

Special Telegrams from Pittsburgh Gazette.
Cleveland, December 17, 1867.
The Manufacturers' Convention in Cleveland, Ohio, today took session at the convention hall, and the manufacturers of the country were present in large numbers. The convention was opened by the reading of a message from the President, and the following resolutions were adopted:

Resolved, That we fully endorse the policy of the Administration in relation to the tariff, and we believe that the tariff is the best means of protecting our industry, and we believe that the tariff is the best means of protecting our industry, and we believe that the tariff is the best means of protecting our industry.

Resolved, That we believe that the tariff is the best means of protecting our industry, and we believe that the tariff is the best means of protecting our industry, and we believe that the tariff is the best means of protecting our industry.

Resolved, That we believe that the tariff is the best means of protecting our industry, and we believe that the tariff is the best means of protecting our industry, and we believe that the tariff is the best means of protecting our industry.

Resolved, That we believe that the tariff is the best means of protecting our industry, and we believe that the tariff is the best means of protecting our industry, and we believe that the tariff is the best means of protecting our industry.

Resolved, That we believe that the tariff is the best means of protecting our industry, and we believe that the tariff is the best means of protecting our industry, and we believe that the tariff is the best means of protecting our industry.

Resolved, That we believe that the tariff is the best means of protecting our industry, and we believe that the tariff is the best means of protecting our industry, and we believe that the tariff is the best means of protecting our industry.

GEN. HANCOCK.
Message of the President to Congress.

WASHINGTON, December 18.—The President sent the following message to Congress to-day:
The time of the Convention was spent in the most successful manner, and the Convention has accomplished its purpose.

The Convention reassembled at seven o'clock, and the President's message was read. The Convention then proceeded to the consideration of the message.

The Convention then proceeded to the consideration of the message, and the following resolutions were adopted:

Resolved, That we believe that the tariff is the best means of protecting our industry, and we believe that the tariff is the best means of protecting our industry, and we believe that the tariff is the best means of protecting our industry.

Resolved, That we believe that the tariff is the best means of protecting our industry, and we believe that the tariff is the best means of protecting our industry, and we believe that the tariff is the best means of protecting our industry.

Resolved, That we believe that the tariff is the best means of protecting our industry, and we believe that the tariff is the best means of protecting our industry, and we believe that the tariff is the best means of protecting our industry.

Resolved, That we believe that the tariff is the best means of protecting our industry, and we believe that the tariff is the best means of protecting our industry, and we believe that the tariff is the best means of protecting our industry.

FROM WASHINGTON.
CITY AND SUBURBAN.
ADDRESS.

Optimism and Inaction.
Rev. Henry H. Ainsworth was invited to deliver the Plymouth Congregational Church, in this city, last evening.

The following was the order of exercises: Opening voluntary by the choir; reading of the minutes by the Rev. O. C. Church; prayer by Rev. Ainsworth; address by Rev. Ainsworth; singing by the choir; benediction by Rev. Ainsworth.

On Monday night, the Rev. Ainsworth delivered a sermon on the subject of 'Optimism and Inaction.' He said that the people of this country were full of optimism, but they were doing nothing to improve their condition.

He said that the people of this country were full of optimism, but they were doing nothing to improve their condition. He said that the people of this country were full of optimism, but they were doing nothing to improve their condition.

He said that the people of this country were full of optimism, but they were doing nothing to improve their condition. He said that the people of this country were full of optimism, but they were doing nothing to improve their condition.

He said that the people of this country were full of optimism, but they were doing nothing to improve their condition. He said that the people of this country were full of optimism, but they were doing nothing to improve their condition.

He said that the people of this country were full of optimism, but they were doing nothing to improve their condition. He said that the people of this country were full of optimism, but they were doing nothing to improve their condition.

He said that the people of this country were full of optimism, but they were doing nothing to improve their condition. He said that the people of this country were full of optimism, but they were doing nothing to improve their condition.
