RIVER NEWS.

The river is receding but very slowly, with scant three feet in the channel by the Monongahela marks. The weather was again oppressively hot yesterday, notwithstanding we had a very heavy shower of rain on Tuesday night.

The Ingomar arrived and departed for Wheeling, and the Glasgow cleared for Parkersburg in place of the Eagle. She went out drawing three feet, and, we presume, she would have to jump Glass House.

The J. N. McCullough, from Cincinnati, Grey Eagle, from Parkersburg, arrived. The McCullough would have been in early in the day, had she not have been detained by low water and fog. As we noticed yesterday, the Eagle retires for the present.

The Wausnita, which boat left here for St. Louis Tuesday evening, grounded on Glass House, and, at last accounts, was still sticking there.

The Lorens, Capt. Sam. Shuman, is loading for St. Louis, and may possibly get off this afternoon or evening.

Passengers and shippers should bear in mind, that the J N McCullough, Capt. Geo. D Moore, leaves for Cincinnati to day on time, 12 o'clock. She is in all respects one of the best boats on this end of the Ohio River, and we have no doubt she will get more freight than she can take on the water.

The St. Charles left Cincinnati for Pittsburgh on Monday evening, and is due here to-night.

Andy Robinson, Jr., clerk of the St. Charles reports that parties who have been prospecting for silver near Ripley Landing, Jackson county, West Virgina, have struck a vein twenty-two inches thick, which yields ninety-five per cent. of pure silver. Great excitement prevails throughout that section of the country.

The managers of the Northern Line and Northwestern Union Packet Company held a meeting in Chicago on Wednesday, at which it was determined that the present rate for carrying freight on the Upper Mississippi was entirely too low, and an agreement was entered into by which the rates are to be raised to a living price, each party binding itself to abide by the rate established.

A St. Louis telegram, under date of Monday, says: There were 17 arrivals during the past 48 hours, mostly with full cargoes, and 17 departures, including the Ruth and the towboat Shark and barges, with all the freight they wanted. Rates of freight and passage to St. Paul to-day points were advanced this morning by the two rival lines. The boats leaving here for St. Paul have their entire ladies' cabins engaged considerably in advance. The Miner has arrived from Benton.

The Cincinnati *Commercial*, of Tuesday, says: Owing to low water, freights have advanced to all points, the rate to New Orleans being 35 to 40c per 100 pounds. The Emma No. 3 reshipped her Pittsburgh freight on the Delaware. The latter departs for Pittsburgh this morning. The Mary Erwin has been chartered to take the place of the Ohio No. 3 in the Marietta trade during low water. The Westmoreland will depart for New Orleans to-day, and will be followed by the Swallow, Captain Thos. Poe, of the Amelia Poe, recently sunk in the Mississippi river, arrived here yesterday.

We clip the following from the Cincinnati *Gazette*, of Tuesday: The Champion, sunk recently at Chenault's Reach, will be here in a day or two, having been raised. We heard yesterday that there would be trouble between the owners and some of the insurance companies that had risks on her, because of a statement to the effect that a "cub" was at the wheel when she struck, and no licensed pilot at hand to give directions. We have heretofore stated, on the authority of her clerk, that a licensed pilot was at the wheel, and Capt. Gregg sitting on the roof in front of the texas. We think, therefore, that the story we heard yesterday must be untrue. However, it gives us an opportunity to warn masters of boats and licensed pilots against leaving the wheel entirely in charge of a steersman, even for a short time, as is frequently done.

We also take the following from the same paper: Captain Calhoun, we understand, has been offered command of a fine side-wheel packet, but declined, because of previous contract.

The rivalry between the magnificently built steamers carrying passengers between New York and Boston is unprecedented. These lines have hitherto worked side by side in unostentatious rivalry, having a uniform rate of fare of from four to five dollars, making the passage by water cost about as much as the trip inland by the way of Springfield. But at last they have become so numerous—there being now four separate lines of steamers and two land routes—that the competition has become very spirited, and within the last few weeks they have been running a race for public favor by the means of low fares, until now one can take his choice of the means by which he will go to New York or Boston for a dollar. The result of this has been, that multitudes of people are making the journey merely for the cheapness of it, and some of the steamers now carry from a thousand to twelve hundred passengers nightly. There are no sleeping accommodations for so many; application a week in advance is necessary to secure a state-room; and the late comers have to test the tenderness of a plank all night. The dining rooms of the boats are turned into restaurants on the European plan, and so made infinitely more profitable; and this in a measure compensates for the difference in fare.

TO GLASS MANUFACTURERS.—The undersigned having secured the sole Agency for the sale of the celebrated
COPLEY POT CLAY
Are now prepared to furnish it in any quantity to those wishing to procure the superior article. During fifteen years' use of this Clay, we have arrived at such proportions as we believe makes it a better article for pots than any in the market, we having secured an average stand, of nine months. We will furnish receipts for the proportion of the mixture of this Clay to persons purchasing. The Clay is ground and molded in lumps for delivery.
