# CITY AND SUBURBAN.

### Who Got the Carpet?

Yesterday morning Mrs. Mott, on the alley off Fourth street, between Ferry and Market, purchased at McClintock's $20 worth of carpet and oil cloth, which she paid for, and ordered to be sent to her residence. Shortly after she had taken her departure the porter at the store was dispatched with the goods to the place designated. It appears, however, that he made a mistake and left them at a house occupied by a Mrs. Daily and her sister. Mrs. M. waited some time for her goods, but not receiving them returned to the store to know why they had not been sent as ordered. She was informed that they had been sent as ordered, but as she denied receiving them the porter was called and and sent with her to the place the goods had been left. On arriving at Mrs. Daily's, he stated that he had left a package there in mistake, but Mrs. D. said he had done no such thing. He insisted that he had left the goods there, but the lady insisted that he had not, and as she refused to give any information in relation to the package, information was made before the Mayor charging her with larceny. She was arrested and taken to the Mayor's office, but before the case was called up for a hearing the prosecutor relented and withdrew the information. The porter, however, insists that the package containing the carpet and oil-cloth was left at her house, which she stoutly denies, and so the matter remains. Somebody has $20 worth of goods for which McClintock & Co. did not get paid. Who received them?

### A Cool Proceeding.

John Cool yesterday made information before the Mayor, charging Luke Davis with larceny. The parties were employed by Street Commissioner Hunter and yesterday the City Controller was issuing warrants to the city employes on the Treasurer for their pay. John Cool's name was called and it is alleged that Davis answered to it, stepped up to receive a warrant drawn in Cool's favor for $14,75, which he took to the Treasurer's office, and after endorsing it "John Cool per Davis," drew the amount for which it was drawn and departed. A short time afterward Cool made his appearance at the Controller's office, and made inquiry concerning his pay, when he was informed that a warrant for the amount had been issued and delivered to some one supposed to be Cool, but if he was that individual there must be some mistake, as he was not the man who got the warrant. A visit to the Treasurer's office developed the fact that Davis had personated Cool, at the Controller's office and had drawn the money as above stated. Davis was arrested and locked up for a hearing to-day. It is, in addition to being a very cool proceeding on the part of Davis, a rather peculiar case of larceny.

### Committed.

Mrs. Eliza Sutton made information before Mayor Drum, Monday evening, charging her husband Elijah Sutton, with assault and battery. The couple occupy a small boat, fitted up as a house, which is stranded on the bank of the Ohio river, near Woods Run. On last Thursday the wife stated her husband was drinking very freely, and when he came to his boat house he was very quarrelsome. She endeavored to quiet him, when he assaulted her, knocking her down and kicking her. Some persons, passing in the vicinity, went to her assistance, and to this, she alleges, she owes her life. She was still suffering yesterday from the injuries received, and was hardly able to reach the office. Sutton was arrested, and after a hearing, was committed in default of bail for his appearance at Court.

### The Tobacco Dealers in Allegheny.

The authorities of Allegheny, it appears, are fully determined to have tobacco and cigar shops closed on Sundays, and it is also the intention of Mayor Drum, we learn, to stop the sale of those articles throughout the city on the Sabbath day. On information received from various sources, John Schultheiser, on East street, Fred. Herdenecker, corner of Third and West streets, August Bocker, Valentine Dunhard and R. Holman, Chestnut street, were arrested yesterday by the Mayor's police, charged with having kept their shops open and sold tobacco and cigars on Sunday last. They were each fined $25 and costs.

### Arrested by a Woman.

Yesterday evening William McGee, who resides near Dixmont, went into Fred. Schultz's saloon, in the Diamond, Allegheny, yesterday afternoon, and, being slightly intoxicated, became disorderly. Mrs. Schultz, who was the only person in the saloon, besides himself, ordered him out. He refused to go, however, when she deliberately walked from behind the counter, opened the door, put him out, and, seeing a police officer on the opposite side of the street, shoved him across and delivered him over to the officer, who conducted him to the Mayor's office, where he was fined five dollars and discharged.

### Allegheny Temperance League.

A meeting of the Allegheny Temperance League was held last evening in the First Presbyterian Church, Allegheny, Dr. A. K. Bell, presiding. The meeting was opened with prayer by Rev. A. Millingar, after which Rev. E. E. Swift addressed the meeting. Subject—"What are the specific duties of the church in regard to the temperance reform, and how may she best promote it."

The meeting closed with benediction by Rev. J. B. Clark. Rev. J. Kerr will address the League Tuesday evening, 21st inst.

**A Disgraceful Scene.**—Between ten and eleven o'clock last night a disgraceful row occurred at Like Hall's saloon, in which he and his brother George were the principal actors. Like was armed with a hammer, while his affectionate (?) brother carried a heavy club used for springing bungs out of whiskey barrels, with which they battered each other in a beastly manner. After a considerable time a force of the night police was collected and the affray stopped. Neither of the parties were arrested. We were unable to learn the origin of the row, but it is probable that bad whiskey was the instigation of it.

**Robbery at the Scott House.**—The room of Mr. W. F. Sweltney, a boarder at the Scott House, was entered Monday night by some sneak thief and a suit of clothes worth forty-one dollars, a silver watch valued at thirty-five dollars, a pocket book containing fifteen dollars, a pair of sleeve buttons of the value of ten dollars, and a pair of calf skin boots worth eight dollars, carried away. The thief gained admission through the rear of the house. A colored man was arrested on suspicion, and taken before the Mayor, who held him for a hearing.

**The Rioters.**—John Kline, who was arrested on Monday on suspicion of having been connected with the coal miners' riot at O'Neil's coal works, after a hearing before the Mayor yesterday, was discharged. Officers Noble and Wilson, yesterday morning, arrested Henry Briggs, at Alliquippa. He is implicated in the riot. After a hearing he was held to bail in the sum of $1,000, in default of which he was committed.

**The Society St. Vincent de Paul, St. Paul's** Conference for the relief of the poor, acknowledge the receipt of a donation of $200, being the proceeds of the charitable soiree held at Lafayette Hall, February 18th, 1868.

### A CALL ON COL. WILLIAM PHILLIPS.

The following correspondence fully explains itself:

PITTSBURGH, April 7th, 1868.

To COL. WILLIAM PHILLIPS:

*Dear Sir*:—We, the undersigned, voters of the 22d Congressional District of Pennsylvania, possessing a thorough knowledge of your character so favorably established in this community, and combining as you do all the elements of an able, faithful, honest and successful man, and well knowing that you will honestly and ably represent our interest and reflect our views, we hereby request you to become a candidate for Congress, subject to the decision of the Republican Convention, to assemble on the 2d day of June next, and we pledge ourselves to use all honorable means to secure your nomination and election.

With sentiments of the highest esteem,

We remain, yours truly,

Jno. Wrigley, R. G. Herron, James Verner, John Flinn, Edward S. Wright, David Hutchison, E. S. Morrow, Jacob Keebler, George Linderman, George Wolf, Thomas Neely, C. H. King, H. J. Thomas, I. A. Willis, John Campbell, John Evans, A. J. Moon, W. J. Flinn, Samuel Morrow, T. J. Bingham, John Rebman, A. G. Neeper, J. Loughrey, Jos. Letzkus, G. W. Morris, John Wilhelm, W. F. Anderson, J. *To Messrs. James McAuley, Charles Atwood, James Mawhinney, David Robinson, Joseph Kaye and others;*

GENTLEMEN—Your very flattering call requesting me to become a candidate for Congress, requires at my hands such weighty reasons as will justify me in declining. I am now engaged, with others, in a public enterprise of great importance to the people of this Congressional district, the successful completion of which will result to the great advantage of Pittsburgh and all Western Pennsylvania, and in order that my attention may in no way be diverted from this important work, I am compelled to decline the honor your partiality would confer, and in so doing, gentlemen, I return to you my sincere and heartfelt acknowledgments for this great mark of your esteem and confidence.

With sentiments of the highest consideration and regard, I remain

Your obedient servant,
WM. PHILLIPS.

PITTSBURGH, April 7th, 1868.

### Engineering and Drawing.

Our readers will be gratified to hear that Mr. Perceval Beckett, M. E., has started an Engineering and Drawing office at No. 79 Federal street, Allegheny City. Mr. Beckett has been for a considerable period the Mechanical Engineer at the Allegheny shops of the Pittsburgh, Fort Wayne and Chicago Railway, and has held similar positions in various parts of this country and Great Britain, and is thoroughly conversant with all branches of his profession. He (having been raised in the South Staffordshire iron and coal district) has had considerable experience in designing and superintending the construction of Blast Furnaces, Rolling Mills, etc. Mr. Beckett's knowledge of high and low pressure engines is considerable; in fact there is very little in the regular routine of his profession but what he is capable of undertaking. Now that our coal proprietors are turning their attention to locomotives as the means of hauling their black diamonds from the mines, we recommend them to consult Mr. Beckett in such matters, as he intends to make colliery locomotives a specialty. Mr. Beckett has written several scientific articles for this and various other papers, and is well known to be a thoroughly practical as well as scientific man. We recommend Mr. Beckett to the public generally, for we feel assured that all who may have occasion to consult him in any of the branches of Mechanical Engineering will find him perfectly competent for their requirements, as there is no doubt of his being a perfect master of his profession. By earnest request he will also turn his attention to the patent business, which now will be welcomed by our local inventors, since Mr. Beckett has a branch office in Washington City, so that all such business will be promptly attended to. See advertisement in another column.

**Larceny by Bailee.**—William Batle made information before Alderman Mullin, charging John Shingles with larceny by bailee. He alleges that he gave to Shingles sixteen dollars to be paid to Jas. McElroy, which sum the accused appropriated to his own use. A warrant was issued for his arrest.

**Taken Over.**—John Fisher, the colored man convicted of a felonious assault on the Guthy brothers in Allegheny City, and sentenced to two years imprisonment, was taken to the Penitentiary yesterday morning by Deputy Sheriff Cluley.

### Chronic Diseases.

The prevalence of Chronic Diseases gives occasion for much study and investigation by physicians.

Go where you will, in the city or in the country, among the rich or the poor; you will find many persons, male and female, laboring under some chronic affection, which has baffled the skill of their physician.

This is true not only of Chronic Liver Complaint, Rheumatism, Dyspepsia, Kidney Affections, and the many complaints arising from diseases of the urinary organs, Dropsy, Gravel, Gout, &c.,—but its particularly true of that class denominated "Female Diseases," the very frequency and extent of which is good evidence that their true character is not properly understood, or the common treatment has not met with success.

It is in Chronic Diseases more than any other that an examination of the urine is necessary to a correct diagnosis.

All Female Diseases do not arise from the same cause; nor does the same cause always produce the same symptoms. All Urinary difficulties do not arise from Gravel, nor do all indications of Gravel arise from Affection of the Kidneys; and it is by an examination of the *urine alone* that these facts are many times to be verified.

In short, there is scarcely a chronic disease afflicting the human body but what its true character can be definitely determined by analytic and microscopic examination of the urinary secretion; thus avoiding in hundreds of cases the diagnostic uncertainties which lead to these failures in treatment, and doing away, in nearly all Female Diseases, with the needless exposure to indelicate examinations.

The man who has done more, in a practical sense, in establishing these facts, than any other, is Prof. Oldshue, of Pittsburgh.

From close attention, and long and patient investigation, he has learned to know the precise nature of all these affections, and has found out exactly the kind of medicines to be used in each case.

His charge for examination, prescriptions and medicines furnished, range from three to ten dollars.

Office and residence, No. 132 Grant street, Pittsburgh, Pa.

### For the Ladies Alone—A Fashionable Millinery Opening.

It is seldom that we have an opportunity to gossip with the ladies on fashionable topics, but we feel that we should fail to fully discharge our duties did we not inform them of the grand fashionable opening of millinery and furnishing goods which is to take place to-morrow, at the well-known bazaar of Mrs. S. C. Robb, No. 123 Ohio street, Allegheny city. This lady has attended all the sales at the leading emporiums of fashion in Boston, New York and Philadelphia, and returns home with the prettiest and most charming stock of bonnets, hats, and general articles of ladies' wear ever opened in this neighborhood, the opening of which to-morrow will prove a high carnival to all our lady friends, who are anxiously awaiting the event. The selection embraces all the latest novelties and beauties in straw goods and straw trimmings, flowers, ribbons and laces, and the latest innovations in garments for the gentler sex; but we have no desire to antiepate the delight which the grand opening will afford, by any newspaper description in advance. It is well known that Mrs. Robb's millinery establishment is first-class and rejoices in a very large share of the fashionable trade of the two cities. Some fifteen hands are kept constantly at work under the supervision of Mr. Robb, and orders are attended to in the most satisfactory manner. She makes a leading speciality of paper patterns for dresses, sacques, under garments, &c., which is a very important feature to the ladies. A skillful lady cutter, with large experience, has recently been brought from New York to preside over that department. An eastern trimmer has also been secured to attend to the trimming of ladies' bonnets and hats. Those who attend are directed to a very jaunty hat, "Norma," which is a gem of beauty, and is retailing at only fifty cents. The "White Fawn" hat is likewise pretty attractive, and quite cheap. There are over fifty new styles of bonnets, which are neat and tasty and range at various prices. Then there is a full line of hats for girls and misses, handsome patterns of children's suits and general goods, which will command the admiration of the ladies. Owing to favorable facilities for purchasing great in
