When finished it will be one of the finest church edifices in Western Pennsylvania. Bishop Simpson is expected to take part in the dedicatory services, which will take place in a few weeks.

Personal.—The many friends of Mr. E. T. Cook, Superintendent of the Young Men's Christian Association, will be pained to learn that he has been lying at his resi-dence, on Liberty street, for the past week, seriously ill from an attack of fever. He was somewhat improved yesterday, but his physician does not yet consider him out of

Inquest.—Coroner Clawson held an inquest on Saturday on the body of Theophilus Herman, the boy who was drowned on Thursday afternoon in the Allegheny river. Several witnesses were examined, but no additional facts were elicited fur-ther than what we have before published. A verdict of accidental drowning was ren-dered.

On a Tour.—Wm. Semple, Esq., the well known dry goods merchant of Allegheny, sailed for Europe on Saturday in the steamship City of Baltimore, of the Inman line. He expects to be away about a month. We wish him a speedy and prosperous voyage over, a pleasant and enjoyable time while there, and a safe return, with renewed health and vigor.

A Pugnacious James.—James Mehan, of No. 3 Milligan's Row, in the Fifth ward, must have been in a bad humor, or spoiling for a fight the other day, if he acted as Mary Flynn, a neighbor, alleges he did. She states that he came into her house on Saturday, and after insulting her endeayored to pick a quarrel with her husband, by bantering him to come out to fight and making diversother hostile demonstrations. making divers other hostile demonstrations. The Republican Conferees of the Twentyfourth Congressional district will also
convene for a similar purpose this afternoon at three o'clock in the Monongahela House. They were in conference several days last week, and balloted nearly two hundred times without nominating. Per-haps they will have better luck to-day.

Sad Case of Drowning. Yesterday evening about half-past five o'clock a sad case of drowning occurred, the victim being a little boy, nive years of age, named Peter Baker, son of Jacob Baker, of Birmingham. It appears that the little fellow went to the well connected with his father's house, on Jane street, between John and Joseph to get a drink. While there by some accident he fell in and was immediately drowned. The body was recovered soon afterwards and the head found to be very much bruised, caused, no doubt, by striking against the sides of the well in the descent. On Saturday night, about eleven o'clock William Luke, in the employ of the Monongahela Navigation Company, met with a severe accident, which may perhaps result fatally. It seems that he was walk. ing along the track of the Connellsville Railroad, slighly intoxicated, when a passenger train came along, and he, not hear-ing or heeding the alarm, was knocked down and had his right arm run over by the cars, mangling and mutilating it in a terrible manner. Drs. Sutton and M'Cook yesterday amputated the arm at the shoulder, and the injured man was then conveyed to Passavant's Hospital, where he is doing as well as could be expected. He is about thirty years of age, unmarried and boarded at Port Perry, Pa.

Supposed Larceny of Silver Ware. On Saturday a man came to the fruit stand of Mr. Pulpress, in the Allegheny market, and sold to the son of the proprietor a silver napkin ring for twenty-five cents. The young man suspecting that all was not right, informed the police of the transaction and gave a discription of the man. Yes terday afternoon about 2 o'clock one of the police arrested the man in the First ward, Allegheny. When broughf to the office and searched, a quantity of goods was found about him, all of which no doubt have been stolen. The goods consisted of a linea table cloth, three new unhemmed linea handkerohiefs, half dozen silver teaspoons, half dozen tablespoons, five silver teaspoons, half dozen tablespoons, five silver forks, a call bell, and a small nail brush. The spoons were stamped with the initials "H. R.," and the napkin ring was marked "E. M. B.—from Brother." The owner of the articles can have them by calling at the Mayor's office. The prisoner gave his name. Mayor's office. The prisoner gave his name as Patrick McCloskey, and gave several accounts in regard to the goods, none of which are very plausible. He was locked up and will have a hearing this morning.

It seems that the man had been working in the hay field all day, and about 5 o'clock in the evening he left and went to the house to get a drink. After drinking he complained that he felt unwell and laid down in the barn to rest. He had lain there but a very whort time what down in the barn to rest. THE HISTORY OF A MOUTHFUL OF BREAD By Jean Mace, author of "Home Fairy Tales," etc. Translated by Mrs. Alfred Gafty. Published by Harper & Brothers, New York. For sale by Henry Miner, Pittsburgh

We hail the advent of a new era in comnunicating knowledge to the young people, in the beautiful style of such works as Mace's creations. By this mode children are educated more rapidly and obtain a more intelligent knowledge of different studies, than by the old way. Dry and even difficult studies are rendered pleasant and are also more easily mastered. Mace's name is a tower of strength, and is sufficient to command success. This book is of a higher order of this class of works, in which w she had taken poison some time ago at in a charming style of language, the organi zation of Men and Animals. It is divided in two parts-first- part, Man, and second. Animals. It reads like romance, and young folks cannot fail to be charmed as well as instructed. The translation is excellently

This volume is of the same character of "The History of a Mouthful of Bread." The distinguished author in the latter has shown the wonderful movements of certain functions of the human system, but this work discusses a less mysterious subject, the walking machine. Here we have portrayed in the writer's enchanting style, the relations of the arms, muscles, brain, etc. We look for a large sale of both these publications, as valuable instruction.

DEMOCRACY IN THE UNITED STATES. What it has done, what is doing, and what it will do. By Ransom H. Gillet, formerly Registrar and Solicitor of the United States Treasury Department, etc. Published by D. Appleton, & Co., New York. For sale by Heury Miner, Pittsburgh.

The publication of this work at this time. especially as the National Democratic Convention is balloting for President and Vice-President at the time this notice is written, s significant. By Democracy, of course, Mr. Gillet means the principles of the Democratic party, and his book is a defence of that party and an outline of its history. The fact that Mr. Gillet was for a long time a prominent and active politician, he has had ample opportunities to fit himself for the duty of writing such a book. Democrats will find this a valuable work for reference, and others can see the principles of that party well set forth. THE MODERN REPRESENTATIONS OF THE

Philadelphia. For sale by W. A. Gildenfenny, Pittsburgh.

This is a story of Italian life and manners. It has the merit of giving lively and accurate sketches of the manners, habits and morals of life in Sunny Italy, and of photographing certain portions of society in Florence, about half a century ago, with remarkable fidelity. The heroine, Marietta, is presented in glowing terms. The volume will most likely be more popular than any previous work of the author.
