PAYABLE IN GOLD. The Great Pacific Railroad Line, extending 1721 miles from Omaha, on the Missouri River, to the two powerful Companies—THE UNION PACIFIC, beginning at Omana, building west, and the Central beginning at Omaha, building west, and and facility of California, beginning at Sacramento, building east, until the two roads shall meet. Both Companies have prosecuted the work with groat vigor, the Union Pacific having already ex-

pended over THIRTY MILLION DOLLARS, and the Central over TWENTY MILLIONS, upon their respective parts of the undertaking. THE UNION PACIFIC HAVE COMPLETED 550 MILES-have from and other materials for two hundred miles more upon the ground, and one hundred onal miles are ready for the track... They will

will be in operation during 1868. There seems to be no reas ble doubt that the distance between maha and Sacramento will be traversed by rail

THE GOVERNMENT GRANTS 12,800 acres of land, and its Bonds to the average amount of \$28,000 per mile, to aid in the construction of the line, and authorizes the issue of the First Mortgage Bonds now offered for sale, to the same amount and no more. The Government takes a SECOND lien, and gives to the First Mortgage Bondholder a prior lien for their security, to which a large paid-up capital is added. The Bonds cannot be issued except as each section of twenty miles is accepted by Govern nent commission, so that they always represent s real property. 🦠

It is universally admitted that on the completion WHITE GOODS, PIQUE, &c.

A stream, samitted that on the completion of the Union Pacific Raliroad, its through business will make it one of the most profitable in the world -but its way or local business is already several times the interest on its bonds; so that, if not another mile were built, they would be a secure in-

THE NET EARNINGS for eight months of last year on an average of 386 miles are officially re-ported at \$1.069, 136, while the interest on all the Bonds it could issue on that length of road for that time, reduced to currency, was only {345,556.

The amount paid by the Government for the trans portation of troops, munitions, stores and mails has been, and doubtless will continue to be, much more han the interest on the United States Second Mortgage Ronds. If it is not, the charter provides that after the road is completed, and until said bonds and interest are paid, at least five per cent. of the net earnings of the road shall be applied to such pay-

The Union Pacific Bonds are for \$1,000 each, and have coupons attached. They have thirty years to run, and bear annual interest, payable on the first days of January and July, at the Company's Office in the City of New York, at the rate of six per cent. in gold. The Principal is payable in gold at maturity. At the present rate of gold, these bonds pay an annual income on their cost of

NEARLY NINE PER CENT.,

AND IT IS BELIEVED THAT THEY WILL SOON BE AT A PREMIUM. The Company have but a very limited supply of their Bonds remaining on hand, but any subscriptions accepted to a greater amount than can be filled from Bonds now in the Company's possession, will be supplied from the New Bonds to be issued on that portion of the road completed in the Spring, in the der in which they are received.

The Company reserve the right to advance the price of their bonds to a rate above par at any time, and will not fill any orders or receive any subscripat the Company's office before the time of such onds and the accrued interest in currency at the rate of six per cent. per annum, from the date on which the last coupon was paid.
