FINANCE AND TRADE

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, July 11, 1868. Gold was strong to-day at 140% to 1411/4; losing at 140%. The demand for coin for the purpose of shipment to Europe is inreasing, and although the Sub-Treasury daily paying out considerable amounts of coin for interest, the market is barely upplied. Considerable purchases are made for hoarding, and the same class of men that talked up gold last November are trying to run up the premium now. Government bonds were less firm to-

day, with only a moderate investment demand, and no disposition is manifested to buy and hold for higher prices, especially is this the case with the Five Twenties of the July issue. Ten Forties remain firm at 107%; also, 1862s and 1865s, old issue. Eighty-one bonds are much neglected; according to the Pendleton doctrine these bonds are no better than 1865 Consols or 1864s. The recommendation of the Democratic Convention of paying the Government bonds in currency finds an interpretation which differs widely from the commonly conceived idea of the masses, that is, manufacturing greenbacks to redeem ment of bonds then in currency would track nents. The present enormous imports and necessary shipments of bullion to pay for, shows a poor prospect of raising the Governments credit to such an extent that kettled rendered. practically be a resumption of specie paythey would command par in gold. With should decline, and thus greenbacks would gradually approach the standard par of

Stocks are dull and inactive. Border State bonds are a little better, but no material advance has been established. Exress shares are neglected. Money is better, business remains very

PITTSBURGH PETROLEUM MARKET. OFFICE OF THE PITTSBUGH GAZETTE, SATURDAY, July 11, 1868. CRUDE\_The Crude market was again dull and weak to-day, but a single sale reported, 2,000/ bbls-500 each from, August o December, seller's option, at 14%c. Spot oil was offered freely at 14c without finding ouyers, and future deliveries were offered at 141/c; the former shows a decline of fully a cent, and, even at the reduction, the demand seemed to be very much restricted, and the market was devoid of that ife and animation which prevailed during he week up until Friday. It is not a little remarkable that while Antwerp has advanced to a figure not before attained this year, our own, as well as the eastern markets, have been dull and weak for two days past, and to-day there were no indications of an improvement. It should be borne in mind, however, that the market borne in mind, however, that the market is usually very sensitive at this particular season of the year, and subject to spasmodic movements every few days; one day it may seem to be the very picture of desit may seem to be the very picture of despair, while within the next forty-elight hours it is just as likely to be very much hours it is just as likely to be very much excited, and 3 to 5c per gallon higher. The main cause for the present reaction lies in the fact that the production, it is believed, is steadily increasing, the latest and most reliable advices we have place the daily yield between eleven and twelve thousand barrels, which is an increase of about two thousand barrels within the last three months. As an offset to this, however, it is stated that the demand for consumption is, and will be considerably larger this year than last, new markets having been opened up; it is also alleged that about ten thousand barrels per day are being exported to foreign countries.

REFINED—The demand for bonded oil vanced to a figure not before attained this

was also very quiet to-day, though, com-pared with yesterday, prices have under-choice smooth.

gone no quotable change. Compared with Wednesday and Thursday, however, there has been a decline of from one to one and a has been a decline of from one to the and a half cents; and, as we have already stated, the market is quiet, even at the reduction. Sale of 2,500 bbls, 500 each, August to December, at 34c; 1,000 first half August at 34c; 1,500 list to 15th August at 34/2c, and 500 15th to 30th, at 35c. All the year, buy, are rection is propried at 35 to 354c—the er's option, is nominal at 35 to 35%; the last sale reported was at 36c, but it was made before the decline. PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, July, 11, 1868. The general markets have been dull, and quiet during the past week, and devoid of mything new or very important. Flour is firmer, but it will only be temporary; we look for a further decline notwithstanding it has advanced slightly in the West. Provisions firmer more active and a shade higher. Grain is quiet and unchanged. Groceries continue dull and neglected, though as the fruit season is near at hand, there will be an active demand for sugars. Butter, Eggs and produce generally dull

and unchanged. the bonds with; but, financiers, like Belmont and his Wall street friends, wish to improve the currency by the economical administration of the governments finances, by taxing sufficient to leave a surplus to redeem bonds with; and thus raise the Governments credit, and advance the bonds to such a greenback premium that they would command about par in gold. Payment of bonds then in currency would GRAIN-Wheat is quiet, and but little PROVISIONS - Bacon is firm and
