UNION PACIFIC RAILBOAD

Are now finished and in operation. Sixty miles of track have been laid this spring, and the work along the whole line between the Atlantic and Pacific States is being pushed forward more rapidly than ever before. More than twenty thousand men are pployed, and it is not impossible that the entire track, from Omaha to Sacramento, will be finished in 1869 instead of 1870. The means provided are imple, and all that energy, men and money can do to secure the completion of this

GREAT NATIONAL WORK,

At the earliest possible day, will be done. The UNION PACIFIC BAILBOAD COMPANY

.- A GOVERNMENT GRANT of the right of way, and all necessary timber and other materials found along the line of its operations. I.-A GOVERNMENT GRANT of 19,800 acres

of land to the mile, taken in alternate sections on each side of its road. This is on absolute do tion, and will be a source of large revenue in III.—A GOVERNMENT GRANT of United States Thirty-year Bonds, amounting to from \$16,000 to \$48,000 per mile, according to the difficulties to be surmounted on the various sections to be built. The Government takes a second mort-

gage as security, and it is expected that not only the interest, but the principal amount may be paid in services rendered by the Company transporting troops, mails, &c. The interest is now much more than paid in this way, besides securing a great saving in time and money to the Government. V.-A GOVERNMENT GRANT of the right to issue its own FIRST MORTGAGE BONDS to aid in building the road, to the same amount as the U.S. Bonds, issued for the same purpose, and no more. The Government permits the Trustees for the First Mortgage Bondholders to deliver the Bonds to the Company only as the

road is completed, and after it has been examined by United States Commissioners and pro nounced to be in all respects a first-class Rali-road, laid with a heavy T rail, and completely supplied with depots, stations, turnouts, car shops, locomotives, cars, &c. .- A CAPITAL STOCK SUBSCRIPTION from the stockholders, of which OVER EIGHT MIL-LION DOLLARS have been paid in upon the work already done, and which will be increased

as the wants of the Company require. VI.-NET CASH EARNINGS on its Way Business that already amount to MORE THAN THE IN-TEREST on the First Mortgage Bonds. These earnings are no indication of the west through business that must follow the opening of the line to the Pacific, but they certainly prove that

FIRST MORTCAGE BONDS upon such a property, costing nearly three times their amount, ARE SECURE BEYOND ANY CONTINGENCY. The Company have anundant means in their

asury, and make no appeal to the public to pur-use their Bonds, as the daily subscriptions are enirely satisfactory; but they submit that, for entire security and liberal returns, there is certainly no setter investment in the market. The Union Pacific Bonds are for \$1,000 each, and ave coupons attached. They have thirty years to run, and bear annual interest, payable on the first days of January and July, at the Company's Office in the City of New York, at the rate of six per cent. in gold. The Principal is payable in gold at matu-rity. The price is 102. At the present rate of

gold, these bonds pay an annual income on their

NEARLY NINE PER CENT. The Company reserve the right to advance the price of their bonds to a rate above par at any time, and will not fill any orders or receive any subscripions on which the money has not been actually paid at the Company's office before the time of such

Parties subscribing will remit the par value of the bonds and the accrued interest in currency at the rate of six per cent. per annum, from the date on which the last coupon was paid. Subscriptions will be received in Pittsburgh by
