At a few minutes after eleven he left the stand, and was placed in a carriage and driven home, amid the cheers of those

After running over the record of the two parties for the past ten years, he turned his attention to the oppos-ing candidates for the Presidency, and after drawing a comparison, in which Sey-mour sank into insignificance, he eulogized Grant in most eloquent terms.

Beaver.

That the Republicans of Beaver county are keenly alive to the great issues of the hour, wasamply evidenced by one of the largest political gatherings that ever assembled within its limits, on Friday evening, in the town of Beaver. The people turned out en masse and the meeting grew to such massive proportions that the commodious Court House was found entirely too small for the occasion, and an adjourn-ment to the public grounds surrounding it was rendered necessary. Messrs. Donley and Thos. M. Marshall addressed the meeting. The latter made one of the most powerful speeches of the campaign, and though his remarks filled two hours and a First ward, Allegheny, under the auspices of the Grant and Colfax Club of that ward.

The voters of the ward turned out en masse, and there were quite a number of ladies though his remarks hiled two nours and a half and extended beyond midnight, the meeting cried, "go on!" as he concluded his speech. The Republicans of Beaver county will do their full "duty at the approaching elections.

Able addresses were made by Hon. John Covode and other gentlement. Great disappointment was expressed that Thomas M. Marshall, Esq., was not present, but as he was not advised beforehand and had made other arrangements, the fault did not rest with him. The Republicans of Fayette county may be relied upon for doing their full share in the glorious work of electing Grant and Colfax.

At McKeesport.

A very large and splendid meeting was held at Banksville, in Union township, on Saturday night. The people turned out in their might, and never since the exciting days of 1800 has there been held a larger or more enthusiastic meeting. Mr. T. W. Row on Third Street. A disgraceful fight occurred yesterday evening on Third street, near Smithfield. octween John Crisler and William Row. It appears that the parties were both drunk, and had been amusing-themselves on Third street by upsetting boxes and barrels from the sidewalk into the street. Crisier, when he could find nothing else to tumble over, shoved Row off the sidewalk, whereupon Row knocked him down, and a general fight ensued in which Row proved the better man. After getting Crisier down and pounding him for some time, during which he lost his shirt, Row, fearing the police might get around that way, left him and went up Third street. Crisler, although pretty badly beaten, was not satisfied and started in pursuit of Row. At Smithfield street the parties again came together with much the same result as be-tore. An immense crowdd had assemble by this time, and Ohief Green seeing it started in that direction, when both parties fled. The Chief followed Row, and after a short hase captured him and conducted him to the lock up. Crisler succeeded in making his escape and has not yet been arrested.

Larceny of a Hat.

Mr. J. J. Walker, while engaged at a game of billiards, Saturday, at the Revero House, hung his coat and hat on a hook, and during the game some enterprising young man picked up the hat, and, it is alleged, took a pocket book out of the coat pocket, containing \$10. The fellow who ap-propriated the hat left the saloon, but it appears only reached the side-walk in front of the house, where he became involved in a quarrel with a drunken man, and the two were arrested for disorderly conduct and taken before the Mayor, who committed them for twenty-four hours. Shortly after the officer had departed with them for the iail Mr. Walker came in the office and made lati Mr. Watter came in the omee and made known, his loss, whereupon he was shown a hat which Thomas Johnson, one of the parties just committed, had secreted under his coat, and which had been taken from him by the officer who arrested him. Walker at once identified the hat, and made nformation against Johnson charging him with the larceny of the hat and money. A commitment was lodged against him to

answer the charge at Court.

Saengerfest, We dropped in at the Rink on Saturday and found workmen busy in preparing a large fountain in the centre of the extensive floor. From this fountain jets of water and spray, illuminated by a multitude of gas-lights, cannot fail to elicit the admira-tion of the thousands who will attend the great exhibition. The fountain will be iringed by a rustic border of moss covered ringed by a rustic border of moss covered stones. Numbers of large basket boquets pendant from the ceilings, and numerous singing birds, will be among the charming features of the coming feast. That every-thing suggested by good taste and ample means will be done for the decoration of the Rink, is assured by the fact that the well known floriculturists and seed merchants, Messrs. A very master's car and a baggage car, drawn by Clubs of the two cties was held at City Hall engine No. 21, bound south. Both trains were moving rapidly, and when the engineers discovered the danger the locomogineers discovered the danger the locomotives were so near together that it was impossible to avoid a collision. Every effort was made, but the locomotives came together with heavy force, and both were thrown from the track. The fineman of No. 13, named Hardy, was caught between the locomotive and tender, and a long time through the result of the could be result in elapsed before he could be rescued. He suffered intensely and prayed his friends to kill him and put him out of his agony.

'At last he was released and removed to Kittanning, where he expired Friday evening at seven o'clock. He resided in the Fitteenth ward of this city, and his remains were brought home on Saturday last. The engineer, Mr. Walters, was also injured, but it is thought he will recover. comotives were both more or less damaged. Some of the officers of the road, we are informed, were in the paymaster's car,

but escaped unburt.

If our information in regard to the affair is correct, it is quite evident that the ac-cident was the result of carelessness on the part of some one, whether the party in charge of the special train, or the engineer of the regular train, we are unable to say. It is alleged that the special train was running on the time of the regular train, and that it had not been announced, which, if so, is not only culpable carelessness but highly criminal, as a collision would be the natural consequence of such carelessness.

The Benninghoff Robbery

Arrests. The Titusville He ald says: The interest in the Benninghoff robbery, upon which so much has been said and written, has by no means subsided in this section; but, on the contrary, it has been kept in a very lively state by occasional rumors of new "strikes" by the police and detectives, and by re-ports about the condition, prospects and intentions of the robbers who are in dur-ance vile at Franklin. Reports have been circulated within a week or two to the effect. that the police were about to secure parties implicated in the robbery, about whom the public had heard nothing, and the move ments of certain officers who were thought to be working up a new case were watched closely. Yesterday these runners took definite shape, three men who have been working as engineers in the vicinity of Bull Run having been arrested on the charge of having participated in the robbery. It appears that some time since Deputy Sheriff Kinney, of Petroleum Centre, got hold of a clue to what is alleged to be the gang which perpetrated the robbery, but which is wholly unconnected with that which was led by Jim Sæger, of Sægersucceeded in obtaining the information which led to the arrest above mentioned. The names of the parties are suppressed at the request of their friends. The full particulars attending the implication and a rest have not yet transpired.

Beligerant Barbers. Edward Inger made information before Mayor Drum, Saturday morning, charging Henry Blackmore with aggravated assault and battery. The parties are colored barbers and reside in Temperanceville. Bluckmore was arrested and had a partial Bluckmore was arrested and had a partial hearing before the Mayor. He was ordered out of the shop, and upon refusing to obey, "sufficient targe?" to clot him was used. Trace. ficient force" to eject him was used. Inge was badly beaten about the face, an ugl cut being apparent on the chin, while both eyes were swollen so much as to seriously interfere with his faculty of seeing. The Bellfield Mission Sabbath School vesterday was opened for the first time in the new and elegant church edifice recently erected. The scholars were much delighted with the change from the humble quarters they had left. A number of zealous christian ministers and laymen nade short addresses to the scholars paratory to the re-organization of the classes. The school now numbers about one hundred and fifty as bright-eyed and intelligent children as can be mustered together in the city, and under the tuition and care of such philanthropic gentlemen as Messrs. GENUINE

MANUFACTURED BY PETER SQUIRE, 277 Oxford street London. This Soap has been, by a peculiar process, freed from the excess of alkali almost invariably found even in the purest Soaps, and at the same is me it is made to take up a large quantity of Glycerine (40 per cent. It is to this latter substance that it chirdly owes its southing quality—softening the skin,

chleff wes its soothing quality—sortening the skin, preserving the complexion, preventing chapping and the unbleasant roughness experienced in cold weather. It is found most useful in alloviating the irritation produced by dryness of the skin. On account of its great purity it recommends itself to all persons that suffer from the use of common Soaps; for delicate a kins it is the only weap that can be tolerated. It is particularly useful for cleansing diseased skins, where the irritation produced by ordinary Soaps causes so much inconvenience. It is the m st agreeable shaving woap that can be used, leaving the skin soit and comfortable. The boaps usually sold as ellycerine moaps contain little or no Giveerine. It is only necessary to apply the tongue to the surface and the genuine will be distinguished by the sweet taste. Agent, SIMON JOHNSTON. Corner Smithfield and Fourth Streets.
