FINANCE AND TRADE.

Office of the Pittsburgh Gazette, Tuesday, May 19, 1868. The feeling in the gold market was less earish to-day, and the premium advanced from 139% to 139%, with some inquiry for ash gold, principally for legitimate business requirements. The acquittal of the President of the United States on the eleventh article of impeachment has had a favorable impression on the market in Enope, but it is believed that this state of feeling is only temporary. The test for the credit of the United States will only be the mode of dealing with our financial question, which is expected to be solved mmediately immediately after the Chicago Convention. Any increase of either national or greenback currency must be injurious to the national credit, and bring ruin to every commercial or financial interests. A timely contraction of the currency will shorten the distance to resump-

tion of specie payments, whilst on the other hand, any further depreciation of the currency by new issues of the same will indefinitely postpone it, and make foreign ountries rich at the expense of our people. Government securities advanced to-day from % to % per cent., in consequence of the heavy disbursements for compound interest notes; besides the Treasury is pursuing the same old course again, aiding the people by free disbursements when money s not required, thereby leading on to spe culations in stocks and contracting, when money in the open market is already scarce. It is in fact the Treasury that has the fullest control of the market, not only of its own issues, but upon the entire business community of the country, so long as the only means of giving flexibility to the currency of the country is to be looked for in the lowering and rising of the rate

of interest. In the stock market business is dull, and an apathy to buy stocks exists everywhere, and is not confined to the regular gamblers

of Wall streer. Money is easier, business improving and the flow of currency is towards the sea-

board cities. Closing quotations as received by Ph. R. Mertz, were as follows:

—Says the New York Tribune of Monday: Money is abundant at 5 to 6 per cent. The latter upon ordinary collaterals. Commercial paper continues scarce and wanted at low rates. The banks are liberal to their dealers, anything rejected by them sells on the street at quite high interest. The failure of "impeachment" puts an end to the hope of more currency, under a new Secretary of the Treasury, and depresses a class of speculators who have looked to this alone as the means of stimulating an advance in prices. A report is affect that a new Secretary of the Treasury may be had without the removal of the President, and that Mr. Hooper, of Boston, is the confineman. Should this rumor have substantial foundation, all hopes of more currency may be abandoned, and the sconer the better. The suggested Secretary has no melination The suggested Secretary has no inclination for more bank currency or plain legal tenders, but holds the opinion that the scorer the Government reduces its promises in gold the better—an opinion in which he has the support of all solvent people of all prudent trades. There is no reason what ever for any more currency and the countries.

ever for any more currency, and the country at large will be a great gainer by obtaining a Secretary who holds this view, and who has the courage to steadily act upon his opinion was a secretary. -Closing quotations received by James T. Brady & Co.:

PITTSBURGH MARKETS.

OFIFCE OF THE PITTSBURGH GAZETTE, Tusday, May 19, 1868, The general markets are quiet and devoid of any new characteristics worthy of notice. The weather has cleared up and is all that possibly be desired for the growing crops, and it is generally conceded that the prospects for an abundant harvest were never better. And this is what the country needs more than anything else; with good crops we may expect good times, and ve have reason to be thankful that the prospects are so bright.

APPLES—Firm and scarce, and with a steady demand, prices are well sustained, ranging from \$6 to \$7 per bbl.

APPLE BUTTLER—We continue to quote at \$0c to \$1 per gailon, as to quality.

ASHES—Quiet but steady at 4½ to 5 for common and refined Soda Ash, and IIc for

common and renned sous Asn, and the for Pearls.

GRAIN—Winter Wheat is scarce and in good milling demand at \$2,70 for prime Red. Corn is in good supply and unsettled; we have sales of 760 bush prime yellow reported at \$1,10; mixed and White may be quoted at \$1 to \$1,05. Oats firm with sales at 80 to 82c on wharf, and \$4 to 85c in store. Rye is still quoted at \$1,95 to \$2. No Barley in market.

BUTTER—Holds up remarkably well, notwithstanding resture could not be better; we still quote prime Roll at 33 to 35c, and print at 37 to 38c.

EGGS—Were in better supply to-day, and did not sell as readily as on Monday, though 20c is still regarded as the ruling price.

HAY—Weighmester McNulty, at the Allegheny Diamond Scales, reports sales of 33 loads of Hay at \$22 to \$30; and 4 loads straw at \$15 to \$18.

SEEDS—Flaxserd is in demand and very limited supply. timited supply; we can report small sales at \$2,50 to \$2,55. No demand whatever for Clover or Timothy Seeds.

SALT—Sales of Allegheny River brands o the trade at \$1,75 to \$1,80, and \$2 for

to the trade at \$1,75 to \$1,80, and \$2 for small lots in store.

MILL FEED—Dull but unchanged; sales on wharf, at \$1,65 to \$1,70 for Bran, and \$2,15 to \$2,20 for Middlings.

PROVISIONS—Eacon is unchanged at 14½c for Shoulders; 16½c for Ribbed, and 18½c for Clear Sides; 19½c for Plain Sugar Cured Hams; and 20½ to 21c for Canvassed do. Lard, 19½c. Mess Pork, \$29. Dried Beef, 22c for Plain; and 23c for Canvassed.

LARD OIL—Unchanged at \$1,25 for No. 2, and \$1,50 for No. 1.

DRIED FRUIT—Firm but unchanged; sales of Peaches at 12 to 14c; and Apples at 7 to 7½c.

7 to 7½c.
FLOUR—The market is quiet and prices are unchanged. We continue to quote at \$11 to \$11,75 for Spring Wheat; \$12 to \$13 for Winter Wheat and \$14 to \$16 for fancy brands. Rye Flour is unchanged at \$10 to \$10 25

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, Tuesday, May 19, 1868. CRUDE—The Crude market was again very dull to-day, but two sales reported, 1,300 and 1,800, both for immediate delivery and both at 11c. In view of the fact that the excitement in regard to the expected "corner" his pretty well subsided, buyers are not as plenty as they were a few days since, but there is not much oil offering, and, as a | consequence, prices are unchanged. It was hinted in certain quarters that spot oil could be had at 10%c, if direct offers were made but we have reason to doubt this, from the fact that there is scarcely any spot oil in market, and what ittle there is is held firmly at 11c, Oil City telegrams report the market dull at \$4 to \$4.10. Receipts continue light.

REFINED—The market for bonded oil was exceedingly dull and neglected to-day, and the indications at present are not very encouraging for those engaged in the movement to establish a "corner" on the 22d. It looks now as if instead of being 22d. It looks now as if instead of being able to make a "corner," they would be "cornered" themselves, and if this should be the result, the movement will not be a very profitable or fleasant one to those in-

terested in it. Our refiners, with but very terested in it. Our refiners, with but very few exceptions, if shy, will be able to come up to the scratch, and having fulfilled their part of the programme, it will remain with the other side to come down with the "siamps!" which we hope they will be able to do. Prices continue weak and drooping; all May, buyer's option, is offering at 30c; June cannot be quoted above 29%c, and May, June and July together, was offered freely at 30c. As we stated yesterday, it is likely that there will not be much done untilkely that there will not be much done until after the 22d, as operators, generally, prefer to hold off and await the issue.

ARRIVALS—The arrivals—of oil by river and rail reported to-day were as follows:
