A conference of Soldiers and Sailors representing the various States of the Union will be held at Washington on the 16th of December, to take into consideration thas prepriety of cailing a National Convention for the purpose of some inating candidates for President and Vice President of the United States. The movement originated with the Soldiers and Sailors Union of this city. -A letter from Mexico states that the —A letter from Moxico states that the Ministry were desirous of realgning but were relaining their places until such time as Congress could be fully organized for business. It was expected that President Juarez would nominate the same Cabinet that accompanied him to Pazo del Nortoliuring the trying days of the intervention. Second—To support in the approaching election the policy of 
our own tried neighbors and friends, 
whose capital furnishes employment and 
whose roof shelter us, in preference to 
that inaugurated by strangers and their

means in our power, the war of races 
which revilled our power, the war of races 
which revill counsel and ignorance seems 
to be hartening, and which inaugurated, 
will result in our certain and speedy destruction.
