The meeting was called to order by Jo-seph A. Butler, Chairman, Gen. A. L. Pear-son acting Secretary.

The Chairman stated the object of the The Chairman stated the object of the meeting and requested the Committee to suggest a time for holding the primary meetings and City Convention.

Maj. A. M. Brown moved that the primary meetings for the election of delegates be held Saturday, August 15th, and the Convention on the following Tuesday.

Mr. Robert Elliott moved, as an amend-ment, that the people vote direct for the candidates instead of electing delegates. Considerable discussion ensued relative to the best mode of making nominations, after which Maj. A. M. Brown moved, as a substitute for his former motion, and the amendment of Mr. Elliott, that the primary elections be held on the 15th of Angust, leaving the manner of making nominations o be settled at a tuture meeting. The mo tion was not seconded.

The question then recurred on the motion of Mr. Elliott to amend, which was adopted by a unanimous vote. The motion of Maj. A. M. Brown was then

dopted as amended. Major A. M. Brown moved that the time for holding the elections be between the hours of three and seven o'clock on the lay specified. Adopted.

Mr. J. G. McConnell moved that the Republican members of the several election boards be requested to attend and assist in conducting the Republican primary tions in their respective wards. Adopted. Mr. W. B. Cook moved that in all districts where there was a stated place of holding elections, the primary elections be held at such places of holding elections, and that in districts where there are no fixed places of holding elections the mem bers of the City Committee representing such districts be requested to fix a place and report the same to the chairman of the Committee. The motion was adopted. On motion of Major A. M. Brown, the place of holding the primary election in the Eighth ward was changed from Lofink's,

the present place of holding elections, to the house of Mr. Wilson. Mr. Thompson moved that all persons appointed to conduct the primary elections be required to take an outh to conduct the required to take an outh to conduct the same fair and honorably, and to receive none but Republican votes, before entering upon their duties at said elections. Useful.

The American Button Hole Overseami and Sewing Machine executes all kinds of also makes beautiful button and evelet holes. It will suit the shirt maker, dressmaker, tailor, or shoemaker. It is also the cheapest, intrinsically, as well as the best, since it is really two machines combined in one, (by a simple and beautiful mechanical arrangement never before accomplished by human ingenuity,) making either the Lock Stich or Button Hole Stitch, as occasion may require. It is, at the same time, simple in construction, comparatively noiseless, easily understood, and in a word, it combines with these advantages exclusively its own the most destrable qualities of all

others. There are many distinct points of great interest in this machine that might with propriety be especially referred to. The feed is adjustable to suit the weight or thickless of the cloth by raising or lowering, thus preventing any injury to delicate fabrics, hence it will work with equal facility on light or heavy material. The tenisons admit of such nice adjustment and with such ease and certainty, that one of the great difficulties met with in ordinary machines is antirely profided. Theirs the chines is entirely avoided. Taking the thread from a short, deep bobbin secures uniformity in the tenisons. The shuttle riding in its carrier is subjected to no wear, and requires no oiling, by which the thread would otherwise be soiled; and the wear and friction of a "race" is avoided.

The splendid mechanism of this machine, and the superior skill; workmanship and material employed in its construction, are a guarantee of accuracy, strength and durability, and enable the Company and its agents to warrant every machine they sell to give entire satisfaction.

Give Chas. C. Balsley, the agent a call at the salesroom, second floor over H. Richardson & Co.,'s jewelry store, and satisfy yourself that the American is the best

amily machine in the world. Barker's Clearance Sale.
