

CENTRAL LIVE-STOCK MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, AUGUST 28, 1868.

CATTLE. The market for Cattle, since the date of our last review, Wednesday evening, has been moderately active, the sales in the aggregate, being about as large as usual at this time in the week. Most of the Philadelphia buyers have been home on Wednesday evening, and the only buyers in attendance yesterday and to-day, were stock-growers from the eastern part of the State, with the exception of one or two, who ship to New York. There was a fair supply of cattle in the pens to-day, but the majority of them were through Cattle, and as a consequence, were not offered here. The supply on sale, however, was about equal to the demand, and while prime shipping and good stock Cattle continue to meet with a steady demand, common and scalding stock is about as dull as ever. As extra fat cattle sold at from 7 to 7 1/2 cts, and one very choice drove of Indiana steers brought 8 1/2 cts.

Sheep. The sheep market present but little that is really new or important. The supply is generally the case at this time in the week, is considerably reduced, but there is nevertheless a more common and scalding sheep than there are buyers for. Prime fat sheep are in demand and limited supply, and we quote at 4 to 4 1/2 cts, common and inferior can be quoted at 3 to 3 1/2 cts down to almost nothing. The supply of common and inferior is not so large as it has been for some weeks past, largely in excess of the demand, and have been in limited supply, and buyers experience no difficulty in realizing 11 prices.

Swine. The hog market is firm and fairly active, with a demand, fully up to the supply. Prime fat hogs are in demand, ranging from \$10.00 to \$11.00 per cwt. gross, and other grades are in demand, ranging from \$8.00 to \$9.00 per cwt. gross. The market is generally the case at this time in the week, and we quote at 10 to 11 cts per cwt. gross, and other grades are in demand, ranging from \$8.00 to \$9.00 per cwt. gross.

Butter. The butter market is firm and fairly active, with a demand, fully up to the supply. Prime butter is in demand, ranging from \$10.00 to \$11.00 per cwt. gross, and other grades are in demand, ranging from \$8.00 to \$9.00 per cwt. gross.

Wheat. The wheat market is firm and fairly active, with a demand, fully up to the supply. Prime wheat is in demand, ranging from \$10.00 to \$11.00 per bushel, and other grades are in demand, ranging from \$8.00 to \$9.00 per bushel.

Corn. The corn market is firm and fairly active, with a demand, fully up to the supply. Prime corn is in demand, ranging from \$10.00 to \$11.00 per bushel, and other grades are in demand, ranging from \$8.00 to \$9.00 per bushel.

Flour. The flour market is firm and fairly active, with a demand, fully up to the supply. Prime flour is in demand, ranging from \$10.00 to \$11.00 per barrel, and other grades are in demand, ranging from \$8.00 to \$9.00 per barrel.

Produce. The produce market is firm and fairly active, with a demand, fully up to the supply. Prime produce is in demand, ranging from \$10.00 to \$11.00 per bushel, and other grades are in demand, ranging from \$8.00 to \$9.00 per bushel.

Financial Matters in New York.

Closed at 14 1/2.

Money is very easy at 5/16 on call but probably early resumption of shipments of currency to the west is likely soon to harden the market; prime discounts at 5/16; the failure of an old established Sitka house in the dry goods trade was announced. Sterling dull and heavy at 18 1/2; @10 for prime commercial bills, and scarce and even lower rates were anticipated should the firmness in Gold continue. Gold advanced at 145 1/2 and declined to 144 1/2, and advanced to 145 1/2 and closed at 144 1/2; the steady drain into the Treasury for Customs begins to tell on rates on loans. The weakness of exchange however checks operations for a time.

Government bonds are active and a shade firmer; 6 1/2's are scarce, and the market having been oversold in anticipation of return of bonds from Europe, are considerably higher, sales as high as 115. Closing quotations on Coupons 1881, 114 1/2 @ 138; do, 1882, 114 1/2 @ 138; do, 1883, 109 1/2 @ 110; do, 1884, 109 1/2 @ 110; do, 1885, 108 1/2 @ 108; do, 1886, 108 1/2 @ 108; do, 1887, 108 1/2 @ 108; do, 1888, 108 1/2 @ 108; do, 1889, 108 1/2 @ 108.

Stocks. The stock market opened dull and weak, and closed strong. The features of the day were Michigan Southern which advanced on a rumor of an early consolidation with the Cleveland and Toledo Railroad; Pittsburgh, Fort Wayne and Erie, a higher but not active; New York Central, a quiet and steady; Erie is dull and heavy; Express shares are very quiet; Wells and Fargo which is depressed by the Indian troubles.
