**DOLLAR SAVINGS BANK,**  
No. 65 Fourth Street.  
CHARTERED IN 1855.  
ASSETS: - - - \$2,161,730.19.  
Open daily from 9 to 5 o'clock; also on WEDNES-  
DAY and SATURDAY EVENINGS, from May 1st  
to November 1st, from 6 to 8 o'clock, and from Nov-  
ember 1st to May 1st, from 6 to 8 o'clock.  
From this it may be safely estimated that in the  
present state of our commercial fore-  
ign relations, neither an undue depres-  
sion, such as 133 per cent., could be ex-  
pected, nor are there any apprehensions  
that during the next two months we would  
have to report a considerable advance  
above the present quotations.  
Railroad shares were very firm to-day,  
although the dealings are confined to  
small amounts. In the present state of the  
market it would be unsafe to sell any  
shares ahead in the expectation to see  
lower quotations made, the seller runs a  
two-fold risk; a sudden advance by clique  
movement or a loss of his margins by the  
inability of the purchaser to live up to his  
agreement.  
Express stocks were very much de-  
pressed, particularly Merchants Union,  
which was expected to make a dividend in  
July, but it seems the parties in the ring  
gave out this report simply to cause a  
firmer feeling in order to sell out and buy  
in again when everybody is disgusted with  
the miserable management. But aside  
from that, Express companies are in the  
same condition as any other profligate  
merchant at the present dull times who  
is not managing his affairs according to his  
income.  
Mining shares are firm and in steady in-  
vestment demand.  
Money is tightening up preparatory to  
July payments, and 12 to 15 per cent. is  
readily submitted to by well endorsed pa-  
pers that has hitherto not been promptly  
taken up at maturity. Business inactive.  
Closing quotations as received by Ph. R.  
Mertz, were as follows:

**FINANCE AND TRADE.**  
OFFICE OF THE PITTSBURGH GAZETTE,  
SATURDAY, JUNE 27, 1883.  
Government bonds were very dull, and  
quotations were barely sustained. As an  
investment, these securities are entirely  
too high, when compared with the high in-  
terest paid for the use of money either on  
business paper, municipal and other se-  
curities or on bond or mortgages. What  
kept up the national securities was the  
supposition, that, immediately after the  
July disbursements, money would become  
still cheaper at the seaboard cities, but  
which is not likely to be the case now.  
Money that was flowing eastward to find  
temporary employment either in specula-  
tive ventures or for drawing a small interest  
for the time being is now being withdrawn  
for the moving of the crops, and bank cir-  
culation being scarce in the western States  
and little business paper making in the  
east, it will require a much larger bulk of  
currency to pay for the produce of the  
South and West, and at an earlier date  
than formerly, States not only producing  
cotton and sugar, they also come in for a  
share of the wheat, and other cereals to be  
shipped. These causes combined and the  
currency question agitated again, may send  
down government securities after the first  
of next month instead of advancing them.  
Quotations in Europe for Five Twenties are  
lower there than here, and the absorption  
by actual investors there being naturally  
slow, prices have to come down at home  
before a market can be made in Europe.  
The argument, that American securities  
does not hold good when you can buy the  
Austrian and Italian State bonds so much  
below par that they yield an interest  
equal to ours, considering all the contin-  
gencies foreign bondholders are sub-  
ject to.  
Gold keeps steady at 140 1/2 to 140 1/4, with  
a downward tendency. The market for  
the present is kept firm and above 140,  
mainly on account of the scarcity of coin,  
but with the disbursements next week the  
market is likely to yield from one to two  
per cent., although higher quotations are  
hinted at by speculators. The general es-  
timate of coin due foreign capitalists on  
July first seems to be over-estimated, ac-  
cording to the best authority, it cannot ex-  
ceed much the sum of fourteen million dol-  
lars in gold, which would leave a balance  
to come on the market of about twenty-  
three millions of which belongs to banks  
about fifteen millions, leaving yet ten mil-  
lion dollars to supply the general market.  
From this it may be safely estimated that  
in the present state of our commercial fore-  
ign relations, neither an undue depres-  
sion, such as 133 per cent., could be ex-  
pected, nor are there any apprehensions  
that during the next two months we would  
have to report a considerable advance  
above the present quotations.  
Railroad shares were very firm to-day,  
although the dealings are confined to  
small amounts. In the present state of the  
market it would be unsafe to sell any  
shares ahead in the expectation to see  
lower quotations made, the seller runs a  
two-fold risk; a sudden advance by clique  
movement or a loss of his margins by the  
inability of the purchaser to live up to his  
agreement.  
Express stocks were very much de-  
pressed, particularly Merchants Union,  
which was expected to make a dividend in  
July, but it seems the parties in the ring  
gave out this report simply to cause a  
firmer feeling in order to sell out and buy  
in again when everybody is disgusted with  
the miserable management. But aside  
from that, Express companies are in the  
same condition as any other profligate  
merchant at the present dull times who  
is not managing his affairs according to his  
income.  
Mining shares are firm and in steady in-  
vestment demand.  
Money is tightening up preparatory to  
July payments, and 12 to 15 per cent. is  
readily submitted to by well
