WE PRINT on the inside pages of this morning's GAZETTE: Second page, Epitaphs, Condensed News, Third page, Markets, Financial and Rice News, Fourth page, Home Markets, Fifth page, Interesting Miscellaneous Reading Matter.

GOLD closed in New York yesterday at 130.

THE RESULTS of the elections in Georgia and North Carolina are still in doubt, at this writing. The defeat of the Constitution in the former State is claimed by the Democrats, who boast, nevertheless, that they have elected a Governor under its provisions.

THE REPORT that Messrs. Groesbeck, Everts and Stanbery are yet to make speeches in defense of their client, and that Messrs. Williams, Stevens and Bingham are severally to be heard for the managers of impeachment, is very likely to be correct.

WASHINGTON advises sustain our estimate that thirty-nine Senators will vote for Mr. Johnson's conviction. The proposition that the discussions be taken down by the official reporters, is very significant of the opinions of Senators who would not court such publicity in the interest of the accused.

FRIENDS of the President, who have filled the Democratic newspapers of late with confident predictions that impeachment will fall of a constitutional majority of the Senate, may succeed in deceiving the credulous for a few days longer. But the course which events will take is plainly enough foreseen by Mr. Johnson himself, and by all the leading Democratic politicians.

THE latest advices from Japan are to be credited, the government of that empire has been radically revolutionized. The original and supreme authority of the Mikado, which was in theory not only spiritual but temporal, but which, in fact, has been beyond the memory of foreigners, a mere shadow under the usurpations of the great, the power successfully as Taikoo—has been at last re-established, by the complete defeat of the present claimant of the latter title and his retirement from any further contest.

THE pasteur of the Second Presbyterian Church, at New Albany, Indiana, admits the ordinance of baptism by immersion. We believe this is baptism.

THE high civilization of the present age, in this country, is spoken of, it will not do to infer that all the population share in that advancement. But from our population can be picked specimens of all the civilizations that are or have been.

LUNATIC HOSPITALS.

In few particulars does the civilization of the present age, stand in stronger or more favorable contrast to that of ancient times than in the treatment of the insane.

In Pennsylvania two Asylums for the Insane, mainly endowed from the public treasury, have existed for a series of years. In them about six hundred patients are steadily under treatment.

But these two establishments have been found inadequate to the proper detention and treatment of that portion of the insane for whose welfare the Commonwealth, according to the prevailing conception of its duty, ought to make provision.

Five years ago the Lutheran Synod of Minnesota was composed of two English and two German ministers. It has now fifty congregations.

RELIGIOUS INTELLIGENCE.

An article entitled, "The Morality of Hop-raising," in the Advance, (a Congregational paper) of Chicago, presents the obligations of professing Christians in a new light, and will be unsavory to those Christians who believe in making money at the expense of correct morals.

THE twenty-fifth anniversary of Rev. Dr. Spear's settlement over the South Presbytery Church, in Brooklyn, will be observed with appropriate services to-morrow.

THE Eastern anniversary of the Sunday School of St. James Church, corner of Penn and Mechanic streets, will be held Sunday afternoon (to-morrow) at 3 o'clock, when the children and congregation will be addressed by Rev. Mr. Allen of Christ Church, Allegheny City.

THE New York Evening Post says: The capitalists of Pittsburgh are beginning to take a lively interest in a new railroad project to connect that city with Newbern, as along the Monongahela river to its source and thence across a table land of five miles to the head waters of the Elk Mountain, ten miles beyond.

REMEDY.

Prepared from a German recipe obtained by the late JONAS WHITCOMB in Europe. It is well known to have alleviated this disorder in his case, when all other appliances of medical skill had been abandoned by him in despair.
