Gold closed in New York yesterday at 140 1/4.

The Senate refuses to concur in the House bill for a further extension of the fifty per cent voluntary clause of the bankrupt law to next January.

The press of our own and neighboring States have been a unit in commending the course of the Republicans of this district in placing the gallant and intrepid NEGRO in nomination for Congress.

It is stated that the Erie (XIXth) Congressional District will nominate Hon. G. W. SCROFIELD for reelection to a fourth term as its Representative.

The N. Y. World adroitly reminds the Pendletonians of the expediency of conciliating the Southern black vote, by giving a statement of their numbers in each of the ten States, and reiterating the opinion that they would vote in almost a solid body for repudiation.

SENATOR MORTON will deserve the grateful remembrance of all friends of an unimpeded river navigation, if he shall succeed in securing a square vote, by yeas and nays, in the Senate, on the short-span bridge question.

The Democratic meeting of Western Pennsylvania, at a session recently held in this city, unanimously adopted resolutions favoring the payment of the bonds in greenbacks and the nomination of PENDLETON.

We do not know how much of the credit is due to Mr. BINGHAM, upon whose motion the House yesterday reconsidered its unwisdom action, upon the proposition for bestowing two millions of dollars by way of gratuity upon the Department clerks, but it is probable that the final result must be in a great measure attributable to the vigorous protest of a very few influential members.

It is the baldest of humbugs to attempt an explanation of the popular interest in such an affair as the scull-race yesterday, at Philadelphia, upon the hypothesis that it is a mere trial of athletic skill.

THE POSTURE OF THE DEMOCRACY.

Two very singular things have happened this year, either of which, had it been predicted at the beginning of the current decade, would have been scouted as the wildest of extravagancies.

But this last thing is not likely to work smoothly. The Chinese empire is not like our Democracy, a many-headed monster; therefore there is no difficulty in the case of the Yankee ambassador, but to forbid Democratic apostates to pour out maledictions against abolitionists and "niggers" which would have to be done if Mr. CHASE is to be the candidate, and if the votes of colored men are to be begged in his support—would be to strike them dumb.

That the most potential leaders of the party had everything arranged for bringing Mr. CHASE out is beyond question, and it is a very significant fact.

THE KANSAS PACIFIC RAILWAY, FROM A MILITARY STANDPOINT.

General Sherman, in a letter addressed to General Grant, dated March 4, 1868, speaking of this road during the present year to Fort Lyon, would be a most important work to the military interests of that frontier.

WASHINGTON TOPICS AND GOSSIP.

A. H. Reed, the clerk in the Paymaster General's office, who was arrested for sending letters throughout the country to officers holders, assessing each five dollars for the alleged purpose of carrying on the expenses of the coming Presidential campaign, under instructions of the "National Managing Committee," has been bound by Criminal Court and allowed his freedom until that time by giving two thousand dollars bail.

GENERAL McCULLOUGH positively declines to be a Presidential candidate, and offers to aid the aspirations of HANCOCK. As the tactics of the Hero of the Peninsula are known to be defensive rather than aggressive, he might prove to be a valuable man to his protégé.

THE NATIONAL INTELLIGENCER had another studied attack on Secretary McCulloch yesterday, urging the President to remove him. The article asserts that McCulloch became somewhat alarmed at the prospect of his removal, and on Monday summoned the Chief Justice in the New York Convention.

CURE OF FISTULA.

CURE OF FISTULA. After a disease has been conquered, there is still the weakness that it leaves behind it to be removed. Convalescence is a tedious affair.
