OFFICE OF THE PITTSBURGH GAZETTE, ¿ THURSDAY, August 6, 1868. Gold has still further advanced, being quoted this evening at 148%, against 148, yesterday, and the tendency still seems to be upward. There are various assigned for this rapid advance, the chief one of which seems to be the increased foreign importations.

The New York Stock quotations as received this afternoon by Mr. Ph. R. Mertz, were as follows: 1881's 116: 5-20's 1863, 114%; do 1864, 110%; do 1865, 112%; do new, 108%; do I867, 1081; 10-46's 10914. Erie, 6314; Fort Wayne, 109; Cleveland & Pittsburgh, 39, Western Union Telegraph, 34%.

-The Philadelphia Ledger in referring othe sharp and somewhat unexpected advance in gold, says;

The prices yesterday, were the highest at which gold has sold in this city since November, 1866, when it was up to 1483. In September of last year it was nearly as high as it is now, and ruled above 140 until December of that year. In January of this year it went to 142, and there has not been a month since in which it has not sold In September of last year it was nearly as high as it is now, and ruled above 140 until December of that year. In January of this year it went to 142, and there has not been a month since in which it has not sold above 140. There is some anxiety to know in precisely what shape the seven million Allaska purchase money will be transmitted. In connection with the prices of gold our ability to export largely of cotton and breadstuffs will have some influence. If hereafter, as heretofire, we pay for our imports by exporting bonds instead of the product of labor, we shall but build up a debt against us, the effect of which will be to carry abroad our gold, and to further depreciate the currency with which the coin is measured.

CENTRAL LIVE-STOCK MARKET.

OFFICE CF THE PITTSBURCH GAZETTE, THURSDAY, August 6, 1868.

The market för cattle has been very much excited, and unsettled this week, in consequence of the arrival of several droves of infected cattle, large numbers of which died while in transit as well as since their arrival at the yards. The result is there has been and is still considerable of a panic, and the end we fear is not. There was quite a large number of eastern buyers in attendance, many of whom after learning how matters stood, picked up their carpet bags and returned home with-part at the yards. The findian of the same at 10,75; 360 from the same at 10,50; 165 from Tilden at 10,50; 165 from the same at 10,75; 84 from Tilden at 10,50; 167 from the same at 10,75; 84 from Tilden at 10,50; 167 from the same at 10,75; 84 from Tilden at 10,50; 167 from the same at 10,75; 84 from Tilden at 10,50; 167 from the same at 10,75; 84 from Tilden at 10,50; 167 from the same at 10,75; 84 from Tilden at 10,50; 167 from the same at 10,75; 84 from Hudson at 10,75; 84 from Tilden at 10,50; 167 from the same at 10,75; 84 from Hudson at 10,75; 85 from Hudson at 10,75; 85 from Hudson at 10,75; 84 from Hudson at 10,75; 85 from Hudson at 10,75; 84 from Hudson at 10,75; 84 from Hudson at 10,75; 85 from Hudson at 10,75; 84 from Hudson at 10,75; 84 from Hudson at 10,75; 85 from Hudson at 10,75; 86 from out buying a single bullock. The indications at the opening were very promising for a heavy week's business, as there was a large supply of Cattle, and as we have alraady stated, plenty of buyers; but when it become known that the cattle disease was in the yards, business soon "played out," and holders were, and are still in a quandry, as to what disposition to make of their cattle. We can report a fair number of transactions in prime fat cattle from Ohio, and eastern Indiana, but there were no buyers, so far as we could learn for startly buyers, so far as we could learn, for stock from Illinois, as it was feared that if not already infected, they might possibly take that terrible disease.

The heaviest buyers, as is nearly always the case at this season of the year, were stock growers from Lancaster Dauphin, and other adjoining counties in the Eastern part of the State, and there were quite a number of these in attendance this week, but, as we have already intiracted they part of the State, and there were quite a number of these in attendance this week, but, as we have already intimated they bought nothing, being fearful of spreading the scourge in that particular section of the country, and as a consequence the yards to day were pretty well filled with this particular grade of stock, and no buyers. These cattle were shipped here with a view of selling to these parties, and as it is probable that the further east they go, the more they will depreciate in value, holders are placed in an ugly position; it is simply absurd to think of shipping east under existing circumstances, and to ship back home again, would be rather expensive.

We desire to have it understood however, that the great proportion of all the prime cattle on sale, in good condition, and not shipped from Chicago, sold without much difficulty at fair prices, though some what below the range of last week. We quote at 7.50 to 7.75 for prime to extra fat steers, and 6.75 to 7.25, for fair to medium. But are bound to loose heavily. and 6,75 to 7,25, for fair to medium. But as we have already remarked, those who were so unfortunate as to have stock cattle are bound to loose heavily.

The authorities at the yards are doing everything in their power to prevent the disease from spreading, and we are glad to state that thus far they have been successful. Not a single case has occurred but all have been killed, and disposed of in such a manner, it is hoped, as will effectually prevent the soourge from spreading. It will take the trade however, some time to recover from the effects of the panic, and we expect to see both arrivals, and ship ments, very much reduced for some weeks, even if there should be no mirrhan trouble from the effects of the panic, and the should be no mirrhan trouble from the effects of the panic, and the should be no mirrhan trouble from the effects of the panic, and the should be not mirrhan trouble from the effects of the panic, and the should be not mirrhan trouble from the effects of the panic, and the should be not mirrhan trouble from the effects of the panic, and the should be not mirrhan trouble from the effects of the panic, and the should be not mirrhan trouble from the effects of the panic, and the should be not mirrhan trouble from the effects of the panic, and the should be not mirrhan trouble from the effects of the panic, and the should be not mirrhan trouble from the effects of the panic and the should be not mirrhan trouble from the effects of the panic and the should be not mirrhan trouble from the from the

PITTSBURGH PETROLEUM MARKET. OFFICE OF THE PITTSBURGH GAZETTE,

THURSDAY, August 6, 1868, The Crude market was somewhat excited to-day in consequence of the improved character of the eastern advices, though, as yet, the advance in prices has been very slight, the sales were larger in the aggregate than for several days, as will be seen by the following: 2,000 bbls for all year, sellers option, at 13c; 1,000 each for August and September at 141/2c; 1,000 bbls on cars at Oil City, at \$5,50; 3,000 do do at \$5,50; and 2,000 do. do, at \$5.60. The first, sellers option all the year, shows an advance of half
