as cattle are high all over the country, and cannot be brought here and sold for any less. We are in hopes, however, that the offerings of Sheep will be quite large within the next thirty days, as farmers will send them to market pretty freely after taking the wool off, and this will have a tendency to restrict the demand for cattle somewhat, and as a consequence prices may and and, as a consequence, prices may, and, probably, will rule lower: Greenwald & Kahn report having retailed 70 head of prime to extra Chicago steers at 8 to 9.70. Jas. McAllister 17 head of extra Chicago

tice. There is a fair demand, both for present and future delivery, and while prices SHEEP. There was an increased supply of Sheep on sale to-day, and the market as a conse-quence, ruled dull, and prices may be quo-ted from a quarter to a half cent lower, esare well sustained, there is no quotable change. We can report sales of 2000 and change. We can report sales of 2000 and 1000 bbls, on spot, at 8%c, and the same figure was offered for more. For May, June and July, there are buyers at 9 to 9%c, but no sellers below 9%c. All the year is nominal at 12c—there has not been a sale for some time. The receipts continue large, though strange as it may appear, there is but comparatively little oil offering, the great proportion of that arriving having been sold previous to arrival, and as a consequence, the amount of oil really on the market for sale is actually much smaller than many have been let to believe. We have no definite advices from Oil City today; a firmer feeling, however, was reported. ted from a quarter to a half cent lower, especially for common to medium. Clipped Sheep are commencing to arrive pretty freely, and dealers expect prices to decline materially within the next thirty days, as the supply will no doubt be considerably in excess of the demand. We are quoted the following sales:

Aull & Myers wholesaled 140 head of "scalawag" wooled Sheep to John McAllister at 4½; 40 head of prime wooled Sheep to Richardson, averaging 100 lbs, at 8½; 30 head prime to another butcher at 8½; 11 head to Kimberlin at 8; and retailed 30 head

REFINED—The market for bonded oil is steady with considerable inquiry, both for present and future delivery, and the offerings continue light. We have but a single sale to record: 1000 bbls to be delivered within the next twenty days, seller's option, flat, at 21c, free on board cars here. May is quoted at 25½ to 28c; June, 28½c; and all the year, huyer's option, at 31 to 32c. We look for an improvement in business now, as many of our operators who H. Ackely bought 20 head of fat Sheep at 71/3; and C. Dillenbaugh bought a small bunch of extra at 81/4. Rynn & Davis bought 86 head half wooled and half clipped, from Dent at 6.10; 24 head wooled from Grey at 7; and 20 head very common at 5½. This same firm reports having retailed about 300 head at 4 to 7 for clipped, and 6 to 7½ for wooled.

The Hog market is quiet, as the demand is very light, being restricted almost wholly to supplying the wants of the retail trade. We continue to quote at 10 to 11½C, gross, for fair to prime heavy averages. We quote the following sales:

Myers & Needy wholesaled 60 head to Rothchilds & Byers at 7½.

Cunningham wholesaled 38 head to Emerick & Co. at 9.
