177

ing 814c, and holders asking 834c, but an advance in Antwerp gave sellers the victory, and, as a consequence, buyers had to come up to the scratch. To-day we can report a sale of 800 bbls, on spot, at 83/c; 1000, each for April, May and June at 9c; also, 1000 bbls taken at the wells on the river bank, near Franklin, at \$3 per barrel. As will be seen the sales were were measured day near Franklin, at \$3 per barrel. As will be seen, the sales were very meagre to-day, 4,800 bbls, against 12,000 vesterday; this was owing in part, at least, to the fact that the advices from the east were unfavorable, causing buyers to hold off a little, though, as yet, there is no disposition on the part of holders to make concessions in order to effect sales. A telegram from 'Oil City re-ports the market dull, with no buyers at \$3,10 at that point, and \$2,80 on the creek. REFINED—There has been but compar-atively little done in bonded oil during the past week, the reported sales only reaching about fourteen thousand barrels, in the ag-gregate. It is true, prices are a shade higher than they were last week, but there

ever it was, even in 1857.
