TELEGRAMS from Washington state that the final vote of the Senate upon impeachment will be taken on Tuesday.

GEN. HANCOCK'S friends claim that he will secure the votes of the delegates from Pennsylvania, Indiana, and fourteen Southern States for President.

REPORTS from the Florida elections are received at Washington, announcing the ratification of the Constitution and the election of the Republican State ticket, with majorities in each branch of the Legislature.

THE Republican panic at Washington, which assumed such alarming proportions a few days since, has again given place to a very comfortable feeling of certainty touching the Presiden'ts conviction. We need not reasonably anticipate another "scare" before, say, Monday next, when the gossips, who will have industriously improved the Sunday's idleness in the neglect of any good works, will perhaps electrify the country again with another and positively the last sensation of the trial.

THE National House of Representatives has adopted a bill for the admission of Arkansas, with the proviso, by way of a fundamental condition, that no right of suffrage as recognized in her present Constitution shall be hereafter restricted or imstipulations of the Reconstruction Acts, but is, nevertheless, sustained by all considerations of justice and wise policy, and will be acceptable to all classes of citizens except that, if there be such, which already contemplates the adoption, subsequent to admission, of some such measure as is provided against.

气化学法院性 经钱链 THE Methodist Annual Conference is engaged in a thorough discussion of the Equality question. We noticed the introduction of the topic in that body a few days since. features of such discussions upon that issue in other deliberative bodies. The arguments on one side declare the intrinsic merits of the issue, upon the broad, general basis other hand by merely technical objections and hair-splitting distinctions upon legal prising, for arguments which are unanswerable must be conceded or evaded.

THE RIGHT OF NAVIGATION. The Cincinnati Gazette publishes a statement signed by thirty-five river pilots. showing the inevitable injury to navigation resulting from the erection of a bridge with piers as proposed. With each signature is specified the length of time for which the writer has been employed in his peculiar vocation, the periods varying from six to over forty, years. The list includes the names of the best known and most skillful pilots on the river. These gentlemen de-

While this danger and obstruction at a low stage of the river would be comparatively small, it would be increased with the rise of water in the river, until at a stage of twenty feet and unward, when the heavy business—especially in towing—is done, it would be very serious. We regard it as clear to the mind of any sensible river man and navigator, that the placing of five or six piers within the banks of our narrow river, will, by dividing the water at the piers, create 'cross currents' and 'eddies.' dangerous to navigation. The 'water above the piers will be higher than below, and the force of the current materially increased, varying, of course, with

DR. SARGENT'S COUGH STRUP

BITTERS. The human stomach seems to require a tonic stimulant. From time whereof the memory of man runneth not to the contrary, tonic bitters have been used. Formerly men made their own bitters, and few thought of eating breakfast without first tak-ing their "tansy." Those were days, however, when prohibitory laws were unknown, and, in consequence, liquors were pure. Dealers could then afford to be honest and sell nothing but the unadulterated. Now, however, what with government tax and court fines, poke-berry juice and alcohol must pass muster for "old rye" and "pure bourthan malarial diseases and dropped their "tansy." than maintai diseases and dropped sheir tansy.

Right here is where Hostetten & Smith, of Pitte-burgh, have proven benefactors. Years ago they burgh, have proven benefactors. Years ago they commenced the manufacture of HOSTETTERS. String it down as a rule, that has since been conscientionally followed, to use nothing but the purest liquors, manufactured expressly for the purest liquors, manufactured expressly for them. By strict atherence to this rule they have won public confidence and reaped their roward in a large, profitable and steady business. Their HITTERS is known all over the country. They are the ploneers of the business, and have the largest manufactory in the world. Nor has success in their case, as in too many instances, rendered them careless; their BITTERS is as, pure and good to-day as was their fast distillation. We heartly recommend them as a toole.

As a specific for dyspepsia, biliousness; constipation, nervousness, general debility, and remittent and intermittent revers its efficacy has nover been questioned.

luestioned.

There are many worthless imitations; we earnestly aution the public against them.
