OF THE UNION PACIFIC RAILROAD

Are now finished and in operation. Sixty miles of track have been laid this spring, and the work along the whole line between the Atlantic and Pacific States is being pushed forward more rapidly than ever before. More than twenty thousand men are employed, and it is not impossible that the entire track, from Omaha to Sacramento, will be finished in 1869 instead of 1870. The means provided are imple, and all that energy, men and money can do to secure the completion of this

This is on absolute donation, and will be a source of large revenue in II.—A GOVERNMENT GRANT of United States Thirty-year Bonds, amounting to from \$26,000 to \$48,000 per mile, according to the difficulties to be surmounted on the various sections to be built. The Government takes a second mort-gage as security, and it is expected that not only

the interest, but the principal amount may be paid in services rendered by the Company in transporting troops, mails, &c. The interest is now much more than paid in this way, beside securing a great saving in time and money to the .-- A GOVERNMENT GRANT of the right to issue its own FIRST MORTGAGE BONDS, to aid in building the road, to the same amount as the U. CONTINGENCY. The Company have abundant means in their treasury, and make no appeal to the public to pur chase their Bonds, as the daily subscriptions are en tirely satisfactory; but they submit that, for entire security and liberal returns, there is certainly no better investment in the market. The Union Pacific Bonds are for \$1,000 each, and

have coupons attached. They have thirty years to run, and bear annual interest, payable on the first days of January and July, at the Company's Office in the City of New York, at the rate of six per cent. in gold.
