NEW BRIGHTON, PA.

Annual Conference of the Methodist Church. (Correspondence of the Pittsburgh Gazette.)

NEW BRIGHTON, Pa., Sept. 4, 1868. AFTERNOON SESSION.

Conference opened with religious services, conducted by Rev. John Gregory.

Rev. A. Hutton, at his own request, was voted a testimonial of his good standing.

Rev. G. G. Wagnall was released from the office of Treasurer of the Conference Missionary Society, and Rev. Jesse H. Hall elected in his stead.

At this stage of the meeting the name of Rev. Valentine Lucas, deceased, was called, and Rev. Brown, Reeves, Pashley, Collier, and Scott paid touching and tender tributes to his character.

Brother Lucas was a worthy member of the conference, and a useful minister of the Gospel.

Dr. Collier was requested to prepare his sermon, delivered before the conference, on the Divinity of Christ, and publish it in permanent form for distribution among the people.

In the evening a missionary sermon was preached by Rev. C. Jones. Text Luke 4: 43. "And he said unto them, I must preach the Kingdom of God to other cities."

His sermon was a beautiful and timely one, and was well received by the audience.

The committee on itinerancy and orders reported, recommending several brethren for ministerial orders and work.

The committee on boundaries reported a few changes were made in the boundaries of circuits and missions.

Adjourned with prayer by Dr. Ragan.

Affairs in Greece.

Accounts from Greece just received at Washington speak of the joy of the people in consequence of the birth of an heir to the Greek throne.

The child of Queen Olga of Greece received on the day of his birth, August 23, the names of Constantine Henry Demosthenes.

The bells were rung and cannon fired. The vast square before the royal palace was densely filled with an enthusiastic populace.

Another of those melancholy accidents resulting from the carelessness of handling firearms, occurred in Camden, N. J., last Tuesday afternoon.

An inhabitant of Berlin lately, during the great heat, experimented on the hatching of hen's eggs in sand.

A theory of the universe has recently been started, according to which the author attempts to show that the earth has been formed of gaseous matter.

To Ladies and Gentlemen—All About Kissing—How It Should and How It Should Not be Done.

The weather is hot—too hot, we think, even for love making and kissing. Yet, we suppose, young people care not for the condition of the weather or the range of the mercury when they "set their hearts on't" to love and be loved by each other.

"People will kiss, yet not one in a hundred know how to extract bliss from lovely lips, no more than they know how to make diamonds out of lead."

"This little item is not alone for young beginners, but for the many who get at it like hunting you or shelling corn. First, don't kiss every thing that catches."

"Two persons are a plenty to corner and kiss. More persons spoil the sport. It won't hurt any after you are used to it."

"Take the left hand of the lady in your right hand. Let your hat go to—any place out of the way."

"Hold the lady's hand lightly, but not too tightly. Send a little life down your left arm and let it know its business."

"In selecting locations for home mission work, we should give preference to the cities and towns where they are centers of influence, intelligence and wealth."

New Exercises, Sarcastic, Sept. 5, 1868. Conference opened at half-past eight o'clock. Religious services conducted by Rev. J. B. Graham.

The committee on itinerancy and orders reported, recommending several brethren for ministerial orders and work.

Adjourned with prayer by Dr. Ragan.
