Terrible State of Affairs in Louisiana-Gov. Warmouth Makes Requisition for Troops—Treas. ury Department Regulations Concerning Brawback Allowance-The Resignation of Mr. Rollins, of the Revenue Department

[By Telegraph to the Pittsburgh Gazette.] WASHINGTON, August 6, 1868.

LOUISIANA AFFAIRS-APPEAL FOR TROOPS. Gov. Warmoth's official requisition on the President for forces, with which to secure peace in Louisiana, was presented yesterday by Lieut. Col. John F. Deane, of his staff. Gov. Warmoth encloses several letters from ditizens and officers, setting forth the horrible outrages that are daily being perpetrated in portions of the State. He save that in many Parishes there exists no protection for the citizens in the courts, men are shot down on the roads and at their homes without any steps being taken to bring the offenders to justice. The Judge of the Twelfth Judicial district refuses to go to the Parish of Franklin without a force is sent to protect him. The Sheriff of State Parish, a Democrat, has resigned, confessing his inability to make arrests. Prominent Union men in the Parish of Caddo write that their homes are beset by desperadoes, and their lives have thus far been saved only by armed men, who voluntered to guard them. Mr. Hudspeth, District Attorney for the Eighth District, whose letter is enclosed, says men and women and children have recentive hear murdered in the Parish of St. Land ly been murdered in the Parish of St. Landry, by bands of armed men, who remained unmolested. The Governor has no doubt but that a hundred and fifty men have been murdered in Louisana in the last month and a half, and that there seems to be a settled determination by the rebels either to kill or drive away Union white men and leading colored men, so as to be able to terrify the masses of the colored people into voting as they shall dic-

A secret organization, founded for the purpose of keeping colored men in a condition of inferiority, pervades the State. it designs to precipitate a conflict between There are military branches of this secret organization on foot in the city of New Orleans. They drill openly in the streets at night, and it is easily to be seen that the mob that threatened the Legislature some weeks since were only pre-yented from re-enacting the scenes of 1866, by the presence of United States troops. It was the deliberate intention of this organization to assassinate the Lleutenant Governor and Speaker of the House of Repre-sentatives for having decided questions in a manner obnoxious to them. In conclu-Mion, the Governor says he sincerely be-lieves that a bloody revolution is meditated and he asks two regiments of cavalry, a regiment of infantry and a battery of artil-lery, to enable him to repress violence, arrest criminals, and protect the officers of the law. He believes a few examples of condign punishment would secure peace in the state as soon as the political campaign

DRAWBACK REGULATIONS. Regulations for the allowance of drawback on alcohol or rum, under the provisions of the act imposing a tax on distilled spirits and tobacco, approved July 20, were issued from the Treasury Department this morning. The foregoing regulations will be in force and take effect immediately. MR. ROLLINS' RESIGNATION. There has been considerable excitement o-day in various circles relative to the acceptance by the President of the resignation of Mr. Rollins, of the Internal Revenue Department, and much anxiety has prevailed with regard to the rumored appointment of a new Commissioner. It was reported this afternoon that Mr. Johnson had designated a Commissioner ad interim had designated a Commissioner ad interim, but upon inquiry it is ascertained that so far there has been no appointment, and in all probability will not be for two or three days, if so soon. The belief is expressed that the Attorney General will not give his opinion as to whether under the law the office is now vacant, and that until such opinion is stated there will be no further action by the President Mr. Rolling ther action by the President. Mr. Rollins is still absent from Washington and Deputv Commissioner Harlan is in charge office. Different impressions prevail whether Mr. Rollins will retire in case the

member of Governor Warmoth's staff, was pleasant and conciliatory, the President during the interview showing no disposition to question the legitimacy of the Government of Louisians, which furnished credentials to Col. Literary Afficies at Perryopolis—An Interesting Occasion.

The beautiful and picturesque village erryopolis, nestling among the majestihills and sublime scenery of Fayette countv. about forty-five miles above Pittsburgh, on the Connellsville railroad, was startled out of its usual quiet and for a season made to quiver with excitement by a literary and musical entertainment, which took place there a few evenings since. The affair was under the immediate supervision of Messrs. Henry and Baugh, and was held for the benefit of the Sunday School connected with the Church in which it took place. For weeks preparations for the event-had been going on, and when the time arrived, it was made the occasion for a grand outpouring of the inhabitants, old and young, so that eight o'clock, the hour appointed for the commencement of the exercises, found the building crowded almost to suffocation with the beauty, fashion and intelligence of the vicinity, all clothed somewhat after the style of the man in ancient time, who fared sumptuously every day. The programme, occupying over two hours in its rehearsal, was of a varied and interesting character, consisting of vocal and instrumental musical selec tions, declamations, dialogues, readings and tableaux, all of which were rendered and tableaux, all of which were rendered in a manner that reflected great credit on the training of the performers, and if applause is any criterion, were highly appreciated by the audience. Among so many performers of a first-class order it is almost impossible to single out any without doing injustice to the remainder, but we cannot refrain from noticing the vocal and instrumental exercises of the the vocal and instrumental exercises of the Misses Townsend and Martin, which were especially well done, the audience mani-

festing their appreciation of them in rounds of applause. In the dramatic line, by common consent the meed of praise was awarded to Mr. Lee S. Smith, a well-known Bittoburgh work of the smith of the s Pittsburgh amateur, who was sojourning in the vicinity, and had kindly consented to assist in the entertainment. In the "Regular Fix" Mr. Smith made a great hit. representing in life-like reality the character which he assumed, the audience not failing to acknowledge, in an emphatic manner, their opinion of the performance. At intervals a brass band discoursed sweet melody, which formed quite an addi feature in the exercises, and served in an agreeable manner to relieve the tedium of waiting between the performances. Time and space, however, would both fail in mentioning in detail all the attractions of the occasion. Suffice it to say, that when the curtain gracefully fell on the closing tableaux, in which the entire company of performers joined, and the echo of the last round of applause had died away, all fel that the affair had fully equaled the high est expectations of the most sanguine, and as they slowly dispersed homeward spec tators and performers congratulated them selves on having participated in an occasion which would hereafter mark an epoch in Perryopolis village life.

It will be seen that, in the main, wages in Philadelphia are lower than here. But it is a fact that mechanics live far more omfortably in Philadelphia than in New York. Philadelphia has hundreds of acres of ground covered with small neat houses, which are rented at low rates, and inhabited by the same class of people who are here compelled to live in tenement houses. Philadelphia has well built and well conducted markets; New York has only a parcel of filthy sheds. There are other advantages which make life in Philadelphia to work. ingmen and their families far more pleasant than in New York.

Horrible and Fatal Accident in Putnam

County, Indiana. On Tuesday morning last, as we learn from the Greencastle (Ind.) Banner, a terrible accident took place at Dexter's saw mill, four miles west of Greencastle. Mr. Dexter and his assistant, Franklin Peters, had placed a large log on the carriage, and were cutting it down with axes so that it would pass under the upper saw, which was running at about one half the usual speed, and in his hurry he lost his footing and fell with his back against it. The saw entered between the shoulders, cutting the spinal column in two, and then passed down the entire length of the body, cutting off the ribs and flesh. Death was instantaneous, and the body fell forward on the face, spreading apart about four or five nches on the back, so that the lungs, liver, neart and other internal organs could be distinctly seen.

Singular and Fatal Casualty—The R. C. Bishop Spalding, of Kentucky, Burned. A Louisville dispatch of the 4th says: About twelve o'clock last night the mosuito bar over the bed in which Bishop B. J. Spalding, of the Catholic Church, was sleeping, accidentally caught fire. In trying to extinguish the flames his clothes ignited, and before assistance could reach him he was very seriously burned, from the which he died this evening. effect of Bishop Spalding has for a number of years been connected with the Catholic Church in this city, and his sudden death has cast a gloom over the whole city.

A WATCHMAKER of Paris possesses a wonerful watch valued at \$4,000. During the late International exhibition the idea occur-red to him to offer it for sale to the Sultan, who has an inclination for expensive jewelry, but although the royal Secretary admired it, he assured the dealer that his Maesty would not purchase, having already a watch that gave him entire satisfaction, and o prove his assertion fetched it. What was the jeweler's surprise to find that the watch was mounted on a crystal about the size of a silver dollar and a finger thick, having a value of at least \$200,000.

The Treasury regulations for allow-ance of drawback on alcohol and rum were issued on Thursday and go into effect im-mediately. The law is construed to limit the drawback to alcohol of full proof, eighty degrees by hydrometer, and to pure rum, fermented from sugar, molasses, or ther product of sugar cane, with privilege of drawback only when exported in quanities not less than two thousand gallons.
