Lightning Rods Munson's Copper Tubular Lightning Rod, WITH

SPIRAL FLANGES.

Has been erected on thousands of buildings in all parts of the United States, and in a test of ten years no instance of their inefficiency has occurred. This Hod has received the First Premiums at the Fairs of nearly all the States, and every place it was ever exhibited. It has been endorsed by, over five hundred Professors in Colleges, and other scientific men, at the best Rod ever invented, possessing all the elements necessary to proest Rod ever invented, possel if the elements necessary to publishing from lightning. It of copper, because this is installic conductor, except silve oes not rust. Its spiral fang ough edges district and and does not rust. Its spiral flanges and rough edges dissipate electricity and double its conducting power. Electricity uses only the surface, never the leart of a metal. One flange of this Bod being open, the inside surface is available as well as the outside; altogether, its power surpasses wend together, its power surpasses when common iron rods or a solid copper rod an inch and a half thick, and has the and altogether in the and a half thick, and has the and included an additional advantage that it is continuous, and can never become disjointed or otherwise get out of order, but will endure as long as the building stands on which it is cretched. Our points are made on the most approved method, and our fusuitators are unsurpassed.

Our customers will have the benefit of our new Insulator, patented in 1897. The price is thirty cents per foot, and three dollars for each top; thi includes the cost of putting the rod on buildingsthere are no extra charges of any kind. Within the past few years we have erected this rod on many clurches and other public edifices in Pittsburgh and yclenity, and upon thousands of dwellings and barns. For the superior character of this rod we are permitted to refer to Rev. I. C. Pershing, D. D., President Pittsburgh Female College; Philotus Dean, E50,. FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, April 23, 1868. Gold opened very strong at 140%, ad vanced to 1401/4, but lowards noon large amounts of gold were thrown on the mar-

ket, and a general bearish feeling manifested itself at the gold room; quotations, however, were well sustained. The market is still largely oversold, which gives it a grmer undertone. There is scarcely any doubt that quotations must yield after the first of May, and who knows whether the rise within this week was not engineered for the purpose of making a market to sell shorton. This is the first instance since 1864 that gold went up just before a heavy

disbursement, which will amount to more than all we owe Europe now? 🦥 Bonds remained steady to-day without much activity. Prices are evidently too high to purchase now, but after the May dividends are paid a new risr is almost certain at somewhere near present prices of gold. Stocks were off towards noon and large sales were made to realize. The market will have to yield still more before a new rise can take place.

Closing quotations as received by Ph. R. Mertz, were as follows:
Gold, 139%; 1881 bonds, 113; 1862 5-20s, 112; 1864 do, 110; 1865 do, 110½; Consols, 109½; 1.40s. 109. 112; 1864 do, 110; 1865 do, 110½; Consols, 108½; 10-40s, 102½; 7-30s, 106½.

Railroads—Cleveland & Pittsburgh, 82¾; Fort Wayne, 102¾; North Western, common 63; North Western—preferred, 74½; New York Central, 124½; Erie, 70; Old Southern, 89¾; Ohio & Mississippi, 31½; Merchants Union Express, 32½; Western Union Telegraph, 37½. Mining Shares—Corydon, 31½; Quartz Hill, 1,05. Quicksilver, 27. -There are now less than two hundred millions of both, series of the Seven Thirties outstanding. As they must be funded, if funded at all, before the 15th of July, the work must go on at the rate of nearly sixty millions a month. We opine that the tendency to delay upon the part of many will cause a very great and a very embarrassing Twenties of 1868 in exchange for the Seven spot, at 91/4c, and 500 to be delivered in Five Twenties, with the July gold cou-

pon on, for which coupon only currency interest is charged. The very heavy interest payments of May will put both home and foreign holders of United States bonds in funds to purchase more of the same sort-and an increased demand arising from these disbursements of Government interest always has characterized the periods when the

coupon maturities are heavy. It will be remembered that the fourth section of the national bank act defines the term United States bonds, as used in that act, to mean all registered bonds that may be issued. In view of this proviso, some banks have found it both profitable and convenient to withdraw from the Treasury Department their old and high-priced Five Twenties, and substitute therefor Ten Forties and new Five Twenties. These

exchanges can be made with very little difficulty. The Michigan Southern directors have agreed to make a stock dividend of 10 per cent. Upon this addition of capital the managers feel assured that regular dividends of more than seven per cent. can be made. The directors of the Cleveland & Pittsburgh road have by formal resolutions declared that its earnings shall be divided among the stockholders and not be absorbed by "construction."

Closing quotations received by James T. Brady & Co. 5-20's, 1862..... " 5-20's, 1864..... " 5-20's, 1865..... " 5-20's, Jan. and July, '65... " June 7-30's..

OFIFCE OF THE PITTSBURGH GAZETTE, THURSDAY, April 23, 1868. CRUDE—The market was again firm and a little excited to-day, and, compared with yesterday, prices have still further advanced; there was but little done, howpressure towards the last. Many holders ever, which was owing to the extreme are waiting to receive the new Five views of holders. Sale of 2000 bbls, on Thirties. Conversions made now are paid in the next fifteen days at %. Later in the day it was reported that 914c had been offered and refused, but for this we cannot vouch, and only it for what it is worth.

Telegrams from Oil City report the market excited at \$3 to \$3,05 on creek; and \$3,20 at that point, The arrivals are beginning to fall off considerably, and it is said that oil is scarce at the wells.

is scarce at the wells.

REFINED—The market for bonded oil is also firm and considerably excited, with a strong upward tendency, though the volume of business continues light, in consequence of there being but very few sellers. We can report a "line" of 2500—500 each from August to December at 290; 500 for May at 261/20, and 500 for June at 27c. Late in the evening favorite fall months were held firmly at 30c, though up to that time, so far as we could learn, there were no buyers above 250.

and Duquesne Way. New York Dry Goods Market. Lta goods

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, April 23, 1868.

The market for Cattle has again been remarkably quiet during the past week, the sales, in the aggregate, being insignificant, and while the demand is very light, it is equally true that the offerings are limited. There was not a single Philadelphia buyer in attendance, and, so har as we could learn, there was but a single sale for shipment, and it was or will be shipped to New York. Some two or three small Phiadelphia Market.
