The Pittsburgh Female College\_Re-open

This home institution, in which all Pittsburghers centre so much pride, will reopen to-morrow for the reception of pupils after a brief season of vacation. During the past few weeks the College buildings, the best of the character in the State, have the best of the character in the State, have been thoroughly refitted and beautified, the management having spared neither pains nor expense to render them equal in every respect, and vastly superior in many, to any College in the United States. More than three thousand dollars have been judiciously expended in improving the interior of the class and study rooms, dining halls and chambers, the latter department having been supplied with new furniture and carpets. The Faculty has been re-organized and is now much stronger than ever in all of the various destronger than ever in all of the various departments of education, none but first class eachers having been engaged. In the faculty and among the pupils representatives are found from Maine to Omaha, and the incoming session promises to prove one of the most prosperous ever enjoyed by the College. Parents, guardians and others who have daughters or wards to educate will do well to pay this model educational insti-tute for young ladies a visit, and discover for themselves its many claims for their preference.
