FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, March 27, 1868. Gold opened at 1381/4, became firmer at noon at 139%, and closed strong at 138%. Moderate sales of gold by the Government and the scarcity of currency kept down the price of gold during the last few days, although there are indications of an adrance during the early part of next month on account of the large imports and the usual demand for coin for excur-

dull early in the day, but towards noon, the money market was easier, and a gene- there are a much larger number of orders ral advance took place; 1881's are the strongest on the list. The investment demand is very limited at present and sellers and as stocks are light, the demand brisk predominate, and judging from the general and steadily increasing, another advance is disposition among holders of bonds, it may be supposed that lower quotations are expected to be made during the next week. In stocks there was a firmer feeling, but no activity: Railroad bonds are much neglected and generally lower; also, State bonds, which were quite firm and higher during the excitement in Erie. have dropped from one to two per cent. An active peculation is going on in the Missouri and Tennesseee bonds, which are a surer in-

vestment than Railroad stocks, and more profitable in the long run-The money market is very active, but rates are confined to about one per cent. per month for regular endorsed business paper, anything beyond that is unsaleable, especially long paper, however good it may be, will not be accepted unless accompanied

by collaterals. Mertz: Gold, 13834: 1881 bonds, 111; 1862 5-20s, 10934; 1864 do, 10734; 1865 do, 10834; Consols, 10634; 10-40s, 10044; 7-30s, 10534. Cleveland & Pittsburgh R. R..... Fort Wayne 102

-Money is still yery active in New York, and gold interest is reported to have been paid. The pressure, though severe, is not so great as last week, and the volume of business has been a good deal diminished. Commercial paper sells at 8 to 9 per cent. for best to fair names. The demand for money is urgent with holders of Government bonds, upon which 1/4 per cent. has been paid per day to carry them, and until relief is had in that quarter little can be looked for in the general market. During the winter large amounts of money were placed in government stocks for temporary employment; these stocks are now coming

upon the market, and are a heavier load than can be readily taken. -The New York railway stock market was firmer during the morning, and prices were well sustained on the leading shares, but later in the day the market weakened, and a heavy decline occurred on New York Central and Erie, with which other shares sympathised to a limited extent. At 4:30 o'clock the market was a shade better. Express stocks were generally steady. Government securities opened stronger and ore active, with an advance on the whole

list, but they closed dull and prices a shade —The reports of railway managers in regard to the condition of the winter grain favorable, and great expectations are entertained as to the spring and summer traffic. The amount of wheat held over is large, and a good deal in excess of 1867. Passenger traffic is increasing, and the rolling stock of some leading roads is fully em-—Closing quotations received by James T. Brady & Co.

May Comp., 1865.... PITTSBURGH PETROLEUM MARKET. OFFICE OF THE PITTSBURGH GAZETTE, ERIDAY, March 27, 1868.

CRUDE-The market was quite active o-day, the reported sales reaching 12,000 bbls, mainly for early deliveries, and while there is a pretty stiff feeling, prices are without quotable change. Spot oil is in demand at 81/c, but holders are firm at 81/c; sale of 1300 bbls, on spot, at 81/c; 3000 do at 81/c; 4000 do at 81/c; 1000 do at 81/c; 1000 for April, at 9c, and 1000—yesterday—to be de-livered between the first of April and 10th livered between the first of April and 10th of July, at 9/2. The arrivals are increasing steadily, reaching about twenty thousand barrels to-day; the river could not possibly be in better condition for boating oil than it is at present, and there is no reason why all the oil in readiness should not come forward. It should be borne in mind, however, that the great proportion of the oil now arriving has been contracted for long since, and, therefore, the amount to be thrown upon the market will not be as

at 251/c; 500 for May at 26c; 1500 for March at 251/c; 500 for first and 500 for last half of April at 2514c; 1000 for last half of July at 7½c, and we are cognizant of a sale having een consummated last evening of a line, commencing with May and ending with December, at 26c for May, and advancing half a cent for each subsequent

nonth.

ARRIVALS—The following are the reported arrivals of oil to-day:

OFFICE CF THE PITTSBURGH GAZETTE, FRIDAY, March 27, 1868. There was a general conference of iron manufacturers here on Thursday, in which there were several representatives from other points. Statistics were shown, from which it appears, that the exports of Iron and Nails from this place, thus far this Government securities were weak and year, exceed considerably those of the same time last year, and, it was also shown that booked than there was this time one year ago. This shows the iron trade of Pitts burgh to be in a very healthy condition, expected within the next few weeks. There is a very urgent demand for Nails, and it is said that there is scarcely a house here that can fill their orders-one firm reports that they are sold thirty days ahead. For bar iron the demand is also quite brisk,

and stocks, as in the case of naits, are very much reduced. The following are the card rates: Flat Bar Iron. Horse Shoe Iron...... Heavy Band Iron.....
