JACKSONVILLE, Fla., is trying to get a line of steamers between that town and New York.

QUEEN VICTORIA spends \$25,000 a year on her kitchen. What a dicker that kitchen must have.

SIXTY reigning belles are reported at Newport. What a pluvial peal of laughter they must make!

TEN thousand persons are divorced yearly in Indiana; this makes about 5,000 pairs of dividers.

THE four-in-hands at Newport are distinguished because of a New Yorker named Grey, who drives a six-in-hand.

MRS. LANDER has a new translation of Marie Antoinette; she evidently intends to Restore (i) the legitimate drama.

PARIS has concluded not to come the dromedary over the rest of the world, and has, therefore, abandoned panniers.

BURGH has been discovered in New York; the attention of geologists and antiquaries is directed to it. Horse cars race there now.

COMMODORE STEVENS left twenty millions of dollars behind him to be divided among his bequeathed widow and eight bequeathed orphans.

was a funny paper, and in this joke we think Quilp has capped the climax and outdone himself at last.

THE spirit of imitation is strong, even with Presidential candidates. It is said that when the intelligence reached St. Joseph, Mo., that Seymour was last seen on his farm putting in new hay, Blair, who was in the place, immediately put in a little old rye.

FASHIONABLE young Londoners play croquet in the West End Parks, and have admiring audiences about them, composed of rag tag and bobtail.

THE recent fearful accident at a music hall in Manchester, Eng., reminds us that whenever an alarm of fire breaks out in an English place of amusement, the audience becomes intensely excited, and nothing but escape from the building, or death, seems to ally it, while here in America the excitement comes, but if the alarm be false, as it was in Manchester where twenty-five men were crushed to death, calmness settles on the audience as speedily as did the excitement, and the instances of death at an American theatre when the alarm of fire was false, are either very rare or lacking altogether.

THIS mineral, which, under the name of plaster, forms so large a part of the exports of Nova Scotia to this country for agricultural purposes, it is stated, has been discovered in Smyth county, Virginia.

THE quality of this plaster is superior to any now known on this Continent. Such as have had a fair opportunity of testing it with the Nova Scotia, fix their relative value at fifty to one hundred per cent. in favor of the Virginia—that is to say, one ton of the Virginia is equal to one and a half to two of the Nova Scotia.

WE have been informed of an incident which occurred at the New York Convention, which is full of significance, and shows that from the first it was determined to force upon the party the adoption of Frank Blair's "wiping out" policy.

ONE of our friends in the Convention took counsel as to whom they should cast their votes for as a second choice. It was determined, in order to preserve Pennington's chances in 1872. Various names were suggested, and among the rest that of Rev. Johnson.
