Financial Matters in New York.

Gold Closed at 140¼.

By Telegraph to the Pittsburgh Gazette.]

NEW YORK, June 19, 1868.

MONEY AND GOLD.

Money in large supply, and easy at 3@5 per cent. on call. Sterling steady at 110@110¼ for prime bills. Gold irregular, opening at 140⅝, advancing to 140¾, and closing at 140¼. Loans were made at 1 per cent. for carrying, and 1@2 per cent. and flat for borrowing.

VERDICT AGAINST KANSAS PACIFIC RAILROAD.

A verdict for about four and a half million of dollars against the Kansas Pacific Railroad has been obtained in the Supreme Court, by the former construction contractors, Ross, Steele and Trowbridge. This road has no connection with the Union Pacific, which to-day advanced the price of its bonds to 102. Nearly $17,000,000 of them are already sold. The Company owes no debt, and has several millions in its treasury.

New York Dry Goods Market.

By Telegraph to the Pittsburgh Gazette.]

NEW YORK, June 19.—Although the market is lacking in activity, it would seem as though better feeling prevailed, or at least that prices had reached low water mark under the reaction in cotton and gold, yet, however, there is no elasticity in prices, but the indications are that they will be higher next month when the fall trade opens. For light styles of American prints prices are lower, being reduced to 11½c, the same as Lancaster, but for other classes of goods there is no particular change to observe.

RIVER NEWS.

The river is again receding at this point, with but three feet in the channel by the Monongahela marks. Weather was oppressively hot yesterday the thermometer being 93 degrees above zero in the shade in the afternoon. It seems a little strange that while there has been such terrific rain storms in the west within the past few days, we have had little or none here.

The Robert Moore from Portsmouth is the only arrival and departure we have to report.

The St. Charles, as before noted, was to have left Wheeling at noon yesterday for Cincinnati. Capt. Dravo, it is said, will place a low water boat in the trade in place of the St. Charles.

The Glasgow was due here from Parkersburg last night, and she is announced to leave again to-day at noon.

The Leonidas and Maggie Hays, enroute from St Louis to Pittsburgh, and the Wild Duck, enroute from Pittsburgh to St. Louis, were at Evansville on Wednesday night.

The Mary Davage, and Barges left St. Louis for Pittsburgh on Tuesday.

The loss of the Ocean Wave was occasioned by mattresses in the after part of the cabin taking fire from sparks from the smoke stack. The engineer smelled smoke, and, running up stairs, found the rear of the cabin on fire, beyond saving, and, giving the alarm, the pilot run the vessel ashore where she burned to the water's edge. The crew lost all their clothing, and with the officers, had barely time escape with their lives, so rapidly did the flames consume the combustible material of which all boats are made.

The Vicksburg *Times* says: "The Great Republic was as deep as she could swim with freight, but had no passengers. It is said that this will be her last trip in the Compromise line.

The St. Louis delegates to the National Board of Trade at Philadelphia have returned home, and report great interest felt in New York in the through grain movement in New Orleans. Responsible parties there offered to guarantee the half of the necessary money in that city to start a line of propellers that would carry grain in bulk from New Orleans to New York at 5 cents per bushel; if the other half would be subscribed in St. Louis, Cincinnati, Louisville and Nashville.

The following is from the Memphis *Bulletin*:

A well known Memphian, who is accustomed to take a drop or two now and then, says that a singular inconsistency is to be found in the fact that the barkeepers on some of the Mississippi river steamboats exact only 15 cents per horn for drinks when above Cairo, although when below Cairo 25 cents is the price demanded. In this the question naturally arises, do the Southern men drink larger drams than Northern men, or does it cost more to sell whisky below Cairo than above?

We clip the following from the St. Louis *Republican*, Wednesday; Business good. Freights in moderate abundance for all points. Rates to New Orleans steady at 20c per bbl for flour, other articles in proportion, or at any other rate the Barge Company may determine upon. The last mentioned appear, however, to have but little desire to carry freight at the rate they have established, as we could hear of no engagements being made, and a personal visit to the barge landing showed a blissful state of idleness.

The action of the steamboatmen in putting their figures at the same as the barges, has resulted as foretold by the advocates of the movement, in a decided improvement in business for the boats, as "at the same rate" the steamboats will always get the preference, and so long as they continue to receive good return trips and the stage of the river allows them to go out fully loaded, they can afford to carry at the ruinously low rate established by the tow company, a rate which was only set through spite and in the hope that the boatmen would be driven back to again allow of a discrimination in rates.

The Dubuque *Herald*, of Sunday, says: The result of the late conference in Chicago between the two steamboat lines has not been made public, even if anything was done toward a reconciliation; agents are unadvised of any changes in the present rates, which are 10c per cwt. on sacked grain, and 20c per bbl for flour.

A St. Louis dispatch, under date of Wednesday says: River steadily falling here. It rose 3 feet at Dubuque on Saturday. Missouri stationary at Omaha and St. Joseph. The Peninsh and the Mountaineer passed on Saturday.

The steamer Lizzie Gill leaves to-day for New Orleans, with 1,600 tuns. The Abeona and America leaves for the Ohio.

The Government contract for the transportation of some 300 tuns freight to the Upper Missouri, was awarded to Captain Hazlett, for the steamers Ida Stockdale and Huntsville, and not the Lilly, at the rate to Fort Sully of $1,80 per 100, and to Rice and Stevenson $1,90.

The towboat Atlantic and three barges were sold for $55,000, to Trunstall & Holmes, and Jas. Shaler. She will be engaged independently in the New Orleans trade.

SECURITY AND COMFORT FOR THE TRAVELING COMMUNITY.

J. B. HARRIS' SAFETY FIRE JACKET,

Car Heater and Moderator,

For SMOKE AND HOT AIR FLUES, dispensing with the use of Stoves and Fires in or about the Passenger or Baggage Cars, with the attachment to graduate the heat to any temperature that may be desired without the possibility of firing the car or cars to which the Jacket may be attached.

Having obtained of the United States Letters Patent for a Safety Jacket which is warranted to resist the most intense heat that may be adplied to it in the position and purpose for which it is intended. It is a sure protection from accidents by fire, originating from defective flues, or where iron pipes are used as conductors for steam or hot air. It is applicable to all piping that may become overheated, and is warranted to give perfect satisfaction where wood or other combustible material may be placed in close proximity thereto. I am now ready to apply my invention to stores, dwellings, factories, ships, steamboats, railroad cars, &c., where pipes as conductors are made dangerous by being overheated and security desired. I will sell, on application, rights to manufacture or to use the above invention; also, territorial rights, to such as may wish to engage in selling privileges, either by State or county.
