RIVER NEWS.

The river receded about eight inches dur- ing the twenty-four hours ending last even- ing, at which time there were five feet in the Monongahela, and five feet eight inches in the Allegheny. The weather yesterday was cloudy and raw, and towards evening there was every appearance of more snow. Oil City telegrams report thirty inches at that point.

There has not been a single transient ar- rival since Saturday, and the New York, for Cincinnati and Louisville, was the only departure. The McCullough cleared for Parkersburg as usual.

Mr. Wm. Wherry has succeeded Captain A. J. Bears as clerk of the Kate Robinson. Capt. Bears has been compelled to resign for the present, in consequence of a severe attack of rheumatism. The Kate is now ready to make engagements for Cincinnati and Louisville.

The Glasgow, Captain Geo. W. Johnston, is about ready to take her departure for the Upper Mississippi, and passengers and ship- pers should bear this in mind. The Glas- gow will be followed by the Emma No. 3, Capt. Jas. H. Marratta.

The Armadillo, Capt. D. H. Hendrickson with Capt. D. A. Sweeney in the office, is filling up steadily for St. Louis and Mis- souri River, and will soon be ready to take her departure.

As will be seen by card, the Importer, Capt. Williams, Ida Rees, Capt. Albert, and Silver Lake, Capt. Todd, all of the "Rees Line," are announced for Fort Benton.

The ever reliable Ida Rees No. 2, Capt. Rees Rees, is the regular packet for Oil City to-day, leaving at 4 p. m.

The towboat Jacob Painter, on Saturday afternoon, sunk a barge boat laden with railroad iron at the foot of Varles ripple, in the channel of the Allegheny River. The iron was from the Brady's Bend Iron Works, and was being brought down by the Painter for the Rover to tow to Saint Louis. The Ida Rees No. 2, on her down- ward trip from Oil City, ran over the sunken barge and made a narrow escape from sinking. As it was, three or four of her timbers were broken, and she was otherwise slightly damaged. If the boat had had the load that was expected on the downward trip, she certainly would have sunk.

The Great Republic left St. Louis Thurs- day evening, with an immense trip, for New Orleans. It is reported that she was hard aground at Selma, thirty miles below St. Louis. As the Mississippi is receding, she may have trouble in getting off. From a gentleman direct from St. Louis, we learn that she has a large excursion party on board who were having a good time.

The Peninah and Amelia Poe were ad- vertised to leave St. Louis for Fort Benton on Saturday, and the Sallie, (Capt. Stock- dale's new boat) is announced to leave on Wednesday.

The Louisville *Courier*, of Saturday, says: A small, very small fleet of coal has arrived from Pittsburgh on the late high tide, in- cluding the Panther and Sampson, and we hear of but a few boats leaving on the pres- ent tide. The strike among the diggers is likely to make coal dear this summer. As the diggers are out, why not turn in a gang of niggers?

The New Orleans *Picayune*, of the 1st, has the following: Yesterday, Messrs. Montgo- mery, Bros. & Co., sold at auction the favor- ite low pressure lake steamer Camelia, for $18,000 cash. Messrs. C. A. Whitney & Co. were the purchasers. The same firm also sold the towboat Dew Drop for $1,450. We did not learn who was the buyer.

SECURITY AND COMFORT FOR

THE TRAVELING COMMUNITY.

J. B. HARRIS' SAFETY FIRE JACKET,

Car Heater and Moderator,

For SMOKE AND HOT AIR FLUES, dispensing with the use of Stoves and Fires in or about the Passenger or Baggage Cars, with the attachment to graduate the heat to any temperature that may be desired without the possibility of firing the car or cars to which the Jacket may be attached.

Having obtained of the United States Letters Pat- ent for a Safety Jacket which is warranted to resist the most intense heat that may be applied to it in the position and purpose for which it is intended, it is a sure protection from accidents by fire, origi- nating from defective flues, or where iron pipes are used as conductors for smoke or heat. It is appli- cable to all piping that may become overheated, and is warranted to give perfect satisfaction where wood or other combustible material may be placed in close proximity thereto. I am now ready to ap- ply my invention to stores, dwellings, factories, ships, steamboats, railroad cars, &c., wherever pipes as conductors are made dangerous by being overheated and security desired. I will sell on ap- plication, rights to manufacture or to use the above invention; also, territorial rights, to such as may wish to engage in selling privileges, either by State or county.
