The general markets have been fairly ac-BANKING AND EXCHANGE OFFICE tive and very firm throughout the past week, and compared with last week, prices, generally are higher. Grain has been considerable excited, under the influence of the advices from Chicago, and Corn, Rye and Wheat are higher, and an advance was Formerly occupied by the NATIONAL BANK OF COMMERCE. also established on Flour. Yesterday, however, there was a slight reaction in PH. R. MERTZ. Chicago, and should it hold out for a day or two, we may look for a corresponding result here. Country produce is scarce and firm, and Butter, which early in the week, was a little weak and lower; is again tending upward in consequence of diminished BANKERS

arrivals. Provision market firm but unchanged, and the same remarks will apply to Groceries. APPLES—Green Apples are firm and scarce but unchinged; we continue to quote at \$6 to \$7 per bbl.

POTATOES—rirm and in limited supply. Peach Blows may be quoted at \$1,50 per bushel, and prime Jersey Sweets, \$8,50 to

89 per bbl.
BUTTER—Is in better demand, and with a very light supply and limited receipts, the market may be quoted firm at 35 to 40c for prime to choice Roll.

MILL FEED—Sale of I car Middlings at \$2,20. The last sale of Bran reported was at \$1,70. Stocks light.

GRAIN—Winter Wheat is scarce and firm, and in good milling demand. We continue to quote prime Winter Red at \$2,76 to \$2,75, and 5 to 8c higher for White. Sale of 500 bushels No. 1 Spring at \$2,60. Corn is firm, with sales of 600 bushels Ear at \$1,12, and 300 bushels Shelled Corn at same figure. Oats firm but unchanged; 80c on wharf and track; and 83 to 85c; in store. Rye is scarce and firm at \$2 to \$2,10. No Barley in market, and the demand is light, most of the malsters having suspended until the new crop comes in.

The exports of specie for the past week there is absolutely no inquiry. There is considerable inquiry for Flaxseed, but there is none to be had.

DRIED FRUIT Peaches firm, and amounting to over four million dollars, and exceed the payments for interest due May first, and the sales of government gold combined, in consequence, thereof, the market steadily advanced from 1391/3, the lowest price of the week to 1401/, and closed at 1401/6. The increased demand for specie for shipment to Europe and the gether with the ease of the meney market,
