Phrase books usually contain but two languages; viz., English and French, or English and some of the other languages; but this volume gives the four principal languages, English, French, German and Italian. The phrases are generally put in such a form that they can be answered by Yes and No, which are understood in all languages. It is the best work of the kind that we have ever seen, and. it is up to the live times. It would be well to introduce this workinto our colleges and schools; it commends itself to private students. It contains overy 300 pages, put up in compact

form, with flexible covers. THE OLD MAM'SELLE'S SECRET. After the German of E. Marlitt. By Mrs. A. L. Wister. Published by J. B. Lippincott & Co., Philadelphia.

There is such a piquancy about this story, not usually found in German novels, that renders it interesting and fascinating to the reader. All the prominent characters in the plot are well drawn, and appear natural and in harmony with each other. The "Professor and "Fay," and "Mam'selle," stand forth in living beauty. The tone is elevated, and the language flowing. Here and there are some beautiful specimens of word-painting.
