FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, May 28, 1868. Gold was less active to-day, fluctuating between 139% and 137%. The weakness of the market seems to be due to a rise in government bonds in the European mar-

kets, which caused shipments of, bonds to be made instead of gold. Government bonds were in the morning dull and 1/2 to 1/2 per cent. off, from last night,s quotations, but towards noon a resh demand set in, and prices were carried higher than any yet reached during the greenback reign. Seven Thirties have touched 1091/4, but fell off at the close These, with the Five Twenties of 1865 and 1867, are now the cheapest securities on the market, when compared with bonds of 1865 old. The offers to sell at present high quotations are increasing, and it has altogether the appearance as if the highest point was reached, at least, for the present. The rise in bonds was so steady but rapid that speculators are tempted to realize. The facility of borrowing money on these that those who buy for investment will

ist remained unchanged, with a decline in Express and miscellaneous stocks. Mining shares are firm and higher and there is a probability that a lively time may set in ARRIVALS—But a single arrival report probability that a lively time may set in these stocks, which is always the case during the summer season, when the large operators are away. Money is easier here, with but little demand for legitimate business; long paper and second grade will not pass at even; a high discount. Closing quotations as received by Ph. R. Mertz, were as follows:

-On and after June 1, the Treasury Department will be prepared to receive Seven Thirty Treasury notes falling due June 15 and July 15, 1868, for conversion into bonds, dated either July 1, 1867, or July 1. 1868, as parties may desire. The terms of converson will be as follows: The interest on both series of notes will be allowed up to July 1, and the bonds issued in exchange

will bear interest from that date. -The State Bank of Missouri has bought \$1,500,000 St. Louis city bonds, payable twenty years after date, at six per cent., for eighty cents. These bonds are issued under recently granted authority-\$1,000,-000 to pay current expenses, and \$500,000 to

build sewers. -The Boeton Advertiser thus refers to an merican banking firm in London: The news of the fallure of Messrs. Belding, Keith & Co., American bankers in London, which has been vaguely reported for some days, was received in this city by a dispatch to Messrs. Page, Richardson & Co. Mr. Keith was its this city at the time, and on receiving the news immediately started for London. It is under

PITTSBURGH MARKETS.

OFFICE OF PITTSBURGH GAZETTE, THURSDAY, May 28, 1868. The general markets are devoid of any new features worthy of special notice; there is no improvement to note in the demand, and while the operations are mainly of an. unimportant character, there is, nevertheless, a fair volume of business in the aggregate. In values, there are no important:

changes. GRAIN-Winter Wheat, notwithstand. ing the offering and supply is light, is dull and prices are drooping; we have a sale of prime Red reported to-day at \$2,52. Oats dull but firm and scarce; we continue to quote at 83 to 75c. Corn is dull but un-changed at \$1,05 to \$1,10—the latter figure. for prime Yellow. Rye cannot be quoted above \$1,95 to \$2. No Barley in market. HAY—Baled Hay is in fair demand, and

we can report sales on wharf at \$20 to \$25, as to quality.

BUTTER—Continues very dull, with a supply largely in excess of the demand; sales of good to strictly prime Roll at 20 EGGS—Steady at 22c.

DRIED FRUIT—Is dull and weak but un-

changed; sales at 6½c to 7½c for Apples, and 12 to 14c for Peaches. and 12 to 14c for Peaches.

POTATOES—The market is very dull under the influence of increased receipts, and prices are weak and drooping. We now quote at \$1,35 for Prince Albert's, and prime Peach Blows at \$1,40 to \$1,45.

PROVISIONS—Bacon is quiet and prices are unchanged. We continue to quote at 14 to 14½c for Shoulders; 16 to 18c for Ribbed and Clear Sides; 19½ to 20c for Plain and Canvassed Sugar Cured Hams. Lard, 19½ to 19½c. Mess Pork, \$29.

FISH—Lake Herring are very scarce and higher; we now quote at \$4,75 to \$5 per half bbl. White Fish firm at \$3,50. Baltimore Herring, \$10 to \$10,50; Baltimore; Shad,

\$11,50; "Mad River," \$12,56; "White Star,"
\$11,50; "Monticello," \$11,50; "Clark &

Rye Flour is quoted firm at \$10,50;

PIYTSBURGH PETROLEUM MARKET. OFFICE OF THE PITTSBURGH GAZETTE,

THURSDAY, May 28, 1868. CRUDE—The market for Crude presents no new features worthy of special notice. There is some little inquiry both for spot and June delivery, and while the offerings are rather light, prices are pretty well sustained. We can report 2,000 bbls for June, seller's option, at 101/2c, and 2,000 to be desecurities, and the cheapness of money it- livered between now and December 1st, self, has brought out the full force of the wall street speculative element, and all street speculative element, and all client telegraphic report the market wall street speculative element, and all seem to have combined to carry bonds up beyond precedent. It will soon turn out that those who buy for investment will REFINED—The market for bonded oil that those who buy for investment will turn themselves by force of circumstances. It is evident that capitalists will not retain an article when a handsome profit can be made by sale, and re-bought at lower rates.

In stocks little can be said of the market, but a fastbox rese in Fort Wayne New REFINED—The market for bonded oil a quiet and unchanged. Sale of 1000 bbls for first half of June at 28½; and 500 bbls for last half, at 28½c. Spot oil is quoted at 28c; July at 28½ to 28c, and August at 29½ to 29½c. The failure of a prominent eastern operator is reported, and this, as always is the case, has a tendency to depress and weaken the trade, both here and there. but a further rise in Fort Wayne, New Upon inquiry we ascertained that this ru-York Central and Erie; the balance of the mor has no other foundation than the en-
