LETTER FROM COLORADO.

Central City and Nevada Railway Commu nications—Beautiful Scenery—Healthy Climate—The Rainy Season—Winter— Mails and Telegraph—Water and Steam Mills—Labor—Investment of Money.

Correspondence of the Pittsburgh Gazette. COLORADO TERRITORY, July 31, 1868. News from this part of the nation may be of interest to some of your readers, and I shall attempt to give you the benefit of my two years' residence out here in the middle of the world. Gold mining is, and has been, the great business here, and, as in all other business, some men make and some lose, and the losers form the majority. In some parts of the Territory, log huts still are fashionable, but if one of your Eastern readers were to come out here, he would be astounded at the solid looking town we have. Brick buildings, such as churches, schools, stores and dwellings are about as much the rule here as at the East. Central City and the support of his State as head of the Em-Nevada, which are in reality the same town, contain about seven thousand inhabitants. six or seven churches and as many minis-ters. In about a year a branch of the Union Pacific Railroad will be built to Golden City, which is only twenty miles from here, and then it will not be long until we have direct railway connection with the East, and then a few more years will only be needed to get the people to know what kind of a place it is, and it will be the greatest summer resort on the Besides cool days and continent. nights, (the thermometer has not reached eighty degrees this summer,) the scenery

is sublime, and there is probably no more interesting trip in the world. I used to enjoy more than anything else, being on the ocean in a storm, contemplating the stupendous rush of mighty waters, and feeling the almighty power of God, and man's insignificance. Here I feel just the same, among these enormous mountains and surrounded by the tremendous stillness of nature. June and July are our rainy season, and during those months we have rain almost every day, then come August and you can imagine, with weather and air such that more living is pleasure of the highest order. In October the snow begins; but we rarely have more than four to six inches, scarcely enough for sleighing. We can now, from here, see the snow, white on the tops of the ranges some fifteen miles away. Then for health, there is no place like it. When I left the East my health was miserable. I had two physicians attending me, one of whom said I would never live to get here and the other said I might as well come as I would be sure to die any way, and now after two years, I am enjoying better health than ever before, and am a

Five years ago, if any one had told me that I should be living in or even ever see the Rocky Mountains, I should have hooted at him, and yet here I am and do not feel at all out of the world, for we have a daily mail by six horse coaches and news by telegraph from all parts of the world, which we read in our two daily papers about as soon as you have it in Pennsylvania. We have both steam and water power stamp, grist and saw mills, and yet some of our castings are from Pittsburgh.

ings are from Pittsburgh.

In conclusion, this is an excellent place for men to come to who have money, for they can easily make more, but to those who have none, I say don't come unless they be laborers. This latter class receive from \$3 to \$5 per day, and servant girls receive from \$10 to \$12 per week and are a scarce article. Money can easily be loaned at 2 to 3 per centmonth, interest payable monthly with good security, but this rate of interest cannot be security of the sugar-box, whence it had found its way into the pudding. Emetics quickly administered relieved the sufferers, but the wedding day of a sovereign Prince hardly ever closed in as dismal a manner as that of the Grand Duke of Mecklenburg.

sustained very long.

Tell your readers to come out here if they

probably first made by the Chaldesns; and the general order as adopted by the ancient people; has existed to the present time. According to the Ptolematic system, there are seven planets which revole around the earth in the following order of distan-

ton a star by a to a sain a sugar a a

F. 55 77 F

And the second s

to the site

ces, beginning at the most remote—Saturn, Jupiter, / Mars. Sun, Venus. Mercury, Moon.
The day being divided into twenty-four hours, and each hour, by turns, being devoted in theory to one or another; in regular order, of the divinities which ruled the planets, the present order of days was necessary, in order to keep up an uninterrupted energysion.

Saturn or Saturday, was the first day of the week, the first hour of which was olso devoted to Saturn, the second hour to Jupiter, the third to Mars, the fourth to Sun, the fifth to Venus, the sixth to Mercury, the seventh to Moon. The eighth was in regular succession devoted to saturn so also the fifteenth and the twenty-second the twenty-third to Jupiter. the twenty-third to Jupiter, the twenty-fourth to Mars, and the first hour of the sec-ord day to Sun, hence the day is called Sunday. By continuing the same order Sun answers to the eighth, fifteeth and twenty-seconds; the twenty-third is Yenus, the twenty-fourth Mercury, and the first kour in the third day is Moon, hence Moon-

day or Monday.

Moon answers to the eighth, fifteenth or

Moon answers to the eighth, interest of the twenty-second hours; the twenty-third to Saturn; the twenty-fourth to Jupiter; the first hour of the fourth day is Mars—Saxon, Tuisco or Tig, hence Tuesday.

The first hour of the first day by the same succession, will te Mercury—Saxon, Wod-eno, hence Wednesday. The order gives the first hour of the sixth day to Jupiter, the Saxon Thor, hence Thursday. Friday, likwise, gives its first hour to Venus—Sax-

on, Frigga.

These results may be conveniently grouped in the following tabular form: Saturn, Juplier, Mars, Bun, Venus, Mercury, Moo

Repeats in same order perpetually.

ONE of those awful tragedies, involving woman, beauty, youth, love, crime, but no ardent spirits, unless high and desperate resolve comes. under that category, has transpired at Baw's Ferry in Mississippi. A young man was engaged to be married, but alas, he was poor. His love finally officers his secupies, and heiforged his sweetheart's father's name for the paltry sum of \$160. The old man relembles ty man belones, so the paltry sum of \$160. The old man relembles ty man belones, so the paltry sum of \$160. The old man relembles ty man belones, so the paltry sum of \$160. The old man relembles ty man belones, so the paltry sum of \$160. The old man relembles ty man belones, so the paltry sum of \$160. The old man relembles ty man belones, so the paltry sum of \$160. The old man relembles ty man belones and perfect by: harmless, reliable the unique of the like good files, and clothed in alpaca, and her modesty, obtained permission to visit the cell where languished her hero. He filed off the durbles, shot one guard, mortally wounded two others, and fied like a deer to New Orleans—distance not mentioned—where, safely concealed, he awaits his inman amorata and a remittance. ONE of those awful tragedies, involving

CLIPPINGS.

THE STRIKE ENDED.—The strike among the miners along the Shenango Valley has ended, and the miners went to work again last week. This strike has made a differ ence of over half a million dollors in the business of this valley, has reduced the earnings of the railways and canal a quarter of a million, and has affected the lake trade and the country immediately interested in the mines more than half a million dollars more.—Greenville Argus.

AT PORTICI, near Naples, so little value is set upon human life that a man recently murdered an acquaintance for the sum of two cents! Criminal returns in this district show for the month of June last nineteen murders, two hundred and thirteen cases of stabbing, three suicides and one hun-dred and eighty minor crimes. If this state of things existed about two thousand years ago, it is no wonder that Vesuvius played such an ugly trick on Pompeii.

The war-pressure has been so great in Brazil that the Emperor and Empress have contributed a quarter of their income to help the public purse, and the other members of the Imperial family one-fifth of theirs. At the same time the Emperor has theirs. At the same time the Emperor has refused to have any exemption from the tax of three per cent. on all earnings over six hundred dollars yearly, and pays that proportion of the revenue allowed him for

THEY have curious ideas of punishment out West. The Quincy (Ill.) Herald, after relating a diabolical attempt by a ruffian to destroy a house and its inmates by setting fire to a room which contained two barrels of gunpowder, adds: "He ought to be sent to the workhouse for at least thirty devel." From the working of the sorting days!" From the wording of the sentence, it would appear that the writer is not sure that even so rigorous a punishment as "thirty days" will be inflicted on the rris-

An association of Cambria and Blair nty business men have leased from E. F. Hodges, of Boston, with the privilege of buying hereafter, the furnace at Cone-maugh Station, Cambria county, which has been out of blast for several years. They have also leased, under, the same condi-tion, 450 acres of ore and coal lands adjoin ares on the Broad Top Railroad in Huntingdon county. The furnace is now in

AT A recent meeting of the committee of the Harvard graduates on the Alumni hall and Harvard memorial, it was stated that up to the present time \$142,000 of the me-morial fund had been received. Five thousand dollars in addition to this have been placed in the hands of the treasurer, and there is due from subscribers about \$46,000 _\$35,000 of which is considered goodmaking in all \$182,000 toward a fund of \$300,000, which it will cost to complete the proposed structure in accordance with the plans adopted by the building committee. The corner stone of the commemoration hall, it is thought, can be laid about the middle of October next.

THE largest rose bush in existence is in the Marine Garden at Toulon, France. It is called the Lady Banks, and covers a wall seventy-feet in width, and eighteen feet in height. The trunk measures, near the root, two feet eight inches. During the month of April it produces fifty thousand white roses. The oldest known rose bush is the one which grows on the wall of the cathedral at Hildesheim, Prussia. It is one thousand years old, and from its trunk, which is one foot in diameter, extends six branches tifteen feet in height of Hildesheim, in the Middle Ages, had it covered with a roof to protect it from the in-clemency of the weather.

On the recent wedding day of the grand Duke of Mecklenburg the rejoicings of the party assembled at the dinner table were suddenly brought to a very disagreeable Frand Duke of Mecklenburg.

Tell your readers to come out here if they want to have a good summer excursion, but when they come, to leave all business behind, spend a month out here, and they will feel much better for it when they go back.

Origin of the Names for the Days of the Week.

Most persons are familiar with the facts in reference to the nanes of the days of the week, and yet there may be some who are not able to account for the order in which they occur.

The division of time into weeks, was probably first made by the Chaldeans; and

ceptable. AT MACON, a New Orleans firm, by Carre's AT MACON, a New Orleans firm, by Carre's apparatus, are producing forty tons of ice per day, and increasing their capacity by the addition of machines, so that by next spring they hope to produce 150 tons each day. The machines, however, are elaborate and costly, the largest being valued at \$25,000 and capable of producing more than ten tons per day, at a cost estimated at \$8 to \$5. The daily expense is a very little fuel and the cost of working. Congelation is produced by the alternate evaporization and liquefaction of aqua ammonia, by which cakes of ice are formed every five minutes in twenty pound slabs about three inches thick, which are piled upon one another and congealed to any desired thick.

An ART GALLERY, to oost one million and a half of dollars, is to be erected on Fifth avenue, New York. Mr. Henry Keep, a wealthy railroad man, has bought a lot two hundred feet square on Fifth avenue, between West Fifty-dirst and Fifty-the District Court of said district. avenue, between West Fifty-dret and Fifty-second streets, where the building is to be constructed. After founding and endowing the art gallery, Mr. Keep proposes to place it in charge of a committee of ladies of a fixed number, with provision to fill the vacancies as they occur from death or otherwise. A small admission fee is to be charged each visitor, the revenue coming from which is to form a fund for two nurfrom which is to form a fund for two purposes: first, the care and repair of the bullding and its contents; second, the surplus for the relief of the poor of all nations needing succor in the city of New York.

SPECIAL NOTICES.

MANHOOD AND THE VIGOR OF YOURH restored in four weeks. Success: guaranteed. DR. RICORD'S ESSENCE OF LIFE restores many powers, from whatever cause arising; the effects of early perniclous habits, selfabuse, impotency and olimate give way at once to this wonderful medicine, if taken regularly according to the directions, (which are very simple, and require no restraint from business or pleasure.) Fallure is impossible. Sold in bottles at \$3, or four quantities in one for \$0. To be had only of the sole appointed agent in America, H. GERITZEN, \$05 Becond Avenue, New York.

EPHILOSOPHY OF MAR-BIAGE, a new Course of Lectures; as delivered at the New Tork Museum of Anatomy, empracing the subjects: How to live and what to live
for: Youth, Maturity and Uld Age; Manhoodgenerally reviewed; the cause of indigestion, fathlence
and nervous discases accounted for; Marriage philiorophically considered, &c. Pocket volumes containing these lectures will be forwarded to parties
unable to attend, our receipt of four stamps, by addressing SECHETARY, New York Museum of Anatomy and Science, 618 Broadway, New York.

SAFETY FIRE JACKET. SECURITY AND COMFORT FOR

THE TRAVELING COMMUNITY. i. B. Habbis' safety fire jacket.

Car Heater and Moderator,

For SMOKE AND HOT AIR FLUES, dispensing with the use of Stoves and Fires in or about the Passenger or Baggage Cars, with the statement to graduate the heat to any temperature that may be desired without the possibility of firing the car or cars to which the Jacket may be attached. Having obtained of the United States Letters Patent for a Safety Jacket which is warranted to resist the most intense heat that may be adjuded to it in the position and purpose for which it is intended. It is assert protection from accidents by fire, originating from defective fines, or where iron pipes are used as conductors for smoke or heat. It is appliplicable to all piping that may become overheated, and is warranted to give perfect satisfaction where wood or other combustible material may be placed in close proximity thereto. I am now ready to apply my invention to stores, dwellings, facteries, ships, it stamboatis, railroad cars, &c., wherever pipes as conductors are made dangerous by being overheated and security desired. I will sell, on application, rights to manufacture or to use the above invention; also, territorial rights, to such as may wish to engage in sellling privileges, either by State or county.
