The Pittsburgh Gazette

GLEANINGS.

—Senator Wilson is in Richmond.

—Gen. Averill is in Philadelphia.

—Du Chaillu lectured in Detroit yesterday.

—Edmund Kirk and his wife have separated.

—Hyppo-Olymphiad is the Arkansas name for circus.

—The most popular ballad singer in London is Boosey.

—Queen Victoria has sent $1,000 to the West India sufferers.

—Fifty six foot Highlanders were part of the recruits to the Papal army now.

—A fifteen pound fox was chased and captured in Lancaster county last week.

—Gilt lobsters as head dresses are thought in Paris to be the thing, just now.

—Mr. Dickens took fifty-three minutes to dine last Sunday.—*N. Y. Exchange.*

—The Hatchatchi is said to surpass the Yo Semite valley in beauty and grandure.

—An exchange calls babies hollow joys. We think some teeth are hollow miseries.

—A bull in New York ate up twelve turkeys, feathers and all, for its Thanksgiving dinner.

—What nose is more brilliant than a toper's nose? Velcahoes.—*Boston Commercial Bulletin.*

—Club life is not successful in Washington, and clubs are, or have been heretofore, failures.

—The last gasp of the New York *Evening Gazette* was a characteristic one, "The wages of sin—dollars."

—The inventor of the needle gun is dead. We do not know whether the Chassepot killed him or not.

—Yesso, a Japanese island, is formed altogether of valuable minerals, coal and iron predominating. Jess-so.

—Saranac, Michigan, has a skating rink, which has been crowded daily and nightly ever since it was first opened.

—Counterfeiters have made themselves disagreeable to Mr. Dickens. They have forged his tickets and sold them for $35 a piece.

—One of the Black Crook girls sang in a church the other day, and shocked people dreadfully when they heard of it afterwards.

—The Irish and the African drama have superseded the Yankee one on our stage —so poor Yankee Robinson has gone into bankruptcy.

—George Francis Train says he has made a quarter of a million during the last year. He may well be called a Train of fortunate circumstances.

—A man in Waltham, Massachusetts, has played the fife for military companies since 1800. He fifed all through our three wars since the revolution.

—One lady lost a million dollars by the failure of the Bank of Liverpool. She ought to be ashamed of herself. We never lost a million, and don't expect to.

—A testimonial benefit has been tendered to Mrs. Lander by some of the most prominent citizens of Philadelphia. The lady has accepted, and will play Macbeth.

—A widow, in New Haven, has been sued for $20,000 for breach of promise. We cannot see why men should not have shinplasters put on their wounded hearts sometimes, as well as women.

—An Illinois editor wrote that "two thousand car loads of oats have come east over the western railroads. An Illinois printer made him say that "two thousand car loads of cats had come east, etc.

—WANTED.—A fire insurance office willing to take risks on Secretary Seward's late purchases among the West India Islands," Says the N. Y. *Herald.* We think the Alms would be an appropriate applicant.

—A lady was drowned in the river at Peoria last week. She was known to be somnambulistic, and it is supposed (for beyond conjecture, no one, can go in such cases) that she walked out on the ice and was blown into the river.

—Austrians, like Americans, like to look on the bright side of things, and prefer to have the silver linings of the clouds outside. A recent Vienna writer says, "Radowitz was an excellent thing for Austria." We hope it was.

—Dexter doesn't shy any more. Bonner has cured him. We would suggest that Dan Rice be engaged to teach the animal to write, and that he then contribute to the *Ledger.* It would certainly look well on the posters, "Dexter writes for Bonner."

—E. S. Chesebrough, the accomplished engineer who conceived and constructed the great lake tunnel at Chicago, was, on Thanksgiving day, presented with $1,000 as a token of the high esteem, etc., etc., by some of the prominent citizens of Chicago.

—At a fight in Chicago, on Tuesday, a man had a piece of his upper lip, nearly an inch square, bitten off by his opponent. Two of his fingers were severely lacerated by the rams formidable teeth, and it was only by an unusual exertion that the victim escaped at all.

—The London *Times* says that Mr. Johnson learns nothing, that he regards his position as monarchs regard their prerogatives, and that he forfeits all respect. We acknowledge all this of course, but it is nothing new, and comes with an ill grace enough from the *Times.*

—England is selling out her wooden walls; this is horrible to think of; soon, if she goes on, she will offer her white cliffs to the highest bidder, and she can't be "merry England" as long as the Fenians bother her so; what then is left of the good old attributes? Nothing at all, for even the tories are turned liberal and Earl Derby is a Radical.

—A correspondent of the Chicago *Tribune* wants the Government to reserve a few square miles of property near the centre of Kansas on which at some future day to erect a National Capitol, to which the public offices should be removed from Washington. His reason for this choice of situation is that it is central. This we would acknowledge as far as space is concerned, but when we take population and civilization into consideration, we find that Kansas will not be central for a century or so, if ever.

—The "Fat Contributor" is in Chicago. He emulates Dickens in his advertisements, for, though he does not mention the amount of time necessary to elapse after the seating of the audience before he will deign to administer to their amusement, he does mention that he prefers to have people wear strong and well made clothes when they come to hear him, as he objects to having such things burst in his presence. Mr. Dickens would probably object to being compared with the fat contributor, but we think the latter's joke is quite as good as that of the great novelist.

—Of the meeting of the Union League on Monday evening, at which General Grant was nominated, the Philadelphia *Bulletin* thus expresses itself: "It was emphatically an assemblage of the solid men of the city. Merchants, judges, lawyers, soldiers, manufacturers, physicians, artists, bankers, capitalists, the gray-headed Nestors of the community, and the active, energetic young men who are the bone and sinew of the present generation, public men and private citizens, the best types of the enterprise, the intelligence, the patriotism, the public spirit, the moral power of Philadelphia.

—An interesting trial is going on in Martinsville, Ind. The son and heir of a dead man put in a claim of $200 for shaving his own father, while said father was lying helpless on his death bed. The "keen" of the whole transaction is, that the son was living on the farm of the father during his illness, received the profits of the farm, and paid no rent. That's highly filial.

FOR SALE—REAL ESTATE.

5,000 ACRES OF VALUABLE

Timber, Coal and Mineral Lands

FOR SALE.

Situate on the line of the Pennsylvania Central Railroad, in Cambria county, within a short distance of Conway station. Also, 2 miles from the Railroad or nearly three miles, Sugaral veins of the best quality of pure rich bituminous coal underlie the whole tract. The veins rise gently from the Railroad level to the top of the property, thus making it favorable for mining and shipping the coal. The timber is principally oak and chestnut, suitable for railroad purposes. Besides the coal and timber, the property contains under the coal veins a valuable bed of fire clay, which has been opened and worked westward. A great portion of the tract is covered with valuable timber, of large growth, such as Ash, Cherry, Limb, Poplar, Oak, &c. The facilities for transporting this timber, when manufactured into lumber, either east or west, are unsurpassed. Also, there is a water power saw Mill on the extreme part of the tract, and also a Railroad Switch for a side or platform saw Mill, recently erected and now cutting first class cross tie and bridge timber. The improvements on the property are worth from $20,000 to $30,000. There are two large stone blocks built for former proprietors in elegant style; a large store house, &c., and about ten tenements for workmen, with stables, &c. The farm lands are also well adapted to farming purposes, and under proper agricultural treatment would yield good crops while they are specially adapted to grazing purposes.
