Gaugers and Storekeepers Appointed-Executive Order Concerning Alaska-A Masonic Request—The Alabama Claims— Politics in North Carolina.

IBy Telegraph to the Pittsburgh Gazette.] WASHINGTON, August 25, 1868.

THE ALABAMA CLAIMS. Mr. Seward says that there is no reason to fear any new difficulty in regard to the Alabama claims, and that it will be unnecessary to refer them to the arbitration of a third power in the manner desired by Louis Napoleon The instructions to Minister Reverdy Johnson, from Mr. Seward. are full, complete and unlimited, and he can therefore exercise, his own judgment and consider the claims and the questions of international law therein involved demons, and entirely without reference to the former complications that have arisen between the two governments. When Mr.

Johnson left here a few weeks ago he expressed the belief that within two months
for thereabouts, after his arrival in England, he will have settled upon the basis or Alabama claims.

odi Ford EXECUTIVE ORDER-ALASKA. The following executive order was issued

to-day: Under and in pursuance of the authority vested in the President of the United States by the provisions of the second section of the act of Congress, approved on the 27th day of July, 1868, entitled an act to extend the laws of the United States relating to customs, commerce and navig agation over the territory ceded to the United States by Russia, to establish a collection district Hussia, to establish a collection district therein, and for other purposes, the port of Sitkain said territory is hereby constituted and established as the port of entrycorche collection district of. POLITICS IN NORTH CAROLINA. The Chairman of the Republican State Central Committee of North Carolina, writes that Nathaniel Boyden, Conservative member of Congress from the Sixth district, has come out in a strong letter for Grant and Colfax, and that the prospects in that State are cheering. A distinguished staff officer who has just arrived from South Carolina, says that the Democrats in south Caronna, says that they are too largely in the minority to successfully over-awe the colored voters, have changed their tactics, and now treat the negroes with marked kindness, and are helding out to them promises of increased pay, a suit of clothes at the end of the year, and various similar inducements if they vote the Democratic ticket. He represents that this system is being prosecuted with a considerable show of success.

A MASONIC REQUEST.

A Committee on behalf of the Washington Commandery No. 1, Knights Temp lars of the District of Columbia, have addressed a letter to the President respectfully requesting that he will cause an order to be issued granting leave of absence for nine days, commencing on the 12th of September, to such Knights Templar in the Executive Departments as may desire to be present at the triennial conclave of the Grand Encampment of the United States, to be held at St. Louis on the 15th proximo. The President has referred the request the different heads of Departments and recommended it to their favorable consideration, in as far as may be consistent with the law and the public interests.

POREIGN WAR RUMORS. The State Department has just received dispatches from General Dix, our Minister to France, in which he assures Mr. Seward that there is no good foundation for the rumors of washingtoness. rumors of war between France and Prussia. The Emperor of France has assured our Minister personally that these reports were originated in Vienna, London and Parisby speculators, or persons who would look quietly on white their own households were being destroyed, if the calamity would bring a crisis in stocks.

PARAGUAYAN WAR. It is understood that the instructions of General McMahon, the new Minister to Paraguay, look toward mediation between that Republic and the allies now waging war against her. He is not to interfere unnecessarily on either side; but if the services of our Government as a peace-maker will be at all acceptable he is au-

thorized to act. CANNOT AGBBE. As it is impossible for Secretary McCullochand Commissioner Rollins to come to terms relative to the appointment of Supervisors under the new law, it is quite phable that the President will auspend

Distressing Suicide—A Young Man Drowns Himself While Temporarily Insane. Coroner Clawson held an inquest yesterday afternoon on the body of a young man named John Chilton, who drowned himself burg, has been ill for some time past with typhoid fever. For several nights it was found necessary to sit up with him. Shortly after midnight the persons who had been watching over him retired, leaving the young man, who seemed to be in a sound sleep, apparently much better. About four o'clock in the morning some of the family arose and on entering the sick room found it empty. Search was imme-diately instituted and the coat of he missing man found on the bank of the river. Grappling irons were procured and the river dragged, by which means the body of the deceased was recovered. Every effort was made toward resuscitation, but they were of no avail, the body having been in the water too long. The deceased was a native of England, deceased was a native of Englant,
a coal miner by occupation, and
had been in this country only a few
months. He bore an irreproachable character and was highly respected by all who
knew him. The jury returned a verdict of
suicide by drowning while laboring under

fit of temporary insanity.

Allegheny Temperance League. A regular meeting of the Allegheny City Temperance League was held in the Beaver street Methodist Episcopal Church last evening, with Vice President Rev. A. K. Rell in the Chair, and the Secretaries, W. G. Warren and G. W. Bradley, officiating. The meeting opened with prayer.

The minutes of the last meeting were ead and approved.

Rev. Mr. Milligan, the speaker of the evening, spoke on the question, "Is it just and right to promote to office, in Church or State, those who are addicted to intemperance?" The reverend gentleman, quoting from the Bible, endeavored to show by facts, scriptural and historical, that it is not right to put in place or power those who use strong drink. Stimulated enthusiary in the control and the said that siasm is abnormal—not real. He said that there is a responsibility resting upon the people, the church, the State and the army as to whom they put in power, and also as to how they that are in power act in regard to the use of intoxicating drink. As a people we are now suffering from the intemperate habits of those who are in high auhority and power in our beloved country. The reverend gentleman's address was well listened to by a large and interested

audience. On motion, it was resolved that the Society endorse the proceedings and action of the County Convention, held vester-000, was sent to New York to-day, from day in Pittsburgh and the nomination of Mr. Isaac Charles as the citizen's Temperance candidate for County Conmissioner, and pledging him a hearty sup-port. Remarks on this resolution were made by J. B. Clarke, Mr. David Blair and others, when it was adopted unanimously, after which the League adjourned with benediction by Rev. A. K. Bell.

> Wild Bull on the Rampage. A wild bull got loose in the streets of Allegheny yesterday afternoon about four o'clock, and raised quite an excitement and consternation among pedestrians along his line of march. It seems the animal was being taken, in company with a drove of others, from a stock car at the outer depot of the Fort Wayne road to the cattle yards. when by some means he broke away and commenced his antics. At the corner of Ohio and Federal streets he attacked a man Onto and Frederal streets he attacked a man named Fred. Keyser, residing in the Fifth ward, Allegheny, tossing him into the air, goring quite a large hole in his arm and otherwise severely injuring him. The in-jured man was taken into Dr. Rhoads' office and his injuries attended to. Continuing his course down Federal street, the infuriated minul attacked several other persons, one of whom, a boy, was badly wounded in the head and had the clothing almost torn from his body. A shoe store near Stockton avenue, next attracted his attention, into which he bounded; making the circuit of the premises inside and emerging into the street again before the affrighted proprietor could do anything toward his own defence. Turning round his bullship start-ed up Federal to Water street and perambulated that thoroughfare to the East Com-mon. By this t me a gun had been pro-cured and his career was ended of a well aimed shot, Mr. Wm. Mahler acting as

Nimrod on the occasion. So terminated another bully affair.

Further Test of a Cast Steel Boller. Yesterday afternoon we met at Messrs Carroll & Snyder's works, and witnessed a renewal of the attempt to burst a beiler made of Park Brothers & Co's steel, which we described in our issue of Saturday. At that time after reaching a pressure of 665 pounds, it was found impossible to raise it any higher because of the force pump by which water was injected and the loakage, mainly from the manhole joint. This leakage having been reduced, and another pump added, the trial was repeated yester-day, four times, in which 610, 675, 720, and ngain 720 pounds pressure were successively reached. The same cause as before prevented the production of a higher pres-sure than 720 pounds, equivalent in a boiler of this size—38 inches in diameter—to a tensile strain of 74,000 lbs to the square inch of section. There were no indications but that the boiler would have stood as much higher pressure notwithstanding its great tensile strength, the ductility of the steel was such that the boiler was increased three inches in circumference by stretching. Another attempt to burst it will soon be made. Enough has already been done to prove the steel of which it is made unsurpassed in the qualities required in boiler making.
