Man's Inhumanity, &c.

Sunday afternoon an insane man, a foreigner, and stranger in the city, was found McGonnigle, Secretary of the Board of Poor in the city, or that he came from the country, raftised to grant him admission to the City Home, on the grounds that the case City Home, on the grounds that the case belonged properly to the county and that application should be made to Mr. Davis. Mr. Davis was next called upon and we learn called once or twice to see the unfortunate man, but as yet nothing has been done in the case, and the poor unfortunate creature still remains in the lock-up. The Mayor has given him all the attention in his power, furnishing him his meals from a restaurant regularly, and procuring medhis power, furnishing him his meals from a restaurant regularly, and procuring medical attendance. The man is not only insane, but is severely ill, and if not removed to more comfortable quarters, where le will receive proper attention, will in all probability die.

There is something wrong and somebody at fault in this matter, who it is warded.

Some months since we published a state-

some months since we published a state-ment of a man who was injured in South Pittsburgh, which reflected on some of our officials, but the next day, finding that we had done the parties injustice, we readily made a correction, which proved satisfac-tory to all interested. Mr. McGonnigle, whose name was not mentioned in the arti-cle referred to, nor was in any way con-nected with the affair, took occasion to abuse reporters and newspapers in general and at that time said an arrangement existed between Mr. Fortune, of the Pittsburgh City Home, Mr. Davis, of the County Home, and himself, by which all such cases as the one in question were provided for. He stated that when application was made to either one the proper action was taken by him and sanctioned by the others. If such him and sanctioned by the others. If such an arrangement existed then and is still in existence, could not Mr. McGonnigle have provided for the poor unfortunate creature whom he knew to be lying in a prison cell under his office, and would not Mr. Davis have sanctioned his action? or, was it necessary to allow him to remain there for three or four days until it could be three or four days until it could be ascertained who he was, what he was, and where he came from? From constant association with misery and suffering men sometimes become hard-ened, and the requent impositions to which they are subjected, makes them suspicious, the consequence of which is, that in their the consequence of which is, that in their efforts to protect themselves against imposters, the innocent and deserving are frequently made to suffer. It will not do for a director of the poor to act upon the principle "that every man is an imposter until the contrary is established." The county and citizens are much more able to stand

the contrary is established." The county and citizens are much more able to stand an imposition of this kind, which could be but for a day or two at most, than an insane, sick man is to bear the hardships of prison life for a week, in order that the servants of the public may have time to ascertain and arrange between themselves, to which the case properly belongs.

"Man's inhumanity to man, Makes countless thousands mound." If we have made any misstatement or perversion of facts in the foregoing, it is from no desire to misrepresent the case, or rom no desire to misrepresent the case, or reflect upon the parties who are responsible for the neglect of the man, but because we have been missinformed, and we will readily make any correction the facts of the case will warrant.

Coup de Soliel. Cases of conp de solici have been more numerous within the past week than ever before in this locality. The Greensburg Herold contains the following accounts of three cases which occurred in that neigh-

borhood last week: Friday last Thomas Williams, shoema-ker, of Latrobe, formerly of this place, was sunstruck.
On Wednesday last, George Ferry, residing near Latrobe, whilst working in the field, was sunstruck. At last accounts he

We published an item in the GAZETTE of yesterday relative to a difficulty between Rev. Nelson H. Williams and Moses Parker, colored men, stating that Parker alleged the Rev. gentleman was to intimate with his wife. It is due to Mr. Williams to state that the matter was investigated by the trustees of the church of which he is the trustees of the ennrch of which he is pastor, and that he proved the charge to be without foundation. It appears that Parker is an intemperate man, and it is only when under the influence of liquor that he makes such charges, and always retracts them when soher. The difficulty has been satisfactorily arranged, and Parker, who was committed for court, has been discharged.

Another Sadden Death. Yesterday evening about seven o'clock, Mr. Lawrence Towers, came to his death that Sarver came to his office, representing very suddenly at his residence on Morton that he was an honorably discharged solstreet, Twelfth ward. It seems he came home in the evening and feeling thirsty drank a quantity of water, after which he laid down on a lounge to rest. He had lain there but a very short time when he began to feel sick. He grew worse rapidly and a to rest sick. He knew worst rapidly and a physician was sent for but before he resched the house the unfortunate man had expired, just about an hour after getting home. The physician thinks his death was the effect of the intense heat.

Stelen Goods Recovered.

Monday, 6th inst., the house of Mrs. Arbuckle, situated above Wheeling, near the running at large in Allegheny, and was Ohio river, in West Virginia, was burglarivery properly taken in custody by one of ously entered and aquantity of silver ware, the Mayor's police and confined in the look- valued at about three hundred dollars, carup. He was allowed to remain there until ried away. It appears that there was no Monday morning when his Honor Mayor one about the house at the time the bur-Drum applied to the proper authorities of glary was committed, consequently there both county and city to have him removed was no clue to the perpetrators and nothto either the City or County Home. Mr. ing could be ascertained relative to the affair, except that two men were seen coming Directors for the city, we are informed, was down the river, Monday evening, in first applied to by the Mayor, but on skiff, who pulled to the shore in front of the learning that the man was a stranger in the city, or that he came from the country, refused to grant him admission to the cry, refused to grant him admission to the country, refused to grant him admission to the country him admis owner of the property had given up all hopes, we presume, of ever recovering her property, and is perhaps yet ignorant of the fact that at least a large portion of it has been recovered. Yesterday afternoon Mayor Blackmore received a despatch from Mayor Brice of Hancock, Ohio, which read as follows: "Have you any knowledge of a constitution stiller ware being taken from quantity of silver ware being taken from your city marked 'Arbuckle's.' Answer

The Mayor took the dispatch to Mr. Arbuckle, on Liberty street, who is a son of the lady referred to above, and was informed that a robbery had been committed, and silverware to the value of \$300 control of the participant of the relative respective. ted, and silverware to the value of \$300 carried away. He then telegraphed to Mayor Brice requesting him to hold the goods and thuef, if caught, until further notice, and at two o'clock last night officer Gumbert, accompanied by Mr. Arbuckle, left the city for Newark.

We do not know what portion of the goods have been recovered or whether the

goods have been recovered or whether the thief or thieves have been captured, as the dispatch stated nothing further than what we publish. The probabilities are that the thief has been captured, however.

The Allegheny Light Guard. We published in our issue of yesterday, report of a meeting held at Wilkin's Hall, on the evening previous, which purported to be a meeting of the "Allegheny Light Guard." It appears however, that such was not the case. The meeting was called we are informed by a few dissatisfied members of the old company without any authority for so doing, consequently their action, disbanding the "Allegheny Light rium has been re-frescoed, the old pulpit Guard," amounted to nothing. It will be seen by the following communication that the company is still in existence and is likely to remain so; the action of the the company is still in existence and is likely to remain so; the action of the seceeders to the contrary notwithstanding, and if they are not satisfied with it the only remedy left them is to resign, their membership and join some other company if they desire to. The "Light Guard" be-ing still an organization of course can claim all company property:

ALLEGHENY, July 15, 1868. MESSES. EDITORS:—Having seen a notice in the columns of your paper stating that the Allegheny Light Guard military company had been disbanded through the proceedings of a meeting held at Wilkins Hall on Monday evening, and knowing that all on Monday evening, and knowing that said on Monday evening, and knowing that said meeting was composed only of a quorum of members, including the former Second Lieutenant, and presided over by the Color Sergeant of the above named company, I do hereby, in justice to myself and all members in good standing, declare the original services and the contract of t

Church Renovation. During the past three weeks workmen lave been busily engaged in renovating the First Baptist Church, Allegheny, Rev. Dr. Bell pastor, lecated on the corner of Sandusky street and Strawberry alley, and as a result of their labors the Church now presents quite a clean, cheerful and comfort. able appearance. In the inside the auditoreplaced by a new one several feet larger, the grained work of the seats freshened with a new coat of varnish, and the saisles and pulpit platform covered with very fine Brussels carpeting. In the lecture room the seats have all been re-grained, the walls and coilings re-painted, and the aisles as well as the vestibule and stairs leading to the main audience chamber, made to look very neat with a new covering of the best English matting. Externally the painter with his brush and a liberal supply of coloring material has succeeded in considerably changing the oks of affairs and adding very materially to the appearance of the structure.

The renovation has certainly improved

he church very much, and the congregation deserve great credit for their efforts to make it compare favorably with the houses of worship among other denominations in the city.

Base Ball-The Game To-Day. The Detroit Base Ball Club arrived in the city last evening, and are being entertained at the Monongahela House, as the guests of the Allegheny Club, who are doing all in their power to make the visit a pleasant one. They seem to be in excellent condition, and will no doubt give a good account of themselves in the contest day. It will be remembered that the

The parties being so evenly matched and each feeling confident of success, if they make anything like the play, that is anticipated, it cannot fall to be one of the closest and most animated games ever played in this vicinity.

Our Quiet Sister. Allegheny was very quiet yesterday in

the police line, and the officers of the law seemed to have nothing to do but lay back on their cars. The monotony of the morning was somewhat relieved by the commitment of a couple of females, Beckie Hosick and Ellen Keenan, for vagrancy the bread he eats and the clothing he wears. Such men should be bankhed from the community. They are fit subjects for a work house, or chain cang.

They were engaged in digging a well, near what is called the flake-stand, which contains a worm of cop-per pipe about five hundred feet in length and weighing about two thousand pounds.

The well had been sunk to a depth of the well had been sunk of depresent inteen or twenty feet, and the workmen had just left it when the side next the lakestand caved in letting the whole affair fall over the well. POLITICAL ITEMS.

Gov. SEYMOUR'S chances are beginning to be understood. He will get all but the Republican party and the floating vote. SEYMOUR'S physician advises him to visit Europe during the Presidential canvass, but ne positively refuses to absent himself unless imperatively called away by ill-health. A SOUTHERN Republican paper shrewd

ly placed its hopes of success in "an abiding faith in the stupidity of the Democratic party." It must have had a premonition of the nomination of Seymour and Blair. THE Boston Transcript propounds the following mathematical question in politics:
"If it requires a Chief Justice to renounce most of his political principles in order to obtain four votes in a National Democratic Convention, what amount of apostacy and degradation would be requisite to secure a

THE Sandusky Register (Rep.) thinks "It was particularly cruel in the Democratic Convention to force the Presidential nomination on to a gentleman who has a taint of hereditory insanity, and then to couple him with one of the Blairs, whose society through the campaign would develope lunary in the

WE should like to see a soldier who served under Blair who will support him from choice. If there was an officer in the army who was hated by those under him. it was he. His tender mercies were cruel to those who were so unfortunate as to be placed under his command, and there will be a cloud of witnesses rise up against him. STRANGE rumors come to us of the doings of the Democratic delegates at New York outside of the Convention, of midnight meetings, at which no reporters were present, when the caution that tied the tongues of the Democratic delegates in public, was laid aside, and the "Lost Cause" was

toasted, the rebel Generals lauded, and the war denounced as barbarous and inhuman. LIEUT. Gov. DUNK, of Louisians, on being inducted into office, said, speaking of his people: "We simply ask to be allowed an equal chance in the race of life; an equal

A ST. Louis special dispatch to the Chicago Times (Democratic) says that on Thursday General Sherman declared against Seymour and for Grant. He was immediately surrounded by a mob of Democrats and rebel soldiery in the street, who denounced him as a houseburner, and declared that he was only in favor of Grant because he hoped to get his place in the army. It is said that a gentleman in the Fifth Avenue Hotel bet a thousand dollars that the name of the Chief Justice would not be mentioned in the Convention; and that on the next day (yestarday) accordingly, of course, he lost his wager. The "half" vote was a compliment to the fractional currency created by Mr. Chase.
