THE SECOND Democratic Rebellion is reported to have broken out, at last, in Arkansas, where three counties are said to be in a state of insurrection. The Democracy of Pennsylvania begin to dream of more fat contracts at home, while the Union men of the South are butchered by their friends.

WHEN any fighting is going on, the Copperheads are not at the front. They are plundering in the rear. That is the thing they want another rebellion for. They would see the Union shivered into anarchy and ruin, if they could only get a few fat contracts for army supplies. See Post of

yesterday. WE HAVE it confessed by the Democracy that they did no fighting during the war, preferring to remain at home and go in for the plunder. All the blood shed by the Copperheads then or since was an occasional murder, like that of poor CASEY, their victim in Clearfield. See Post of yesterday, and the sworn testimony before the last Legislature.

VERMONT chooses State officers and three Congressmen to-day. She gave Page, for Governor, 31,604 Republican votes last year, against 11,510 for the Democratic candidates. She will do better now, and reelect three Congressmen by increased majorities. Their majorities in '66 were 7,532 in the first district, 6,900 in the second and 2,936 in the third.

THAT eminent Northern Democrat, Ex-Senator Pugn, of Ohio, in a speech made, on the 22d, at a harvest-home festival near Cincinnati, thus referred to the loyal reconstruction of the Southern States:

Now, I am not a war man; I am at an age when I could not be conscripted into the militia. HON, JOHN SHERMAN.

This distinguished Senator will speak on Monday, September 7th, either in Pittsburgh or Allegheny City, as may hereafter be determined; at some point hereafter to be fixed in the Twenty-first District, on the 8th; at Philadelphia on the 9th; at Easton on the 10th, and at Harrisburg on the 11th. At all these points he will have very large audiences. We reprint this announcement, correcting an error as it first appeared.

GOV. JOHN W. GEARY.

Our illustrious Governor arrived in the city last night to participate in the Sungerfest occasion. He will remain in town to address his fellow citizens on the political issues of the campaign, at North Common, Allegheny city, to-night. Few orators are more brilliant than Governor Geary. His words come from an honest heart and generous soul, and he should be greeted with such an assemblage as will bid him carry words of cheer to our friends east of the mountains. Let every Republican attend to swell up the throng!

This kind of robbery is called, in police phrase, the "garrote." It is not BEAUREGARD's garrote, for what that emideath. The Post's garrote kills and robs the victim in another way, the Southern Democrat holding him level with a musket,

This is a handsome confession! It admits all that the friends of the Union have ever charged against Copperheadism. 1868:

It is useless to talk longer about preserving the freegovernment of our fathers, for it has already freegovernment of our fathers, for it has already become a mass of ruins and has virually ceased to become a mass of ruins and has virually ceased to become a mass of ruins and has virually ceased to kind. American freedom has been wrecked during this the period that the apostates to liberty (f. s., the president Lincoln and his advisers, have had control to the father). The great question for the future is whether there is sufficient wisdom, patriotium in the country to rebuild in Jemple of Liberty, to drive out the architects of ruin and reconstruct a free Government.

When President Lincoln called for three hundred thousand men, in October, 1863, PILLSBURY Wrote: "Let those who believe in the policy redeem their pledges and answer this call for more men." He referred to the draft as a "policy resorted to only by Democratic Governments," and said of the people in regard to it, "Their patience is about worn out." Of ABRAHAM LINCOLN he said:

Alas! that Lincoln had not been consigned to in-famy and forgetfulness before he succeeded in drenching the land in blood and converting our free Governmen into a military despotism. He supports Seymour now, as Seymour supported him then; and these two men, with VALLANDIGHAM and PENDLETON, whose boasts that they voted to give neither a dollar nor a man to the country, are reiterated by the Pittsburgh Post of yesterday, are to-day the representatives of the Northern Democratic party, as FORREST, BEN. NOTES, CRITICAL, EXPLANATORY AND PRACTICAL, EXPLANATORY AND PRACTICAL ON THE BOOK OF PSALMS. By Albert Barnes, Author of "Notes on the New Testament," "Ifectures on the Evidences of Christianity," etc. In three volumes. Vol. I. Published by Harper & Brothers, New York. For sale by Henry Miner, Pittsburgh. It is not surprising that half a million of

volumes of Mr. Barnes' Commentary on the New Testament have been sold in this country, and perhaps more than that number in foreign languages, as the work is exceedingly popular, on account of its clear and satisfactory explanations of the sacred text. For this reason especially, his works have been a favorite with teachers in the Sabbath Schools. The same valuable features appear in these Notes on the Psalms, short and concise. The venerable author has avoided the objectionable course of some Commentators, and has sought to simplify his explanations without the parade of learning, which has frequently confused the student, stead of explaining the Scriptures. These "Notes" are eminently practical, and will be found a useful help to a better understanding of the Psalms. The introductory notes, covering forty pages, are yaluable and instructive. The author has spent forty years in this delightful work, in connection with his ministerial duties, twelve of which were devoted to the preparation of the Psalms, and all performed in the early hours of the morning. Considering the difficulties under which the work was prosecuted, by the partial loss of night, it is marvellous indeed that he has succeeded in

The second volume of this elegant edition is just out, containing "Nicholas Nicknent Democrat suggested was merely that elby," "Martin Chuzzlewit," and "Amerithe Union prisoners should be strangled to can Notes." It will be completed, as previously stated, in six volumes. In noticing the first volume we spoke of its excellencies, as we thought, in favorable terms. Followwhile the Pennsylvania Democrat rifles his ing after the numerous editions, by different pockets. Congenial employment for North-publishers of the great novelist's works, it ern Copperheads, while any fighting is certainly eclipses most of them, and is especially desirable for Library purposes, from the fact that the series comprises but six volumes, and it is so handsomely gotten up and withal so cheap. not fail to be popular. JOHN WARD'S GOVERNESS. A Novel. By JOHN WARD'S GOVERNESS. A Novel. By Annie L. MacGregor. Published by J. B. L'ppincott & Co., Philadelphia. For sale by R)bert S. Davis, Pittsburgh.

The title is suggestive of a love story, and such it is, and one, too, charmingly told by the fair author. It presents the history of the marriage of a wealthy young man, of an old aristocratic family, to a beautiful Italian actress, who, after a few brief years deserted him in a foreign land, leaving him the rich legacy of two beautiful children, who were placed in charge of a handsome governess. Very soon Ward becomes charmed with this young lady, and finally tendered her his heart and hand. After they were married it was discovered that she was the daughter of a wealthy merchant, who had died poor, and was well known to her husband's family. The story is woven together in fine language, and is quite readable. The work is dedicated to Dr. O. W.

Holmes, the distinguished poet and author. THE MOONSTONE. A Novel. By Wilkie Collins, author of "The Woman in "White," "Armadale," "No Name," etc. With many illustrations. Published by Harner and Rothers. New York. Harper and Brothers, New York. For sale by Henry Miner, Pittsburgh.

While this charming story was appearing in Harper's Weekly, it excited thrilling interest. The reputation of Wilkie Collins has already been made by "The Woman in White," and other works of fiction, "Moonstone, however, will increase his popularity as a writer. He has learned the art of story-telling, which few of the writers of the present day have obtained to the same degree of perfection. The numerous and elegant illustrations, too, present the salient features of the story so prominently that the reader has a panoramic view of the plot from the illustrations alone.

LIFE AND PUBLIC SERVICES OF GENERAL ULLYSSES S. GRANT AND SKETCH OF HON. SCHUYLER COLFAY. By Charles A. Phelps. Published by Lee & Shepard, Boston. For sale by Robert S. Davis, LIFE AND PUBLIC SERVICES OF GENERAL

It is to be expected that a person so distinguished and meritorious as Gen. Grant, and likely to be elevated to the Presidency, would be a good subject for book writers. Among the numerous biographical works of the Great Captain, this volume possesses excellencies superior to some, which commends it to the public. It is concise, wellprepared and not fulsome, and though gotten up for campaign purposes, as the "People's Edition," it is worthy for the library as an excellent history for reference, of this the President to hold separate elections for extraordinary military chieftain. The author, Charles A. Phelps, late Speaker of the Massachusetts House of Representatives, and President of the Massachusetts Senate, has performed his work well. The brief sketch of Mr. Colfax is quite readable, and honorable to that distinguished civilian.

This is one of the earliest creations of Bulwer. It is full of exciting incidents, and the characters are sketched with signal ability. Each character stands out in bold relief, and such as Sir William Brandon and his charming daughter Lucy, and Augustus Tomlinson pre-eminenetly so. The plot is advoitly presented, which gives the story a charm that excites the reader from the beginning to the close. This volume is

The author has woven the materials bearing upon these two central characters, Goethe and Schiller, in a charming style, setting forth the salient characteristics of these "priests of poetry" with great fidelity. The habits and times in which these characters lived are shown to be not up to the standard of the present day. The volume gives an excellent idea of society in those days. The two latest issues of this series are entitled "Lucy; or Married from Pride," and "Medusa and other Tales." The former is said to be a story of real life, and there is an avoidance of whatever verges on improbability. It is quite readable. "Meduss," by Adelaide Kemble, the author of "A Week in a French Country-house," is likely to have equal merit with the latter work, which has already a fourth edition.
