Conferee Meeting of the Twenty-Third The Conferees appointed by the Repub-

lican Conventions of Armstrong, Butler gressional District of Pennsylvania, for the purpose of choosing delegates and alternates to represent the district in the Chicago National Republican Convention, met yesterday, pursuant to notice, at Freeport for the purpose of falfilling the duties of their appointment. After organization of the Conferess they proceeded to ballot, when John M. Thompson, Esq., of Butler County, was elected one of the delegates upon the fourth ballot; receiving five out of nine votes, and Samuel A. Purviance, Esq., of Allegheny County, elected the other delegate on the seventh ballot, re-

gate on the seventh belief, re-ceiving six votes out of nine cast. Both nominations were then made unanimous, as also wore the nominations of R. H. Davis, Esq., of Allegheny county, and John V. Painter, Esq., of Armstrong county, as alternates. The conferees were a unit in their predilections for Grant for President; tin for Vice President was laid on the table

Grades in the Ninth Ward. The citizens of a portion of the Ninth ward have been considerably annoyed by the owners of said Fair ground, as the grade is now so low that in cases of extremely on Smith street. To do this it will be necessary to raise the grade of Penn street several feet, as the water cannot be carried off at a less fall than one inch to ten feet, off at a less fall than one inch to ten feet, and the grade of Penn street is now considerably below high water mark, while it is over 900 feet from the river. It will require a fall of at least eight feet, to convey the water from Penn street to the river, and in order to have that much fall about an ordinary states. river, and in order to have that much fall about an ordinary stage of water, the grade of Penn street will have to be raised at least four feet. The grade of Mulberry alley is about thirteen inches above that of Penn street, and being situated 130 feet from Penn toward the river, if Penn is not raised, it will have to be lowered at least twenty-six inches. It is evident to any one who knows anything about the location of the street. anything about the location of the streets at that point, that sooner or later the grade of Penn street will have to be raised, and of Fenn street will have to be raised, and the sconerit is done the better, consequently it would be folly to lower the grade on Mulberry alley this year, and then raise it next after it has been paved. The matter of grades is one that should be left entirely to the City Possibles. to the City Regulator, and when once established by him should not be interfered

with by either Street Committees or Councils, and until this principle is adopted we can never have any system of grades. If Councils have no confidence in the independent of the Regular confidence in the judgment of the Regula-tor, they should dismiss him and employ another, and not pay him for doing work which they undo immediately afterward. The establishment of a grade is a matter of the contract of the vast importance to the property owner; and when it is once established by the Regula tor, who is the only proper authority, and the property owner erects a building in ac-cordance with the grade given him, it is un-just to change it at his expense, as in every instance he is not only compelled to bear the cost of filling, or cutting down and refilling, but frequently his building is left several feet above or below the grade. By proceedings of this kind the value of property is greatly diminished, as the purchaser never knows what he is buying. We repeat that the matter of grades is one that should be left solely to the city regulator, which to the appropriate of the company of the city regulator, subject to the approval of Councils, of course, and when once established should not be changed, except in cases where it is really changed, except in cases where it is really necessary, and then the Regulator should be consulted before any action is taken. The change of the grade of Clymer street will require the lowering of Mulberry alley at least twenty-six inches below the grade as established by the City Regulator, and unless the very best reasons are furnished to Councils for so doing, we think it would not only be unwise but unjust to property holders, who have erected buildings on the alley in accordance with the grade as given them by the City Regulator, who is the only person from whom it can be obtained. If the change is really necessary, it is better that Penn street be raised, as it will have to be before many years, and it can be

to be before many years, and it can be done now at a less expense than the other can be cut down, and would be a beneficial and permanent improvement. Meeting of the Board of School Controllers of Allegheny City A regular meeting of the Board of School Controllers of Allegheny, was held Tucsday

Fatal Accident—Coroner's Inquest. An accident occurred at Corey's Coal

Works, Tuesday morning, which resulted the question of grades, and it appears that | in the death of Matthias Feld, a miner, emtheir troubles, in that respect, are not yet | ployed at the works. Feld, it appears went at an end. Some four years since, by an to the pit to go to work Tuesday morning, act of Councils, the grade of Penn street, and on arriving there had a difficulty with opposite the old Fair ground, was lowered Mr. McCutcheon, the pit boss, in conseour feet, solely for the accommodation of quence of which he left the pit between ten is now so low that in cases of extremely high water the street is overflowed several feet. There is now on foot a proposition to change the grade of Clymer street, so as to run the water from Penn street to the river, instead of from Smallman street to Penn, and thence to the river by way of the sewer thirty or forty feet, when he fell again. He was then taken up and carried to his residual. and eleven o'clock, and started home, folwas then taken up and carried to his residence in Braddocks Fields, where he died n about three hours afterwards.

Coroner Clawson was notified, and held an inquest on the body yesterday. The jury rendered the following verdict: "The deceased came to his death on the 7th day of April, 1868, by being accidentally run over at Corey's Coal Works, in Wilkins township, by a pit car descending the incline of said works." The deceased was a German, and had

been in this country about four years. He has been employed at Corey's Works for and eighteen months. He leaves a wife and

In the Pipe Business.
