence in the Convention last night, will probably unite on histicket, and the issue may be said to be fairly didates, and, forgetting all prejudice to individuals, vote with full knowledge would be prolific of great political evil to the party here and elsewhere.

There is no warrant for the statement in the newspapers that this gentleman's appointment to the War Department will be urged. We understand, howover, that his friends will press his ap-pointment to the Mexican Embassy. If the General would prefer civil service in Mexico to the Consul General

THE DANISH WEST INDIES.

The State Department has been for some time past endeavoring to negotiate for the purchase of some of the Danish West India Islands. It is now stated that St. Thomas and St. John have been bought, subject to the approval of the United States Senate. To ascertain the sentiments of the inhabitants relative to sentiments of the inhabitants relative to the contemplated change from the Danish to the United States Government, the Rev. Mr. Hawley was commissioned to proceed there some time ago. His mission was very satisfactory. In his report he states that nearly all the inhabitants are favorable to ansexation to this country. The rumor that an expedition had sailed to take possession of the islands is absurd.
