Leather National Bank, at Boston, is ascertained to be \$575,000-a much larger sum than was expected at the time of the time of the discovery of the defalcation. Time and investigation usually shows this result. For fear of impairing the banks credit the managers almost invariably understate losses at the beginning.

-The bill legalizing gold contracts, it is hought, if it becomes a law, will pave the way to a speedy and yet not forcible re-

sumption of specie payments. Thereafter very man who wishes to place his business on a solid foundation-every merchant, ianufacturer, and dealer will naturally ell or buy for gold instead of paper. The whole sale business of the country will, in s short time, be carried on entirely in specie; and this will be found so convenient, so certain, so definite, that we think this measure will do much to revive business, as well as to relieve the whole commerce of the country from the gambling

element which has been a curse to it. -Saya the Philadelphia Ledger, of Fri-day: Notwithstanding, we see. money quoted at New York as low as 1, 2 and 3 per cent., we are informed that very con-siderable amounts of commercial paper are daily sent from that eity to the banks here, whera it is discounted at 6 per cent, and in no one instance, that we have heard of, at less. The low rates quoted at New York are among bankers and brokers for large sums on call, usually from Saturday over Sunday. Money is evidently abundant and cheap, hut not especially low for buns-des purpeses. On call it is still quoted here at 4 to 5 per cent, but bank discounts are unformly & bis cents. New York Dry Goods Market.

By Telegraph to the Pittsburgh Gazette.] NEW YORK, June 20.—The weather is quite hot. Trade is more active and the market decidedly firmer for all fine Brown and Bleached Muslins; certain styles of heavy Brown Sheetings are also firmer, stock A, for instance, which sold as low as stock A, for justance, which sold as low as 161/1 by package are now firm at 161/c, and so are Lawrence C; these goods must ad-vance. All the leading houses, not only here but in the principal cities of the West, have been buying up the cheap lots of goods in the market recently, and with the stoppage of the machinery the tendency of prices is upward. There has been a great run for Great Falls J Brown and prices have risen from 180 to 14c. Laconia E and Exeter A have also advanced from 13 to 14c. Exceter A have also advanced from 13 to 14c Lawrence E have risen from 14 to 15c, Rus-set D advanced to 15c and sell quick, Gib-bon 4 yard Brown Sheetings have risen from 12½ to 13c. The Continental C yard-wide Sheeting is a beautiful article and sells quick at 15, as do 40-inch of the same Brand at 16c.
