## MEDICAL.

I feel myself under obligations to you, as well as a duty I owe to others who have been like sufferers with myself, in order that they may know where they can get cured. I had been subject to riolent, continued attacks of ASTHMA for more than six years, and had been to great expense and to various medical men of experience without obtaining any permanent relief, or relieved at all. I was so bad that I never knew what it was to be free from the disease. I had to sit up in bed every night for weeks and weeks, without any prospect or hope of cure My condition was such that I felt life a burthen, and when I got an attack I felt in danger of sufficating every moment. So terrible had been my suffering that my mother says that she has seen me so near suffocation that I was nearly black in the face from the desperate efforts made to get breath. In the cold winter nights, many a night, with the doors and windows of the house thrown wide open, it order to hinder the apparent danger of strangula-tion. In this condition, on the 13th of October, 1866, having heard of DR. KEYSER'S skill in curing this disease, I called on him, in company with my husband, Joseph Meyers, but I must con fess with a great deal of doubt as to effecting a permanent cure. DR. KEYSER examined me carefully, and my lungs all over, with his LUNG SOUND, and told me that with care I would got well. I persevered with his medicines for over a year, and am to-day in vicorous health, and totally FREE FROM THE ASTHMA, and its terribly disagreeable attendants. I have had, once in a while, slight attack of the disease, but I regard my health as entirely re-established, and if I do have any attack, a few doses of the Doctor's medicine immediately relieves cannot feel too thankful for the exemption from a disease which used to cost me whole weeks and months of loss of sleep, beside suffering which none but those who are subject to

Birmingham, Dec. 9, 1867. The case of Mrs. Meyers, recited above, is one of more thon ordinary importance, because of the violence of the attacks, their continued length, and the great prostration of all the vital powers attending the disease. Any one who knew her during the time she was a sufferer from the disease of which she was cured, and will look at her now, the very picture of robust health, cannot but admit that the cure is one of more than ordinary character, inasmuch as we hear of Asthma every day of our lives, being a disease of an incurable nature. Let those who doubt investigate for themselves.

this disease can fully appreciate or describe.

### SIGHT RESTORED.

The case to which we alinded some weeks ago, of Christiana Fisher, of Beaver county, is now entirely confirmed by the appearance of Mies Fisher hervelf, who to-day called on Pik, KEYSER in person, to thank him for his kindness and skill in restoring her to ENTIRE AND PERIPECT SIGHT. Miss Fisher has been nearly blind for four months. She was so blind that she could not distinguish any object so as to make out what it was. The case is remarkable, as hundreds of cases like her's are doomed to never-ending darkness, on the flimsy pretext that there is no cure, and nothing can be done. She was under Dik. KEYSER'S treatment for two months, and before she applied to him, through her brother, simon P. Fisher, slight hopes were entertaint of the ever getting her sight. Her case is considered to the cover getting her sight. Her case is some to be a considered as one of extraordinary recovery. We, the undersigned, know of the cure of Missr isher, and hear widnes testimony to the fact above stated.

DR. KEYSER-This is the list of names that I have to your advertisement of the cure of my sister. Christiana Fisher. They were all willing to put their names down, and were very much astonished to see that you brought her sight to soon. My inother sends her thanks to you; she says "you are one of the greatest men in the world." She says if we had not come across you she believes her child would not be living at this time.
